NAIROBI, KENYA

FOREWORD

The constitution of Kenya 2010 and Kenya Vision 2030 and its second five-year implementation framework, the Medium Term Plan (MTP) 2013-2017 provide the foundation for the preparation of the first County Integrated Development Plan (CIDP) 2013-2017 which will be instrumental for the actualization of the desired aspirations contained in the key national development blueprints and our affirmations to international ideals espoused in the MDGs at the County level. This will be done through the multifaceted interventions in partnership with the development partners and enhanced roles of the private sector through the Public Private Partnership arrangements. It is our firm belief that this will ultimately lead to the realization of the high quality of life as envisioned for all citizen of Nyamira County, including those in the Diaspora.

For us to be in tandem with Results Based Management, the driving force for the public service delivery, my government will sign and uphold a Performance Contract geared towards realization of CIDP during the planning period. The main focus, as a departure from the past, will now be to activate periodic reviews of CIDP implementation. This will also include mid-term evaluation for necessary development reorientations.

After requisite publication of the CIDP, my government will hasten the dissemination to lower levels including the wards. This will be an opportune time to reinforce ownership of the plans and apportion responsibilities towards their implementation.

1 wish to register my appreciation to all those who have been relentless in the technical backstopping of the entire CIDP preparation process through the consultative forums organized by the County Development Planning secretariat. Their contributions has enabled us to take stock of the county development needs and challenges and document the critical county specific alignments and interventions necessary for spurring county growth and development.

In particular, technical support was provided by Heads of departments in my Line Departments, Parastatals, Non-governmental organisations and National Government. We thank them for their tireless and magnanimous support towards the successful completion of the CIDP in the entire county. The CIDP preparation process faced a number of challenges that were finally surmounted through the sheer determination and commitment of those involved. It was indeed a learning process for all.

Let me recognize the supportive roles by the Honourable Members of Parliament, Senator, women representative and the entire political leadership including the ward representatives. Their pivotal role is duly recognized in the leadership and mobilization of their community members and through their various representatives in the diverse consultative forums that were instrumental in the CIDP preparation processes. They passionately and in a participatory manner gave their opinions on the desired vision and future of their County that spurred the inspiration of those involved.

To realize the envisaged benefits from the Plans, critical leadership from the political front will be a key ingredient to inculcate ownership and responsibility towards the actual implementation of planned programmes and projects, as well as the mobilization for the general collective will for participation by the citizenry.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

As a build up to the previous plans, the County will embrace National Integrated Monitoring and Evaluation System which will then be cascaded down from the county to the wards level so that communities and stakeholders will be more actively and fully involved in the entire programmes/project planning process: from initiation, selection, implementation, monitoring, evaluation and feedback. This inevitably will require sustenance and enhancement of the existing capacity building initiatives at both the County, Sub-county and ward levels for participatory planning and development.

The county will therefore put in place the County Information Management Systems all the way to the sub-counties to realize dynamic Sub-county Information and Documentation Centres. The County Planning and Management Unit will play a central role in the process. This will be actively pursued by the County economic department in collaboration with development partners.

Thank you all.

Hon. JOHN OBIERO NYAGARAMA

HIS EXCELLENCY THE GOVERNOR, NYAMIRA COUNTY

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

PREFACE

The 1st Nyamira County Integrated Development Plan (CIDP) for the period 2013-2017 was prepared by the County Development Planning Secretariat in close collaboration with members of the various Sector Working Groups (SWGs). Considerable effort was made by members of the County Sector Working Groups (CSWGs) who produced sectors draft plans that formed the basis for this final document. The office of the Governor through the Department of Planning and Finance, the office of County Commissioner as well as the County assembly provided overall oversight and subsequent approval of the Plan.

The CIDP is a product of broad-based and participatory consultations among a cross-section of stakeholders undertaken in the County as from February 2013. Other development actors in the County were involved in detailed discussions and preparations of the material content that formed integral parts of the final CIDP.

The consultations were conducted at the Ward, Sub-county and County levels. The plan has been prepared in the backdrop of the Kenya Vision 2030, the Second Medium Term Plan 2013-2017, the constitution of Kenya 2010, the County government act 2012, the public finance management act 2012 and in line with the Millennium Development Goals. The theme of the Plan emphasizes progress towards attainment of *"A Globally Competitive and Prosperous Kenya"* and an underlying awareness of the rapid changes taking place in the global environment.

The CIDP articulates medium term policies and objectives which are further translated into short term strategies, programmes and projects to be implemented under the Medium Term Expenditure Framework (MTEF). The latter is part of the financial reforms to strengthen financial discipline, accountability and efficient and effective delivery of services to the people. The Ministry of Devolution and Planning provided guidelines for preparation of the Plan.

The Plan is divided into eight chapters as follows:

Chapter 1 provides detailed background of the county; population; history; resource endowments; major development constrains; previous development achievements; health; education; etc.

Chapter 2 describes developmental strategies the county must adopt. In addition, it proposes specific policies that the county government plans to use to address the challenges and previous shortfalls. This section also includes the strategies to mitigate the effects of cross-cutting issues such as climate change, environmental degradation, HIV/AIDS, Gender inequality among others.

Chapter 3 describes the spatial framework within which development projects and programmes will be implemented.

Chapter 4 describes the linkages of the County Integrated Development Plan with the county sector plans, county Spatial plans, sub-county plans, National plans and international commitments made by the government such the MDGS, and how they apply to the county.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI KENYA

Chapter 5 identifies the institutional framework and organizational flow required for implementing the County Integrated Development Plan

Chapter 6 identifies the resource mobilization framework that which includes strategies for: revenue raising, asset management, financial management and capital financing.

Chapter 7 provides details of programmes and projects that will be implemented in the county. This includes details of strategic priorities addressed, measurable indicators of performance, and budgets.

Chapter 8 outlines how programmes and projects to be monitored and evaluated.

To all that were involved I salute you but at the same time acknowledge that the greater challenge lie in the actual implementation of the CIDP towards the achievement of our stated long-term national development strategy the Vision 2030, which our County is privileged to champion.

WILSON WANYANGA.
COUNTY COMMISSIONER,
NYAMIRA

COUNTY ASSEMBLIES FORUM (CAF)

NAIROBI, KENYA

ACKNOWLEDGEMENTS

This County Integrated Development Plan 2013-2017 provides the guidance and the key thematic areas to be implemented for the realization of the development initiatives of the community. The preparation of the CIDP 2013-2017 involved several stages mainly data collections, sectoral analysis, stakeholders' consultations and various validations of the document. I therefore wish to acknowledge and thank the various stakeholders who helped to put the document together. The members of the committee comprised of technical government departmental heads in the County and the representatives of the civil societies mainly DOREP was greatly committed to the support of this activity. The Ministry of Devolution and Planning ably provided the overall leadership and the direction towards developing guidelines used to prepare the CIDP 2013-2017. The committee therefore greatly benefitted from this direction of the ministry especially though the County Development Planning officer who appropriately advised on the necessaries. Their valued commitment and contributions to this document is therefore very much appreciated.

This document is also a product of several technical reviews, consultations and the validations forums held with the key stakeholders and partners. The information and statistics used in the document came from various sources including government technical departments, the Kenya national bureau of statistics, and the various community action plans conducted by several development partners in the County. The contribution from these institutions is duly acknowledged. More so, I would like to acknowledge the County Commissioner Mr. Wilson Wanyanga, his close supervision to this exercise greatly contributed to the success of the plan. I also salute my fellow executive committee members especially Mr. Jones Omwenga and Mr. Mareri who greatly gave support for the plan.

Special acknowledgements go to the Governor Nyamira county Hon. John Obiero Nyagarama and the Deputy Governor Hon. Amos Nyaribo who provided both political and overall leadership as well as support to the process. Further special acknowledgement goes to my Speaker Hon Peter Ngoina Mongare for his great support to the exercise.

Finally, the compilation of the County Integrated Development Plan 2013-2017 was made possible by the following County secretariat; Mr. Paul Odhiambo Onyango the county development planning officer, the sub-county development planning officers Mr. Simon Mungai, Mr. Nathan Onduma, Mr Nicodemus Mutinda, Ms. Grace Kerubo, the county physical planner Mrs. Emily Nyongesa the Head of County Treasury Mr. Philip Machuki and all the staffs within my Department. To them am greatly indebted.

We therefore look forward towards the implementation of this development plan.

MR. JOHN OMANWA
THE EXECUTIVE COMMITTEE MEMBER
DEPARTMENT OF PLANNING AND FINANCE, NYAMIRA COUNTY.

EXECUTIVE SUMMARY

Nyamira County Integrated Development Pan (CIDP) 2013-2017 has been prepared by a secretariat of Economists in the County. The preparation of the document borrowed heavily from the results of the 2009 Population and Housing Census and from relevant publications and other sources. Subsequently, the Secretariat collated, analyzed and organized the data resulting to this document. This County Integrated Development plan is informed by the national strategic direction as articulated in the Vision 2030 and. Vision 2030 is a long-term development blue print covering the period 2008-2030. It aims at making Kenya a newly industrialized middle income country providing high quality life for all citizens by the year 2030. The Vision is based on three pillars namely; the Economic Pillar; whose key goal is to maintain a sustained economic growth of 10 percent annually over the next 25 years, the Social Pillar; whose goal is to build a just and cohesive society enjoying equitable social development in a clean and secure environment and finally, the Political Pillar; whose goal is to build an issue based, people centered, result oriented and an accountable democratic political system.

Nyamira County is one of the 47 counties of the Republic of Kenya as provided in the new constitution that was promulgated on 27th August 2010. The County borders Homabay County to the north, Kisii County to the west, Bomet County to the south east and Kericho County to the east. The County covers an area of 899.4km2. The county lies between latitude 00 30‘and 00 45‘south and between longitude 340 45‘and 350 00‘east. The County head quarter is in Nyamira town. The County is divided into five sub-counties namely Nyamira, Nyamira north, Borabu, Manga and Masaba north. The county has four constituencies namely; West Mugirango, Kitutu Masaba, North Mugirango and Borabu, and a total of twenty county assembly wards.

Nyamira County had a population of 598,252 persons of which 284,048 were males and 311,204 were females according to the 2009 housing and population census report. The county inter census population growth rate is estimated at 1.83 percent. The settlement pattern in the County is greatly influenced by the rainfall patterns, topography, infrastructural development, proximity to urban centres, the availability of natural resources and security. However, majority of the County populace is in the rural areas.

