MEMORANDUM OF OBJECTS AND REASONS

The Constitution of Kenya, 2010, envisages, as one object of devolution, the need of people at the County level to manage their own affairs as well as spur economic development. These twin objects will be realized through the avenues of efficient and effective revenue collection at the county level and prudent use of resources. The County Government Act grant the County Government an opportunity to apply its tariffs policy on fees, levies and charges as part of its revenue collection agenda. The Public Finance Management Act on the other hand requires that the County comes up with ways of raising revenue to fund its budget.

The Kajiado County had made its budget and enacted the Appropriation Bill. The Finance Bill is mandatory for the completion of the legal instrumentalities in the budgetary process.

The Bill formulates the proposals announced in the Budget for 2016/2017 relating to collection of revenue and other taxes for matters incidental thereto. It raises various categories of levies and charges that shall be applied to various services in the County. The Constitution mandates the County Governments to levy charges for services provided and to generally fund the activities provided under the Fourth Schedule to the Constitution. A few other new head of revenue channels have been included in line with the new provisions in the Constitution.

The said revenue is meant to supplement the allocation from the National Government to the County with a view to financing the County budget.

SAYIANKA OLE KOSEI,

Chairman, Sectoral Committee on Finance and Economic Planning.