The two topographic zones in the county lie between 1,250 m and 2,100m above the sea level. The low zones being swampy, wet lands and valley bottoms while the upper zones are dominated by the hills. The high altitude has enabled the growth of tea which is the major cash crop earner in the county. Some of the major development challenges in the county include; high population growth, high poverty levels, limited land resource, high prevalence of HIV/AIDS, high prevalence of tropical diseases, poorly developed energy sector, low levels of technological innovativeness, unemployment, in adequate water supply, poor urban planning and management, lack of industrial land, rural-urban migration, insecurity; dilapidated infrastructure; low income levels; low standards of education; environmental degradation, and poor marketing system. That notwithstanding, the new concept of devolved funds provided in the new constitution is predicted to spur

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

unprecedented development in the County and boost achievement of sustainable economic growth and poverty reduction and hence improve the quality of life in the county.

A spatial framework for which a ten year spatial plan for the County is anchored as per the requirements of the County Government Act (Section 110(1) is also described in the document. Specifically the environmental impact assessment and the environmental implications of the development projects and programmes to be implemented in the County as well as the essence and the objectives of spatial planning supported by the legislative framework. Issues of human settlements, their origins as well as land use tenure, patterns and basic guidelines for land use are also included.

The document outlines the institutional framework and organizational flow that will be followed in implementing the plan. It also outlines the stakeholders in the County, and the roles that they play and how their functions are accommodated to avoid duplication of efforts. The documents also talks of the resources mobilization strategy which the county will use to implement the plan.

Also captured in the document are county development priorities; programmes, projects, strategies and constraints as outlined in MTEF budgeting framework. Priorities identified during county consultation forum on second MTP are also covered. MTEF sectors captured include agriculture and rural development; general economic, commercial and labour affairs; social protection, culture and recreation; energy, infrastructure and ICT; education; health; environment, water and housing; governance, justice, law and order and public administration and international relations.

Lastly, monitoring and evaluation strategy for the county development initiatives is also described. Areas addressed include institutional framework for monitoring and evaluation; an implementation, monitoring and evaluation matrix and summary of M&E impact and performance indicators. The analysis shows project names, costs, time frames, and monitoring indicators, instruments for monitoring, sources of funding, stakeholders and their responsibilities.

CHAPTER ONE

COUNTY BACKGROUND INFORMATION

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

1.0 INTRODUCTION

This chapter gives the background information on the socio-economic and infrastructural information that has a bearing on the development of the county. The chapter provides description of the county in terms of the location, size, physiographic and natural conditions, demographic profiles as well as the administrative and political units. In addition, it provides information on infrastructure and access; land and land use; community organizations/non-state actors; crop, livestock and fish production; forestry, environment and climate change; mining; tourism; employment and other sources of income; water and sanitation; health access and nutrition, education and literacy, trade, energy, housing, transport and communication, community development and Social Welfare.

Detailed data is presented in the fact sheet which is given in Annex I.

1.1 Position and Size

Nyamira County is one of the forty seven counties in Kenya. The County borders Homabay County to the north, Kisii County to the west, Bomet County to the south east and Kericho County to the east. The County covers an area of 899.4km2. It lies between latitude 00 30'and 00 45'south and between longitude 340 45' and 350 00' east.

NAIROBI, KENYA

1.2 Physiographic and Natural Conditions

1.2.1 Physical and Topographic Features

The county's topography is mostly hilly *"Gusii highlands"*. The Kiabonyoru, Nyabisimba, Nkoora, Kemasare hills and the Manga ridge are the most predominant features in the county. The two topographic zones in the county lie between 1,250 m and 2,100 m above the sea level. The low zones comprise of swampy, wetlands and valley bottoms while the upper zones are dominated by the hills. The high altitude has enabled the growth of tea which is the major cash crop and income earner in the county.

The permanent rivers and streams found in the county include Sondu, Eaka, Kijauri, Kemera, Charachani, Gucha (Kuja), Bisembe, Mogonga, Chirichiro, Ramacha and Egesagane. All these rivers and several streams found in the county drain their water into Lake Victoria. River Eaka is important to Nyamira residents as this is where the intake of Nyamira water supply is located. On the other hand river Sondu has a lot of potential for hydro-electricity power generation which if harnessed can greatly contribute towards the county's economic development and poverty reduction efforts. The levels of these rivers have been declining over years due to environmental degradation especially improper farming methods and planting of blue gum trees in the catchments areas and river banks.

The major types of soil found in the county are red volcanic (Nitosols) which are deep, fertile and well-drained accounting for 75 per cent while the remaining 25 per cent are those found in the valley bottoms and swampy areas suitable for brick making. Though the red volcanic soils are good for farming, they make construction and road maintenance expensive.

1.2.2 Ecological conditions

The county is divided into two major agro-ecological zones. The highland (LH1 and LH2) covers 82 per cent of the county while the upper midland zone (UM1, UM2 and UM3) covers the remaining 18 per cent. Although the vegetation in the county is evergreen, there is no gazetted forest. The tree cover in the county is mainly agro-forestry. Efforts are however, being made to gazette and conserve the hilltops. These have been encroached due to high population pressure. There is need to expand the forest cover throughout the county which will be a source of timber and wood fuel that will earn the community income resulting to poverty reduction. Emphasis is being made on gravellier that benefits the farmers more than the blue gums.

1.2.3 Climatic Conditions

The county has a bimodal pattern of annual rainfall that is well distributed, reliable and adequate for a wide range of crops. Annual rainfall ranges between 1200 mm-2100 mm per annum. The long and short rain seasons start from December to June and July to November respectively, with no distinct dry spell separating them.

The maximum day and minimum night temperatures are normally between 28.7°C and 10.1°C respectively, resulting to an average normal temperature of 19.4°C which is favourable for both agricultural and livestock production.

P. O. Box 73552 - 00200,
NAIROBI, KENYA

1.3 Administrative and Political Units

1.3.1 Administrative subdivision

Administratively, the Nyamira County is divided into 5 sub-counties namely Nyamira, Nyamira North, Borabu, Manga and Masaba North. The county is further divided into 14 divisions with 38 locations and 90 sub locations. Borabu sub-county is the largest with an area of 248.3km^2 followed by Nyamira North sub-county with an area of 219.3km^2 while Manga sub-county is the smallest with an area of 111.3 km^2. Table 1 shows the administrative units.

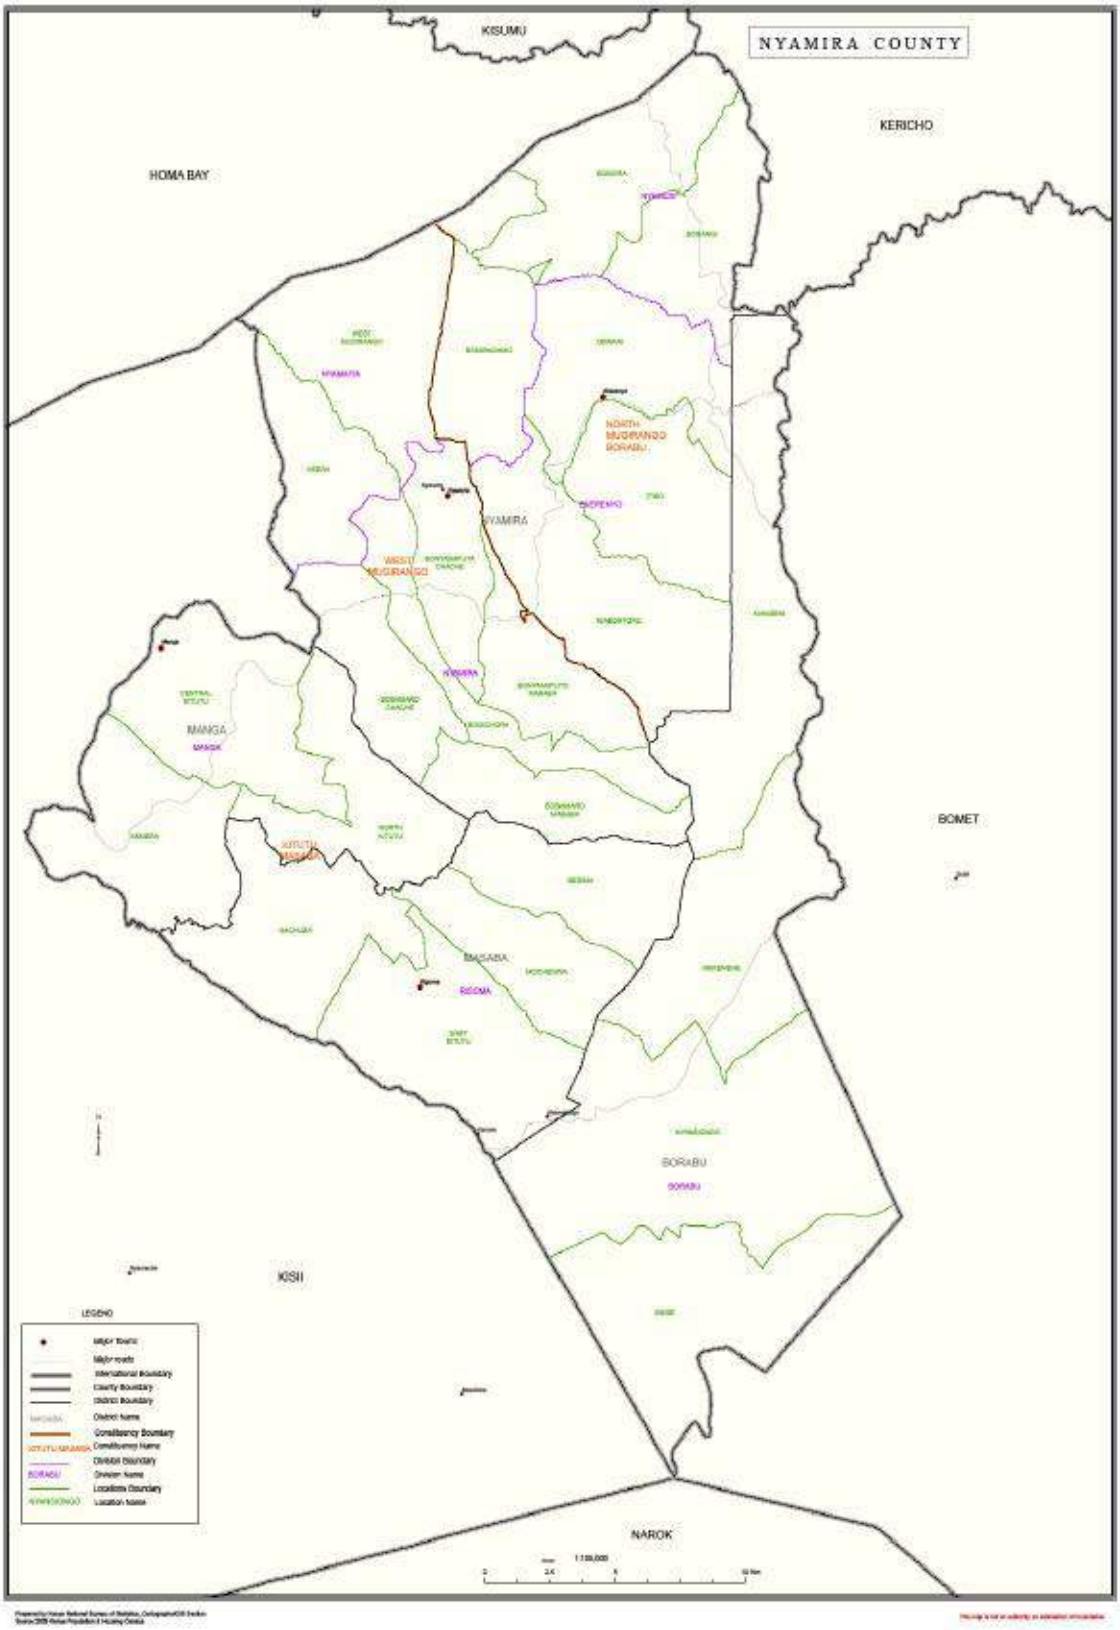

Table 1: Administrative unit by Sub-county

Sub-county	Land Area (km^2)	No. of Divisions	No. of locations.	No. of sub-locations.

1.3.2 Political units

Politically, the county has four constituencies, namely, West Mugirango which covers administrative boundary of Nyamira sub-county; Kitutu Masaba which covers administrative boundaries of Manga and Masaba North Sub-counties; North Mugirango which covers the administrative boundary of Nyamira North sub-county except the proposed Kiabonyoru division in Nyamira North sub-county which forms part of Borabu constituency and covers the entire administrative boundary of Borabu sub-county. The county also has twenty county assembly wards. County Assembly wards by constituency are shown in Table 2.

1.4 Demographic Features

This section presents information on the population distribution and density by constituencies, population projections by sex and age-cohort and population projections for special age groups as well as the county's settlement pattern.

1.4.1 Population size and composition

The total population for Nyamira County has been projected to 632,046 in 2012 of which 303,252 are males while 328,783 are females with reference to the 2009 Population and Housing Census. The population is expected to increase to 667,716 and 692, 641 in 2015 and 2017 respectively. The inter census population growth rate is estimated at 1.83 percent which is below the national growth rate of 3 percent. Table 3 shows the population projection by age cohort.

Table 3: Population projections by Age Cohort

Age Cohort	2009 (Census)			2012 (Projections)			2015 (Projections)			2017 (Projections)		
	Male	Female	Total	Male	Female	Total	Male	Female	Total	Male	Female	Total

Source: Housing and Population Census 2009.

As indicated in Table 3, the ratio of male to female is approximately 1:1 for age cohorts 0-4 upto 15-19. However, age cohorts' 20-24 upto 45-49 have significantly more female than male. The rest of the cohorts have an approximate gender ratio of 1:1. The male population is expected to grow from 287,048 in 2009 to 303,263 in 2012 and 332,337 in 2017. Further, the total county population for the female gender is projected to grow from 311,204 to 328,783 in 2012 and 360,304 in 2017.

Table 4 shows the population projections for selected age-groups, which include: under 1, under 5; primary school going age (6-13 years), secondary school going age (14-17 years) and the labour force (15-64 years). These age groups are of great importance because of their potential contribution and impact on socio-economic development of the County.

Table 4: Population Projections for Selected Age groups.

Age Group	2009 (Census)			2012 (Projections)			2015 (Projections)			2017 (Projections)

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

Under 1 Year: This is a special age bracket when the child is very vulnerable and needs special care in terms of food, shelter, protection both in social and health. The population in this age group is projected to 20,534 in 2012 constituting to 3 percent of the total population, 10,278 are males while 10,256 are females. This number is projected to grow to 21,693 and 22,503 in 2015 and 2017 respectively.

The Under 5 years: The population of this category is estimated at 102,470 persons in 2012 constituting 16 percent of the total populations with the males being the majority. It is also projected to 108,253 and 112,294 in 2015 and 2017 respectively. The age group is important in making decisions on early childhood programmes (ECDE) which provide a foundation for meeting the child's cognitive, psychological, moral and emotional needs.

Primary School Going Age (6-13 years): The population of this primary school age going group has been projected to 139,315 in 2012, forming 22 percent of the county population. It is envisaged to grow to 147,177 and 152,671 in 2015 and 2017 respectively. With a total of 545 primary schools in the county, there is need to address problems affecting the basic education sector the key ones being inadequate personnel and facilities. The parents need to take advantage of the Free Primary Education Programme (FPE) by ensuring all their eligible children are taken to school. Thus, the quality of basic education has to be improved through provision of facilities and adequate personnel.

Secondary School Going Age (14-17 years): The population of this group has been estimated to 61,253 in 2012 forming 10 percent of the county's population. It is projected to grow to 64,710 and 67,125 in 2015 and 2017. Considering that the county has only 173 secondary schools, there is need to invest in educational facilities as well as ensuring that there are adequate teaching personnel. While encouraging parents to take advantage of subsidized secondary education, the private sector needs to play a key role by investing in private schools. The transition rate from primary school to secondary school is 87.5 percent.

Youthful population (15-29 years): The youth population in the county is estimated to be 178,918 in 2012; 189,016 in 2015 and 320,141 in 2017, constituting to 28 percent of the total population. This population constitutes 54 percent of the labour force who are very active group and needs to be occupied in income generating and vocational activities. Education forums on HIV and AIDS and drug abuse are important because this is the most vulnerable age group. The Youth Enterprise and Kazi Kwa Vijana funds are playing major roles in empowering the youth economically, so far it has benefited 3,318 youth groups.

Female reproductive age (15-49 years): This is the child bearing group and the population has been projected to be 158,507 in 2012; 167,452 in 2015 and 173,703 in 2017 constituting to 25 percent of the total population. This therefore calls for more investment in reproductive health programmes in the county.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

The labour force (15-64 years): The labour force population has been projected to increase from 313,712 in 2009 to 331,433 in 2012, 350,137 in 2015 and 363,208 in 2017. This constitutes 52 percent of the total population with majority being engaged in the agricultural sector. In order to absorb the increasing labour force, investments in diverse sectors such as modern agricultural process and agro-based industries is required.

Aged population (above 65 years): The dependent population has been estimated at 22,153 in 2012 which represents 4 percent of the total population. It is projected to rise further to 23,404 in 2015 and 24,277 in 2017. This implies that a lot of resources have to be used to provide basic needs such as food, water, clothing and shelter as well as health services to cater for this age group. There is also need for the county to develop programmes and strategies that address the needs of the elderly.

Urban population: The County has three major towns namely, Nyamira, Nyansiongo and Keroka with a total population of 197,972 in 2012. Table 5 shows the population projections by urban centre. The same has been disaggregated in terms of gender.

Table 5: Population Projections by Urban Centre

Urban centre	2009 (Census)			2012 (Projections)			2015 (Projections)			2017 (Projections)		
	Male	Female	Total	Male	F/male	Total	Male	F/male	Total	Male	F/male	Total
Nyamira	40,531	43,708	84,239	43,560	46,974	90,534	46,812	50,481	97,293	49,117	52,967	102,083
Keroka	25,796	28,859	54,655	27,724	31,016	58,739	29,793	33,331	63,124	31,260	34,972	66,233
Nyansiongo	22,575	22,738	45,313	24,262	24,437	48,699	26,073	26,261	52,335	27,357	27,555	54,912
Total	88,902	95,305	184,207	95,545	102,427	197,972	102,678	110,073	212,752	107,734	115,493	223,228

Source: Housing and Population Census report 2009.

The County's population in towns is expected to increase from 184,207 in 2009 to 197,972 in 2012; 212,752 in 2015 and 223,228 in 2017, which represents 30 percent of the total population. With the projected increase in levels of town population in the county, there is need to invest in town infrastructure such as roads, town water and sewerage system, telephones, housing, electricity and other social amenities.

1.4.2 Population densities and distribution

Settlement Patterns

The Gusii Community predominantly occupies the county, however, the northern and eastern parts of the county has got some different ethnic significance. The county's population distribution and settlement patterns are influenced by infrastructure networks like roads, water, electricity, availability of and accessibility to gainful employment as well as the favourable climatic conditions.

Migration of rural population to the three major towns of the county has strained the available infrastructural facilities. There is need to improve the basic social facilities like housing, sewerage and street lighting. Along the Rachuonyo border there is ethnic intermarriages, this is evident in Miruka area. In the neighbouring Kericho County there are key tea farms (estates) which host a number of migrant workers from Nyamira

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

County. Keroka town which is shared by the neighbouring Kisii County is located along the busy Kisii-Sotik highway thereby attracting high settlement within the town due to business opportunities. Table 6 reflects the projected population distributions per constituency in terms of density.

Table 6: Population distribution and density by Constituency

Constituencies	Area (Sq. km)	2009 (census)		2012 (projections)		2015 (projections)		2017 (projections)	
		Population	Density	Population	Density	Population	Density	Population	Density

Source: Housing and Population Census report 2009.

As indicated in the table, West Mugirango constituency is the most densely populated in the county with 942 persons per square kilometre followed by Kitutu Masaba with 832 persons per square kilometre, North Mugirango at 760 persons per square kilometre. Borabu constituency has the lowest population density of 416 due to its large parcels of land used mainly for commercial farming. Table 7 shows the projections of population distribution across constituency in terms of male and female.

1.5 Human Development Indicators.

Table 8: Human Development Indicators for Nyamira County

Indicators	Weight (County)	Weight (National)
Human Development Index (HDI)	0.5428	0.561
Youth Development Index (YDI)	0.5219	0.5817
Gender Development Index (GDI)	0.4480	0.4924
Human Poverty Index (HPI)	0.257	0.291

Source: Kenya National Human Development Report, 2009

1.5.1 Human Development Index (HDI)

Human development index (HDI) is an indicator of long and healthy life, acquisition of knowledge and a reasonable standard of living. These factors are measured by; life

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

expectancy at birth, adult literacy rate and the combined enrolment ratio at primary, secondary and tertiary levels and GDP per capita measured in purchasing power parity (PPP) in US dollars. Table 8 shows that the Nyamira county HDI is lower than the national HDI. Therefore it can be concluded that the residents of the county are not better off in the three respects.

1.5.2 Human Poverty Index (HPI)

The index brings together different areas of deprivation which means the denial of the most basic opportunities and choices. It's the opposite of the HDI which measures progress as it measures the most deprived in the country in the same three areas as HDI. Table 8 shows that the County Human Poverty Index (HPI) is lower than that of the national one hence the county needs to embrace Poverty reduction initiatives which should be amplified and diversified.

1.5.3 Gender Development Index (GDI)

It's a measure of how gender inequality in knowledge acquisition, longevity and health and standard of living affect human development. The gap between the GDI and the HDI is a measure of gender inequalities. Table 8 shows that there is a significant variation between the county's HDI and the GDI the former being higher. It can therefore be concluded that the county is still not free from gender inequalities. Policies need to be put in place to reduce the gap and empower women.

1.5.4 Youth Development Index

The Youth development index is based on; acquisition of wealth, access to education and training, access to labour markets (employment and income), longevity of life (sexual and reproductive health), access to social services and opportunities and conditions. Table 8 shows that YDI of the county is lower than that of the country, therefore a lot needs to be done to improve the index and ensure that the youth lead better lives in future.

The Nyamaiya stadium which can be upgraded into a county stadium.

1.6 Infrastructure and Access

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

1.6.1 Road Network

A total of 298 km of all roads within the county is earth surface; 200 km are gravel surface, 100km is mixed surface while only 80 km are bitumen surface. The county average distance of settlement to the nearest road is only 6 km. Several unclassified roads are being maintained by various agencies including the Constituency Roads Committees. The county is characterized by a hilly terrain and heavy rains that are distributed throughout the years making road maintenance and construction difficult and costly.

Kisii-Ngoina road has improved socio economic wellbeing of the Nyamira people.

1.6.2 Posts and Telecommunications

Information and Communication Technology (ICT) is vital sub-sector necessary for the county development. The county has 5 post offices (Nyamira, Ikonge, Keroka, Nyansiongo and Kebirigo) and 15 sub post offices. There is one licensed stamp vendor, four private couriers and 45 cyber cafes that operate within the county. There are also 1713 landline telephone connections in the county. The population distribution to the nearest post office in percentage ranges between 0.6 percent for 0-1 kms, 26.8 percent for 1.1-4.9 kms while 72.6 percent are 5 kms and above. Mobile network coverage in the county is at 92 percent. However, landline connectivity and post office presence is low at 28 percent and 0.02 percent respectively.

1.6.3 Financial Institutions.

Nyamira County is served by various financial institutions. These include six major banks and four micro-finance institutions. These banks are situated in Nyamira and Keroka towns. Furthermore, two banks have decentralised banking services to the local level by established agencies. The presence of 69 Savings and Credit Co-operative (SACCO) supplements the services offered by the banks and also empowers their members through lending.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

1.6.4 Education institutions.

The county has 553 ECD centres. There are also 545 primary schools: 399 public and 146 private. About 70 percent of the community can access the primary schools at less than 500 meters, 25 percent at between 500 meters to 1 km and only 5 percent of the community can access the primary schools at between 1.1 km and 2.9 km.

The county has 173 secondary schools: 166 public and 7 private secondary schools. 40 percent of the community can access secondary schools at less than 500 meters, 40 percent at between 500 meters to 1km, 8 percent at between 1.1km to 2.9 km, 6 percent at between 3 km to 4.9 km and only 6 percent of the community can access the facilities at more than 5 km.

There are two public university campuses in the county, Keroka and Nyamira, which are of the Kisii University. In addition, there are two private university campuses namely: Kenya Methodists University as well as Busoga University of Uganda. There are also two science and technology colleges and 15 youth polytechnics in the county as well as 8 accredited private colleges.

1.6.5 Energy Access:

Firewood is the main source of energy in the county with 50 percent of the population using it, while 0.4 percent of the population uses grass, 6 percent paraffin, 19.6 percent electricity, 0.5 percent LPG, 4.1 percent charcoal, 3.5 percent biomass residue and 0.1 percent use other energy sources. The population that uses paraffin as the main cooking appliance is 38.6 percent while 18.5 percent use traditional stone fire. A total of 692 institutions use improved wood fuel cooking stove, 122 uses LPG gas, 207 use kerosene, 31 use solar energy while 537 have established woodlots. The 2009 Population and Housing Census indicate that 8,913 households have electricity connection constituting about 6.8 percent of the total households in the county. About 4,044 households representing 45 percent of the connections are in the urban areas with approximately 4,869 representing 55 percent of the connections are in the rural area. Lantern and tin lamp are a common source of lighting in the rural areas at 39 percent and 55 percent of the rural households respectively. The county needs to extend electricity to strategic trading centres to contribute to the industrial transformation of the economy and poverty reduction. This can be done through the Rural Electrification Programme.

1.6.6 Markets and Urban Centres

There are 3 major towns in the county namely; Nyansiongo, Nyamira and Keroka. The county has 62 trading centres with 1,299 registered retail traders and 66 whole sale traders.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

1.6.7 Housing

Nyamira County has both permanent and semi-permanent dwelling premises. The most common type of houses is those with roofs constructed of corrugated iron sheets comprising 118,170 of the households. Among them are those with stone walls comprising 31,898 households and those with walls constructed of mud/wood comprising 110,335 households. Further, the houses for 35,283 households have cemented floor while 119,969 have earthen floor. The semi-permanent dwelling premises are a common feature in the rural areas and in slums settlement. This shortcoming needs to be addressed in order to ensure the provision of affordable modern housing that promote healthy living. The houses for civil servants are wanting in the county with only 84 of the lower grade, 60 of the medium grade and only 8 of the higher grade being available. This calls for more investment by the government for the government housing to accommodate most civil servants in the county.

1.7 Land and Land Use

Land as a resource is an important means of livelihood for many people in Nyamira County. As such, rights of land ownership and land use provide important ways through which empowerment of the local people can be enhanced. Further, land is a factor of production and is essential for production of agricultural goods and for provision of town housing services.

1.7.1 Mean holding size

Nyamira County comprises of both large scale and small scale farmers. Large scale farmers hold approximately 4ha whereas small scale farmers hold 0.7ha on average. High percentage of the farm holdings lie mainly in high potential areas. It is worth to note that the number of holdings is increasing fast due to the continued sub-division of both small- and large-scale farm holdings.

1.7.2 Percentage of land with title deeds

About 92 percent of land in the county is registered and owners have title deeds. For the rest of the land, the owners are at different stages of acquiring the title deeds.

1.7.3 Incidence of landlessness

Less than 2 percent of the households in the county are considered to be landless. They include some internally displaced persons as a result of the post-election violence, and immigrants who came to the county in search of employment or business opportunities.

1.8 Community Organizations/Non-State Actors

1.8.1 Cooperative Societies

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

There are over 74 registered cooperative societies in Nyamira County with a membership of 103,445 and which have mobilized domestic savings estimated at Ksh. 240.3 million. The cooperatives provide direct employment to a number of people. Cooperatives in Nyamira County are organized into service and producer cooperatives. The producer cooperatives promote the use of modern technology and contribute to development through production. The service cooperatives are responsible for procurement, marketing and expansion services, loan disbursement, sale of consumer goods and members' education.

1.8.2 Non-Governmental Organizations

According to the Non-Governmental Organisation Coordinating Board, there are about 85 NGOs registered to operate in Nyamira County. However, the NGOs that are visible in the county include: Care international, AMREF maanisha, APHIA PLUS, World vision, Desert Oasis Residence Empowerment Programme, Maendeleo ya wanawake organisation, Red cross Society and Kenya Women Trust Fund. These NGOs are mainly engaged in the following activities: water and sanitation, agriculture, livestock, education, health, micro-credit, disaster preparedness, anti-Female Genital mutilation campaigns and HIV and AIDS interventions.

1.8.3 Self Help, Women and Youth Groups

The County has the presence of high number of CBOs partnering with the Government on many development issues. Self-help groups, women and youth groups have become the entry point for both Government and donor interventions on poverty and environment issues. The groups are mainly registered by the Department of Gender and Social Development. In addition, the Youth Affairs Department has continued to promote youth development by designing programmes that enhance young people's empowerment through the Youth Enterprise Development Fund. In addition, the Government has been supporting women activities through funding of their business ventures through the Women Enterprise Fund and *Uwezo* fund introduced in 2013.

1.9 Crop, Livestock and Fish Production

1.9.1 Main crops produced

The major cash crops in the county include tea, coffee, pyrethrum and banana as well as the high potential in horticulture. The main food crops include maize, beans, cassava, sweet potatoes, vegetables, millet and sorghum.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

Tea farming is one of the cash crops in the county.

1.9.2 Acreage under Food Crops and Cash Crops

The acreage under food crops and cash crops in Nyamira County is 58,394 ha and 48,543 ha respectively. A number of factors have contributed to the increase in land under cultivation namely; the rich nitro soils that give great potential for crops, reliable rainfall in most parts of the county, readily available labour force and the availability of ready market for crop produce both in urban centres in the county and the proximity to other major urban centres such as Kisii, Kisumu, Oyugis, and Kericho. This offers incentives for the agriculture sub-sector to flourish.

1.9.3 Average farm Sizes

The average farm size for cash crops and food crops per household is 2.4 Ha. There has been over-subdivision of land in to uneconomic units in some parts of the county while other land parcels in the possession of large scale farm holders remain unutilised. Majority of the large commercial farms in the County are found in Borabu sub-county.

1.9.4 Main Storage Facilities

The main storage facilities in Nyamira County are silos property of NCPB, Farm stores and warehouses. Cumulatively, the storage facilities have a carrying capacity of 5,808,592 bags with the silos carrying 2,000,000 bags, farm stores carrying 80,000 tonnes and warehouse carrying 250,678 bags. Despite the foregoing, the County has a serious deficit of modern storage facilities, hence the need to invest in a number of modern storage facilities.

1.9.5 Main Livestock Bred

The main livestock bred in the County include: dairy cattle, beef cattle, pigs, goats, sheep, poultry, rabbits and bee keeping. Dairy farming under zero grazing is gaining

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

popularity due to diminishing land size, conducive weather conditions and ready market for milk.

1.9.6 Number of Ranches

There are no ranches in Nyamira County, either company ranches or private ranches. However, there are several large-scale commercial farms with common livestock kept being dairy and beef cattle, goat and sheep with their main products being milk, meat, hide and skin, wool and mutton.

1.9.7 Main Fishing Activities

The county lacks government fish farms that can be used to produce fingerlings. The up-take of fish rearing has been improving after government interventions through introduction of Economic Stimulus Programme (ESP) in 2009. It's estimated that the four constituencies in the County have over 1,722 operational fish ponds. However, more capacity building to the farmers is required on adoption and the best fish farming practices.

1.10 Forestry and Agro-forestry

1.10.1 Main Forest types and size of forests

The county has no gazetted forest. There are 10 non-gazetted forests covering 256.2ha in the county. The un-gazetted forest includes the catchments areas and trust lands. Efforts are in place through on farm forestry to increase the tree cover of the county for provision of wood fuel and timber. Sensitization of the public is also being done to sustain conservation, management and protection of natural resources.

1.10.2 Main Forest products

The main forest products in the county include fuel wood, timber, charcoal, building poles, fruit and berries, transmission poles, logs and posts with a total of 7,616,091 m3. The county also has Non-timber forest products that are harvested, such as Honey, Grass, Gum and Resin. The seedlings production in the county is both exotic and indigenous.

1.10.3 Promotion of agro forestry and green economy for:

a) Income generating activities including farm forests

The county has about 62 percent of its total population engaged in forest related activities, with a total of 833 farm forests in the entire county. It has to be noted that the higher the number of forests, the higher the incomes accruing to the farmers. However, public awareness creation on the economic and environmental benefits of establishing more farm forests.

b) Protection of water catchment areas

The Kenya Forest Service (KFS) Nyamira County has been promoting rehabilitation of water catchment areas. The county has a target of 310ha coverage of water catchment areas at community levels. Sensitisations by different stakeholders are ongoing to

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

eliminate eucalyptus trees planted next to the wetlands and instead plant blue gum trees which are less harmful to the water catchment areas.

c) Prevention of soil erosion

The KFS has been partnering with government departments especially provincial administration, department of Agriculture, Youths and sports and Water and irrigation, to create awareness to farmers to embrace modern farming techniques to guarantee maximum return for unit area. Farmers in the county have been sensitized on practising contour farming, planting of selected tree species like Gravellea Robusta, avocado, wattle trees etc. integrated with Napier grass to provide fodder for livestock.

d) Provision of wood fuel and generation of energy for industries

The KFS has been promoting commercial tree planting and is set to achieve annual target of 83 ha to instil awareness for community to guarantee economic empowerment. The farmers have been advised to start private tree nurseries to complement the production of seedlings by Kenya Forest Service for planting.

e) Improvement of soil fertility by growing fertilizer trees

KFS has been collaborating with the civil society organizations and government departments in the county to promote fertilizer trees such as acacia, crotalaria, and tephrosia and sesbania species for biomass transfer. The inclusion of such trees in the agricultural system is expected to optimize nutrient cycling and have positive effect on soil chemical and physical properties.

f) Growing of fruit trees for improved nutrition both for domestic use and surplus for markets

The KFS advocates for the practice of Agro forestry in private firm by planting species like avocado and papaya for improving nutrition both for domestic use and land surplus for market. KFS intends to capture 150Ha in the promotion for agroforestry and KFS embrace teamwork to ensure the achievement.

g) Provision of Carbon sinks

The individuals with small scale forest farms are being mobilized to form community forest association to facilitate the implementation of trade in carbon.

h) Beautification activities in Towns, highways, schools, homes and other public places

The KFS is very keen on the practices of roadside planting and urban tree planting extensively to provide beatification activities. The members of the public have been

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

sensitized on the choice of species for beautification and boundary planting in towns, high ways, schools, homes and other public places.

i) Animal feeds production ventures.

Animal feeds production ventures include integrated planting of Napier grass, Challeandra, and Sesbania sesban. Livestock farmers are advised to be in constant touch with the relevant government departments such as KFS, and Agriculture for the selection of tree species that can provide fodder.

j) Growing and processing for medicinal purposes/ Value plants and products.

The KFS Nyamira County is engaged in continuous sensitization for the public to be involved in conservation, management and protection of natural resources to guarantee sustained growth of other plants with specific references to the objectives of vision 2030.

1.11 Environment and Climate Change

1.11.1 Major Contributors to environmental degradation in the county

Environmental degradation in Nyamira County is mainly a result of unsuitable farming methods, effects of climate change, poor solid waste management, soil erosion, inadequate sanitary facilities, cultural practices, massive cutting down of trees for firewood, timber and to clear land for agricultural use, poor physical planning in urban areas, quarrying activities, pollution and Effluents from agro-chemicals and alien and invasive species.

1.11.2 Effects of Environmental Degradation in the County

Cultivation of land up to the river bank has resulted to surface soil erosion particularly the top soil into Lake Victoria. This leads to reduction of soil nutrients and hence low agricultural productivity. Quarrying activities lead to blockage of water ways, siltation in addition to threatening human safety especially when the quarry sites are left open and without perimeter fence. Lack of affordable housing in the major towns in the county has led to mushrooming of slums in these urban areas. This phenomena further cause brings in the challenge of poor sanitation and management of both solid waste and liquid waste.

1.11.3 Climate Change and Its Effects in the County

Climate change has affected the county‘s bimodal rainfall pattern. It is now difficult to predict the onset of the short rains and the long rains. This has been affecting farmers timing in regard to land preparation resulting in poor harvests.

Further, there have been widespread changes in extreme temperatures in the county. Hot weather conditions in the day have led to serious decline in water levels in running springs and rivers like Sondu Miriu.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

1.11.4 Climate Change Mitigation Measures and Adaptation Strategies

Measures to be taken to check on environmental degradation include enforcement of regulations on harvesting of indigenous forests and tree planting on the destroyed sections of the forests. Environmental sustainability cannot be achieved without community participation. Institutional structures and processes from the grassroots to the national level will influence greatly how poor communities are able to control, manage and access environmental resources. Poverty is related to the destruction of environment as there is massive destruction of forests to get firewood, clear land for agricultural production and settlement etc. This increases environmental destruction hence the need for economic empowerment of the poor people.

1.12 Mining

1.12.1 On-going activities and mining potentials

The county is not endowed with any mineral resources. However, there are isolated cases of rough stones for building as well as murram for road construction. Valley bottoms in swampy areas provide clay used for bricks and tiles making. For example, in Sironga valley, brick making is a major economic activity.

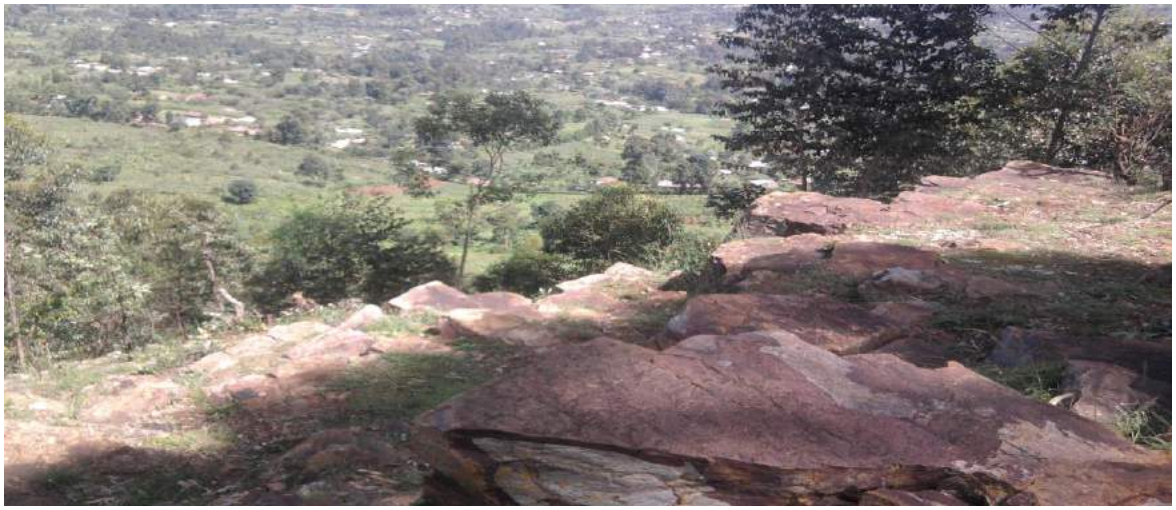

Brick making in Sironga swap is one of the investment potential in the county.

1.13 Tourism

1.13.1 Main Tourism Attractions, National Parks/Reserves

There are no national parks or game reserves within Nyamira County. However there are potential tourist attraction sites like the hilly nature referred as *"Gusii highlands"* with a series of ridges. The Orotuba Manga ridge, Kiabonyoru, Nyabisimba, Nkoora and Kemasare hills are the most predominant features in the county which can be tapped as tourist attractions. Also the Manga escarpment, whose scenery is quite unique, can be marketed as a tourist attraction site.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

Manga ridge is a potential tourist attraction site in the county.

1.13.2 Main Wildlife.

The county has no main wildlife but there exists several other fauna and flora species. The wildlife has been displaced due to the high population. However, along the major rivers and few forests, some monkey, porcupine and various types of birds exist.

1.13.3 Tourist Class Hotels/Restaurants, bed occupancy

Nyamira County has no tourist hotels and camping sites for any high class services but there are 24 unclassified hotels with a bed capacity of 575. The county should therefore increase investments in the tourism sector so as to tap into the envisaged increased tourist arrivals in the country under Vision 2030.

1.14 Industry

There are seven main manufacturing industries in the county, processing tea and coffee which are the main cash crops. The total production countywide is 20,769,331.5Kg, whereas the total consumption is 66,278,232Kg. This situation attracts a surplus of 239,296Kg. Therefore, the number of industries has to be increased to match the high production levels. The county is endowed with two bakeries, fourteen jua kali associations and 1330 jua kali artisans.

1.15 Employment and Other Sources of Income

In Nyamira County, agriculture contributes to 80 percent of income; rural self-employment contributes 7.5 percent wage employment 4.5 percent and urban self-employment 8 percent.The county potential lies in its people, their creativity, work ethic, education, and their entrepreneurial and other skills. To ensure significant and consistent results, the human resources will be managed, rewarded and steered to develop global competitiveness.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

1.15.1 Wage Earners

A large number of wage earners are in the private sector mainly in the service industry. In the informal sector, wholesale and retail trade, hotels and restaurants, manufacturing sector and jua kali sector are the major employers of the largest per cent of wage earners. The majority of the wage earners comprise of the youth without the appropriate vocational or professional training and therefore have limited chances of fully participating in the labour market.

1.15.2 Self-Employed

The 2009 Population and Housing Census indicate that 8 percent of urban and 7.5 percent of rural of the county population are self-employed. The majority of the employed are in the informal sector viz, wholesale and retail businesses, informal micro enterprises and hawking especially in the urban centres. The transport sector is also robust and a lot of the youth is engaged in the sector. Trading in food commodities and milk is widely practiced.

1.15.3 Labour Force

The County's labour force is projected to 331,433 and 363,208 persons in 2012 and 2017 respectively, based on 2009 population and housing census results. The major type of employment is self-employment, through agricultural activities. The rest of the population is engaged in hotel industry, brick making, small and medium business activities and juakali endeavours. Child labour is rated low in the county, with dependency ratio estimated at 101:25. Of the employed population, 80 percent are in the agricultural sector, 8 percent in self-employment, 4.5 percent in wage employment and 7.5 urban employed.

1.15.4 Unemployment Levels.

According to the 2009 Population and Housing Census, 53 percent of the labour force is employed in different sectors, whereas 47 percent of the labour force is unemployed. The employed were 320,601 while the unemployed were 282,557. In order to enhance the growth of the economy in the county, there is need to involve the unemployed in income generating activities. It is necessary to provide support to the informal sector, in order to improve the economic status of the mainly women and youths who are the most affected by the current economic downturn. There is need to promote community based projects that make use of local resources.

1.16 Water and Sanitation

1.16.1 Water Resources and Quality

Nyamira County is endowed with natural water resources, namely, rivers, shallow wells, springs, dams, pans and boreholes. The water resources availability varies significantly between seasons as well as across regions. The resources are plenty during the rainy

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

season and scarce during the dry periods. Most parts of the county have two rainy seasons. The long rains are typically from March to May while short rains are typically from October to November without distinct dry spell.

1.16.2 Water Supply Schemes

Communities in different parts of the county have formed groups and established vibrant water schemes in order to counter the problem of inadequate supply of clean drinking water. The schemes are funded through members 'contribution and through sourcing of funds from government and donors. The water from the various sources has many uses including irrigation, domestic use by both human and animals as well as for use in industries.

1.16.3 Water Sources

The county has 1,945 shallow wells, 2,521 protected springs, 694 dams as well as over 3,301 unprotected springs and 7 permanent rivers. The distance to the nearest water point in the county is from zero to four kilometres. On average 7.8 percent of the population take 1-4 minutes to fetch water, 2.4 percent of the population take 5 - 14 minutes to fetch water, while 49.3 percent take 15 - 29 minutes and 30.5 percent take 30 - 59 minutes. Only 13.4 take more than 60 minutes to fetch water while 4,403 households, which represent 3.4 percent of the total households, are connected to piped water. Majority of the poor, in particular women and girls, spend a significant amount of time fetching water in both rural and urban areas thus denying them time to engage in other economic activities. Improving and protection of the County water sources will be highly critical in enhancing progress across other sectors. The irrigation sub-sector seeks to reduce the over-reliance on rain-fed agriculture through harnessing water and increasing land under irrigation. The County economy primarily depends on the natural resource base. Increasing access to sustainable water is a priority of the government within the existing policy framework. The main challenges facing improvement of access to water resources include: inadequate funds, lack of local ownership for the projects, and the planting of blue gum trees at riverbanks and springs.

1.16.4 Sanitation

The 2009 Population and Housing Census indicate that about 4,403 households (3.4 percent) in the county had access to piped water in 2009 through a house or yard connection. About 59 percent have access to portable water. With regard to rainwater harvesting it is estimated that 2.2 percent of household have made provision for roof catchment systems. Further, estimates for 2009 indicate that 72 percent of the residents practiced improved sanitation standards. Lack of affordable housing in the major towns in the county has led to mushrooming of slums in these urban areas.

1.17 Health Access and Nutrition

1.17.1 Health Access (Health Facilities, Personnel)

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

There are 134 health facilities in the county; eight tier 3public health facilities, 70 tier 2 (Health Centres and Dispensaries) and the rest either private or faith based facilities and clinics. The county has 804 health workers in the public sector; doctor population ratio 0.01/1000, nurse population ration being 0.41/1000. The average distance to the nearest heath facility is 7km. Access to basic preventive services; Of major concern is that only a mere 15% of the total population in Nyamira County sleep under a mosquito net. This needs to be improved through creating public awareness to the residents. On accessibility, 78 percent of the county's population can access health facility between 1.1- 4.9 km, 21 percent can access health facility at more than 5 km while only 0.8 percent can access health facility between 0-1 km.

1.17.2 Morbidity

The most prevalent disease in the county is respiratory infections which account for about 20% of all the reported cases. A summary of the top five diseases are captured in table 9 below

Table 9: Top Five Causes of Outpatient Morbidity (All ages)

No	Diseases (New cases only)	Number	%
1	Dis. of Respiratory System	75500	20
2	Clinical Malaria	74396	20
3	Dis. of the skin (incl. wounds)	36269	10
4	Rheumatism, Joint pains etc.	18094	5
5	Accidents - Fractures, injuries etc.	14403	4

Further, the HIV and AIDS pandemic poses a great challenge in the attainment of health for the residents of the county thereby adversely affecting the socio-economic development of the county. HIV has resulted in the increase in TB morbidity and mortality. The HIV prevalence rate in the county is estimated at 6.9percent. Current priorities lie in the area of reducing child mortality, promoting maternal health as well as mitigating the vulnerability of HIV and AIDS and other major diseases.

1.17.3 Nutritional Status

According to the Nyanza MICs Survey 2011, about 25% of children under five are stunted; with proportion severely stunted being 9.5%. Wasting prevalence is 3.4%. Thirteen percent of the children in the county are classified as underweight, 7% are estimated to be born with low birth weight, Vitamin A supplementation of children aged 6-59months stands at 39%.

1.17.4 Immunization Coverage

In Nyamira County vaccination is geographically accessible to the majority of children. However, in some regions immunization coverage declined with increasing distance from the vaccination clinics. To address this challenge the government has periodically introduced door-to-door vaccination campaign to widen the immunization coverage. Fully immunization child coverage, FIC stands at 91% percent of the children in the

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

entire county, however marked variation with very high uptake of some antigens like BCG (97%), polio 89%, Penta 95% and measles 96.2% among others. Nearly 60% of pregnant women are immunized against tetanus.

1.17.5 Access to Family Planning Services/Contraceptive Prevalence

The contraceptive prevalence rates for Nyamira County stands at 61 percent. This is indicative of high number of women preferring to use the traditional methods. The percentage of women not using contraceptive is 46 percent which is attributable to myths and misconception on contraceptive, socio-cultural practices and access to health facilities. Family planning services access in the county is widespread and is found in all health facilities. The total fertility rate is 4.2; Injectable are the most preferred method of contraceptive at 46%. The unmet family planning needs is currently standing at 34%.

1.18 Education and Literacy

This section gives an analysis of pre-school education, primary education, Literacy levels, Secondary education and tertiary education concerns in the county. Out of the county's population, 51 percent and 41 percent of male and female populations respectively are schooled. Low awareness on the importance of education, inadequate special education facilities, inadequate staffing levels, insufficient funding are the major challenges affecting this sector.

The newly constructed Bigege Youth Polytechnic twin laboratory is meant to empower youths with technical skills.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

1.18.1 Pre-School Education

The population that had reached pre-school age as of 2012 was projected at 96,660 (Boys 48,999, Girls 47,661). Pre-school education is intended to impart basic reading and writing skills to the pupils. It prepares the child for primary school life. The transition rate at this level is estimated at 100 percent, gross enrolment of 71 percent, net enrolment of 65 percent, completion rate of 100 percent, retention rate of 100 percent and teacher to pupil ration of 1:29.

1.18.2 Primary Education

The county has made remarkable progress in increasing access to primary education. This is due to introduction of free primary education. Through funds such as the CDF and LATF, new classes have been built, new schools established and dilapidated school buildings rehabilitated. This increased gross enrolment in schools to 97.9 percent, causing additional pressure on existing school facilities and personnel and thus affecting the quality of education at this level. The dropout rate stands at 5 percent, net enrolment rate of 84.4 percent, transition rate of 87.5 percent, retention rate of 90 percent, teacher pupil ratio of 1:35 and completion rate of 95percent.

1.18.3 Literacy

As far as literacy issues are concerned, 94.4 percent can read whereas 5.7 percent cannot. Also, 90.7 percent can write as opposed to 9.3 percent who cannot write. In addition, 91.1 percent of the total population can read and write while 8.9 percent cannot. Overall literacy level of the county is 63 percent. The high literacy rate can be attributed to the Free Primary Education and the concerted efforts to promote and provide adult and continuous education countywide.

1.18.4 Secondary Education

By 2012 the population that had reached secondary schools stood at 63,305 (Boys 31,810, Girls 31,495). A major factor constraining enrolment in secondary level is that growth in the number of secondary schools has not matched the growth in primary schools. With the introduction of free day secondary education, the demand is high especially in urban areas. There is therefore need to develop strategies aimed at improving secondary school physical infrastructure and human resource. Transition rate at this level is 85 percent, gross enrolment of 67 percent, net enrolment of 55 percent, dropout rate of 15 percent, teacher pupil ratio of 1:31, retention rate of 88.5 percent and completion rate of 85percent.

1.18.5 Tertiary Education

There has been a substantial growth in the tertiary education in the county. Nyamira and Keroka towns have experienced the opening of satellite university campuses to meet the high demand for university education but there is no fully fledged university in the county. There are 3 public technical training institutions, no special teachers training

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

institutions, 15 youth polytechnics and 8 accredited private colleges. The population that had reached tertiary institution - universities and colleges - as of 2009 Population and Housing census results stood at 25,610 with 15,376 (60 percent) males and 10,234 (40 percent) females.

CHAPTER TWO

COUNTY DEVELOPMENT ANALYSIS

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

2.0 INTRODUCTION

This chapter analyses the major development challenges and cross-cutting issues that affect the development aspirations of the county. The chapter concludes with a highlight of the issues, their causes, the development objectives and strategies mapped to MTEF sectors and County functions as given in schedule four of the Constitution 2010.

2.1 Major development challenges

The major development challenges in the county include; high population growth, poor road network, limited land resource, high morbidity, high mortality, inadequate water supply and low educational standards as explained below.

2.1.1 High population growth

According to the Population and Housing Census 2009, the county population stood at 598, 252 persons, with an intercensal growth rate of 1.83 percent from the year 1999, which is below the national rate of 3 percent. The population growth in the county has not been matched with economic growth as well as the corresponding growth in employment opportunities. With 80 percent of the population relying on agriculture for their livelihood, rapid increase in population will continue to exert pressure on land. This pressure on land will be manifested in environmental degradation, encroachment on forests and water catchments areas, which will have counter effects on the ability of the county to sustain its development. There is need to intensify both family planning and reproductive health programmes.

2.1.2 Land Tenure System

Ownership of land is key to development of the county since it ensures access to credit facilities. Farm holdings range from small to large company and cooperative farms with a variety of food crops, cash crops and livestock. A total of 92 percent of the county's land is adjudicated and issued with title deeds.

2.1.3 Poor infrastructure

Most of the roads in the county are in poor condition and are usually impassable during the rainy season. This poor state of roads hinders the delivery of tea and other perishable items to the factories and markets and also increases overhead costs to road users, thus leading to increased charges by the public service vehicles. The county's terrain is hilly and coupled with poor texture of the soils it makes both construction and maintenance of roads expensive. Inadequate rural electrification has made it difficult for industrial development and starting of technical courses dependent on electricity. This has also affected the growth of ICT sector in the county. In order to address this challenge, the county needs to expand the Rural Electrification Programme as well as initiate measures to adopt alternative sources of energy to supplement the national electricity supply. The county also needs to construct adequate houses to cater for the increasing urban population.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

2.1.4 Inadequate Water Supply.

The existing water supplies systems are overstretched and cannot supply enough water for the increasing population. Although the county is well endowed with water resource, supply of piped water is limited to few market centres. These sources are also threatened by the blue gum trees planted in the catchments areas. The county will put in strategies focusing on protecting and rehabilitating the existing water sources as well as starting new ones in order to reduce the distance to the nearest water point.

2.1.5 Low education standards

This is mainly attributable to staff shortage and lack of resources. Most institutions are under staffed and lack adequate facilities, which compromises provision of quality education. Lack of adequate financing has resulted to poorly equipped schools in terms of stationeries, textbooks, science labs, classrooms, dormitories, staff houses and general infrastructural development. The sector has also not been spared by the HIV and AIDS pandemic which has affected the teaching personnel, students as well as the parents, a situation that is exacerbated by the increasing number of orphans. More resources have to be channelled to this area to boost infrastructural development, and increase human resource levels.

2.1.6 High Morbidity Rates

The most prevalent diseases include malaria, diseases of respiratory systems, intestinal worms, and skin disease. The health sector has not been able to address this problem fully due to factors such as inadequate personnel and requisite health facilities. There have been cases where schools and health facilities are put up on the basis of clans which are not only uneconomical but misallocation of resources and the most affected projects are those under CDF. High population growth is expected to continue exerting pressure on the available health facilities. The county will endeavour to promote preventive rather than curative health through expansion of primary health care programmes.

2.2 Cross cutting issues

2.2.1 Poverty

The poor persons or households are described as those with inability to access basic needs such as food, shelter, clothing, health, water and education due to geographical, economic and social factors. According to the KIBHS 2005/2006, the county was estimated to have 46.3% of its population living below the poverty line. About 21.8% were food poor and 1.9% was hard-core poor meaning that they could not meet the basic minimum food requirements even after spending all their income on food alone. The major causes of poverty in the county include:-poor roads, network limited electricity connection, small land sizes, poor crop and animal husbandry practices, inadequate safe and clean drinking, low educational standards and high prevalence of human diseases.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

Urban poverty in the county stands at 13% while rural poverty stands at 46.3% same as the county poverty. This is because the county is predominantly rural thus majority of the population live in the rural area. Poverty in the urban areas is mainly caused by rural urban migration. There is need for proper planning of these towns as well as developing appropriate programmes in the rural areas to reduce pressure on land which has led to subdivision of land into small uneconomical units. The focus should be on intensive farming, value addition, improvement of infrastructure-electricity and maintenance of roads as well as cottage industries for processing agriculture produce. There is also need for development of market structures and Jua Kali sheds to address urban poverty.

SWOT Analysis: Poverty

Strengths	Weaknesses	Opportunities	Threats
Poverty reduction strategies; Availability of poverty eradication rolling fund; Existence poverty eradication committees	poor implementation of poverty eradication strategies Limited financial resources to establish agro-processing industries in the county	Projects and programmes funded by government and donors Introduction of devolved funds like CDF, Youth Development Fund, Women Enterprise Fund. Potential in agriculture and livestock sectors.	high population growth rate, Insecurity HIV and AIDS prevalence

2.2.2 HIV/AIDS

HIV/AIDS continues to pose a major challenge to all sectors of the economy and is affecting the development programmes in the county. HIV/AIDS prevalence rate in Nyamira County is 6.9% (NASCOP, County HIV Profiles 2012). The main cause of the spread of HIV/AIDS in the county is unsafe sexual behaviour and transmission of mother to child. There are approximately 900 new infections annually. Adult ART coverage is 84% as at 2011 and child ART coverage is 21% (Nascop HIV County Profiles 2012). Low uptake of HTC services, infrastructure inadequacies, stigma, human resource and commodities constraints remain as key challenges in the fight against HIV/AIDS in the county. According to NASCOP reports, in 2011 estimated 17, 028 people of whom 15% are children live with HIV/AIDS in Nyamira County. The county is expected to face various socio-economic impacts of HIV/AIDS if interventions are not enhanced. Household expenditure on health care will increase, reducing savings and investments. Pressure on health services will increase, reducing the quality of service offered; households will spend more time in caring for the sick, further affecting productive activities at the household and community levels. An increase in orphans is expected to raise dependency ratios at the household levels. There is need therefore to upscale interventions to mitigate the socio-economic impacts of the pandemic in the county development agenda.

SWOT Analysis: HIV/AIDS.

Strength	Weaknesses=	Opportunities	Threats
Presence of strong NACC structures in the county, CACCs; Trained staff; Strong community participation in HIV/AIDS activities; Existence of the	Low enrolment into comprehensive care of HIV+ women identified through PMTCT; ARVs not available in all dispensaries; Few Sub-ACUs implementing work place policy on HIV/AIDS; Inadequate information available in	Mobile VCT and PMTCT services; BCC campaigns to promote couple counselling, safe sex and fight stigma; Cash Transfer Support Programme for OVCs; Home care Based programmes;	Stigma towards usage of condoms due to cultural and religious barriers; Drug abuse; Food shortage; Epidemics; Significant

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

Kenya National AIDS Strategic Plan (2005/10-2009/15). Availability of ARV's in health facilities.	establishing an M & E databank; Inappropriate cultural practices; Low staffing levels in health institutions; Peer influence; Lack of resources to conduct regular mobile VCT to hinterland areas; Low couple counselling; There is a low number of IGAs supporting HIV affected groups. Over-reliance on donor support; Lack of frame work to tame briefcase CBOs/NGOs; Weak sustainability.	Establishment of youth friendly testing centres /corner; Promotion of the use of condoms as a contraceptive. Political good will; Community resource persons; Existing programmes structures; Presence of development partners. Existing/ongoing services; Extensive HIV/AIDS awareness by partners; Availability of community own resource collaboration and Networking opportunities.	increase in number of OVCs.

2.2.3 Gender Inequality.

Women constitute to 52 percent of the county's population. Although the majority, they are generally left out of development decision making processes through lack of representation. Policies, plans and strategies rarely take into consideration gender roles and responsibilities. Considering that in 2009 41,539 out of the 131,039 households (37%) in Nyamira county were female headed, they were certainly more disadvantaged and more likely to be poor compared to other households.

Factors exacerbating gender disparities in the county are rooted in socio-cultural practices such as ownership of production resources (land, capital); participation in decision making and early/child marriages. Other factors include consequences of poor health which are greater in women than in men due to their role in child bearing and lack of skills due to low education standards. Thus, gender equality has to be exercised in ownership of assets and decision making, with full exercise of affirmative action.

SWOT Analysis: Gender and Development:

Strengths	Weaknesses	Opportunities	Threats.
Capacity being built in the county; Gender issues being addressed by development partners; Practical gender needs being addressed by various agencies. There exists government support and constitutional support.	Lack of gender disaggregated data; Continued adherence to harmful traditional practices; Women underrepresented in decision making organs; Women have no control over and ownership of resources and property. Retrogressive cultural practices like female genital mutilation; HIV/AIDs.	Institutional strengthening for gender analysis; Building capacity of staff in planning and implementation. Use of gender focal points; Divergence from harmful traditional practices; Enforcement of laws protecting girls/women from violence, harmful practices and discrimination; Women equal representation in decision making bodies from community levels. Education promotion for girls; Research and information dissemination; Promoting equality of benefit and access; Existence of grass root forums for addressing gender concerns. Funding opportunities like CDF, Women Development Fund; Affirmative action (30% women representation in various committees). One third rule in the new constitution.	Continued lack of information; Upholding of discriminatory practices; Lack of specific actions to bridge existing gender disparities. Low funding of programmes.

2.2.4 Youth Issues.

The youth population in the county stood at 178,918 in 2012 representing 28% of the total population. Some of the challenges facing the youths include: lack of representation

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

in various development forums, risk of engaging in anti-social behaviour such as engagement in premarital sex, drug and substance abuse as well as inadequate representation in decision making process.

Representation of the youth in some development committees in the county have been attempted with encouraging results. Others interventions include disbursing the Youth Enterprise and Kazi Kwa Vijana Funds. The Funds have had an impact in the county with 3,318 groups having benefited.

SWOT Analysis: Youth Issues

Strengths	Weaknesses	Opportunities	Threats
1,559 registered Youth Groups; Presence of talented and gifted youths; Dedicated youths; Presence of Youth Policy on Reproductive Health.	Inaccessibility to credit; Lack of youth counselling; Lack of Youth friendly centres and empowerment centres; Lack of representation.	Political goodwill; Youth Enterprise Fund; Creation of a new administrative units; Youth Policy in place.	HIV/AIDS pandemic; Lack of social infrastructure; Urbanization, Drug and substance abuse, Engagement in premarital sex

2.2.5 Information and Communication Technology (ICT)

The county's mobile phone services coverage is 92%. Internet services for the public in the county are offered by 45 cyber cafes concentrated only in the three major towns. There are also very few bureaus offering computer services to the public. This makes communication in the county difficult thus hindering development. Digital villages and cyber cafes would be ideal investment opportunities in the county.

Radio transmission is accessible to all areas in the county. However, for television transmission only few broadcasters are available while others can only be accessed through satellite dishes that are expensive beyond the reach of the population.

Courier services are offered by private courier services, post offices and public service vehicles.

The county does not have a well-developed information technology, equipments and machinery. Apart from the SCIDCs, the county does not have a public library. The SCIDCs are not equipped with, fax, computer and internet.

SWOT Analysis: ICT

Strengths	Weaknesses	Opportunities	Threats
Availability of electricity; Mobile telephone coverage in most parts of the county (61%); Favourable government policy on ICT; Presence of the trained statistics personnel; Availability of the adequate office space for the SCIDCs; Availability of computers for statistical analysis.	Lack of adequate and modern equipment; Inadequate communication network i.e. Telephone postal services in the hinterland; Lack of modern and well equipped district information and documentation centre (SCIDCs); Inadequate access to IT equipments like computers (e-mail internet, T.V etc.)	A computer supply programme for schools and institutions. Cascading of e-government to the grassroots; Devolved funds for construction of the ICT laboratories in schools; Presence of ready market for ICT graduates; Establishment of digital villages; Linkages of county to national fibre optic cable network; Equipping and increased funding to polytechnics; Building capacity on data collection	Lack of electricity in rural parts of the county; Low literacy levels; High cost of investment in the ICT sector; Low community understanding of the potential

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

The demand for services is overwhelming. Enterprising community.	Lack investment on IT; Inadequate skilled manpower Lack of adequate training institutions on ICT; High cost of ICT equipment.	collation and analysis to line ministries; Establishing statistical offices in line ministries and departments; Provision of the television services licenses to investors.	in the ICT sector; High Poverty levels.

2.2.6 Disaster Risk Management

The disasters/calamities in the county are mainly caused by lightning and thunderstorms. However, their impacts has gone down as a result of installation of lightning arrestors in most learning institutions, government buildings, health institutions and community awareness. Others include road accidents affecting the busy roads like Kisii-Sotik and Kisii-Ngoina and potential industrial areas. The causes of disaster and factors that exacerbate them include climatic conditions, poor environmental management; road accidents; fires and epidemics due to poor sanitation. The county is generally unprepared to handle and manage most of these disasters due to limited information and preparedness. The county need to develop strategies that will reduce the vulnerability of the populace and the magnitude of the effect of such emergencies.

Table 10: Location, Trends and Socio-economic Impacts of Disasters

Disasters	Location	Patterns/trends	Socio-economic impacts
HIV/AIDS	Entire county	All year round	Loss of lives, stigma, increased poverty, increased dependency ratio.
Lightning and Landslide.	Entire county	During Long rains Apr-August	Loss livelihoods, loss of lives, destruction of Infrastructure.
Crop and Animal Diseases	Entire county	Frequent	Food insecurity, disease outbreaks and economic loss.
Earthquakes	Entire county	Occasionally	Destruction of buildings and endangering lives as Well.
Environmental degradation	All over the county	Continuous	Leads to soil erosion and thus pose threat of food Insecurity.

SWOT Analysis: Disaster Risk Management

Strengths	Weaknesses	Opportunities	Threats
Existence of the Disaster Management Committees; Good road network.	Lack of policy and public education on disaster preparedness and management; Lack of firefighting equipment in the Local Authorities and most public; Slum development that hinders firefighting. There is still weak disaster preparedness and facilities for the same; Weak enforcement of laws (EMCA); Lack of resources and district action plan to facilitate the district disaster management committee.	Capacity building in education for disaster management and preparedness for public and relevant institutions; Modern safety gadgets for road; Improved housing conditions; Adequate warning and planning for potential droughts.	Continued growth of unregulated public transport system; Lack of fire department especially for industrial zones; Corruption threatening ability to control carelessness that may lead to disasters; Increased risks for epidemics and un manageable fires. Environmental degradation leading to climatic changes.

2.2.7 Environmental and climate change.

As the population continues to increase, more pressure will be exerted on the natural resources leading to deterioration in the ecosystem balance. Topography, climatic conditions, combined with human activities will determine the kind of adverse effect on the environment and the corrective action required. For instance, where the Industries are

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

located and commercial area adverse impact will include air and dust pollution, surface water and under ground water contamination and litter pollution. This will have a negative effect on the human health, and economic assets.

Water catchments areas have been encroached and wet lands destroyed. Water levels in most permanent rivers in the county have been going down a situation which if not controlled may lead to deficiency in water supply in the county.

Pollution of water resources resulting from construction of homesteads at water catchments, tea and coffee factories draining effluents into the rivers and streams, lack of disposal sites in Nyamira Town and other markets, the use of fungicides and other farm chemicals have worsened the situation. There is need for concerted efforts in environmental conservation. NEMA should enforce the environmental laws to safeguard the declining water resources and pollution of the environment. The community should also be incorporated in conservation efforts through environmental education awareness among others.

SWOT analysis: Environmental Conservation and Management

Strengths	Weakness	Opportunities	Threats
Variety of natural flora; Availability of environmental action plans for up to year 2015; Existence of a environment committees; Existence of EMCA Structures extending to grassroots; High number of qualified personnel.	Inadequate skilled manpower; Insufficient funding; Poor waste management practices; Water and air pollution Inadequate involvement of communities in environment management. Inadequate financial resources, facilities and equipment; Inadequate inter-sectoral mechanisms for environmental coordination; Weak enforcement of the existing environmental laws. Weak information sharing.	The environmental action plan for up to year 2015 gives specific actions for all sectors in environment; Government policy against non-biodegradable materials such as polythene bags; Planned urbanization, water and drainage systems; Environment management interventions; Environment; management and reforestation to increase water retention. Political goodwill for environmental actions in Kenya; Collaboration and networking between government and non-governmental agencies; An increasingly sensitized and supportive public on environmental matters; Independent operation of public complaints committee (PCC) and autonomous tribunal to enhance NEMA's effectiveness.	Increase in population; Illegal charcoal burning; Tree cutting for fuel; Dependence on wood fuel by the populace; Inadequate appreciation of the role of NEMA by the public and lead agencies; Poor governance; Wide spread poverty exacerbated by the impact of HIV/AIDs; Erosion of cultural values in environmental conservation; Conflicts on natural resources use; Encroachment of wetlands and hilltops.

2.2.8 The Physically Challenged

The physically challenged in the county are estimated to be 10,104 which is 1.6% of the total population. Although this proportion of the population is discriminated against and seen as dependants, they have a lot of potential to contribute to development. The county faces a number of challenges towards integrating the physically challenged in development among them being the lack of rehabilitation centres, as well as discrimination by other community members. With the available data for the physically challenged, there is need for proper planning for the disables, mainstream them in development programmes provide window of opportunities for the persons with disabilities especially through devolved funds-CDF, Women Enterprise Fund, Youth Development Fund among others and sensitize the communities about the challenges facing these groups.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

SWOT Analysis: Physically challenged

Strengths	Weaknesses	Opportunities	Threats
Existence of organized groups for the Physically Challenged; Availability of a special school for the Physically Challenged (Nyairicha in Nyamira division)	Inadequate funding, training institutions and technical personnel; Lack of rehabilitation centres; Inadequate data on the physically challenged	Availability of devolved funds and national funds for persons with disabilities.	Discrimination; HIV/AIDS pandemic

2.2.9 National Diversity

As already alluded to the Gusii Community predominantly occupies the county, however, the northern and parts as well as the major towns have a significant number of other ethnic communities. Most of these communities are engage in farming or business activities. High in-migration has been noted especially in the three major towns' centres due to those searching for employment opportunities. The cultural diversity of the various communities has seen much intermarriage between the different groups leading to very peaceful co-existence.

SWOT Analysis: National Diversity

Strengths	Weaknesses	Opportunities	Threats
Existence of diverse cultures; Existence of peace building and peaceful coexistence structures from the locational to 3county levels.	Lack of a cultural centre for cultural exchange.	Existence of willing donors to sponsor cultural exchange programmes	Tensions that occur before the elections

2.3 Potential Strategy Policy Thrusts

The matrix below provides a summary of the main development issues affecting the county, their causes, and development objectives and potentials strategic policy thrusts. It also maps the development issues with respective to corresponding MTEF sectors.

Table 11: Summary of the main development issues

County Issues, Causes, Objectives and Strategies					
Issues/ Problems	**Link to National/ County functions.**	**Causes**	**Development objectives**	**Immediate objectives**	**Strategies**
Agriculture and Rural Development (ARD).					
Low crop yields	County.	Expensive farm inputs; Poor infrastructure; Poor farming practices; Soil erosion; subdivision of land into small uneconomical units;	To improve food security thus reducing food poverty from 46.3 percent to 31 percent. To reduce hunger.	**Goal: Increased crop yields.** Conduct training for communities in the 4 constituencies of the county on appropriate farming practices; To introduce	Use of proper crop husbandry; Control crop diseases and pests; Encourage farmers to use certified seeds; Conduct field demos; Subsidize farm inputs; Support farmers with grants/revolving

CHAPTER THREE

COUNTY SPATIAL FRAMEWORK

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

3.0 INTRODUCTION

The chapter presents a spatial framework for which a ten year spatial plan for the County is anchored as per the requirements of the County Government Act (Section 110(1). It also describes the environmental impact assessment and the environmental implications of the development projects and programmes to be implemented in the County. The chapter shows the essence and the objectives of spatial planning supported by the legislative framework. Issues of human settlements, their origins as well as land use tenure, patterns and basic guidelines for land use are also included in this chapter.

3.1 Justification of the Spatial Plan

Section 110 (1) of the County Government Act provides that "There shall be a ten year County GIS based database system spatial plan for each county in the country, which shall be a component part of the county integrated development plan providing: a spatial depiction of the social and economic development programme of the county as articulated in the integrated county development plan; clear statements of how the spatial plan is linked to the regional, national and other county plans; and clear clarifications on the anticipated sustainable development outcomes of the spatial plan.

The spatial plan is the spatial development framework for the county and gives effect to the principles and objects contained in sections 102 and 103, the plan Sets out objectives that reflect the desired spatial form of the county taking into account the development programme of the county as articulated in its county integrated development plan. A spatial plan contains strategies and policies regarding the manner in which the objectives referred to in paragraph (b), which strategies and policies shall:

(i) Indicate desired patterns of land use within the county

(ii) Address the spatial construction or reconstruction of the county

(iii) Provide strategic guidance in respect of the location and nature of development within the county

(iv) Set out basic guidelines for a land use management system in the county taking into account any guidelines, regulations or laws as provided for under Article 67(2)(h) of the Constitution

(v) Set out a capital investment framework for the county's development programs

(vi) Contain a strategic assessment of the environmental impact of the spatial development framework

(vii) Identify programs and projects for the development of land within the county; and

(viii) Be aligned with the spatial frameworks reflected in development the integrated development plans of neighbouring counties

(d) Shall indicate where public and private land development and infrastructure investment should take place

(e) Shall indicate desired or undesired utilization of space in a particular area

(f) May delineate the urban edges of the municipalities within its jurisdiction and mechanisms of dealing with the rural urban interfaces

(g) Shall identify areas where strategic intervention is required

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

(h) Shall indicate areas where priority spending is required
(i)Clear clarifications on the anticipated sustainable development outcomes of the spatial plan; and
(j) Shall indicate the areas designated to conservation and recreation".

Furthermore the County Government Act at sec 110(3) requires that "Each county spatial plan shall be developed by the county executive committee and approved by the respective county assemblies in accordance with procedures approved by the respective county assembly". The county spatial plan shall therefore be reviewed every five years and the revisions approved by the respective county assemblies.

The Kenya's national goal is to attain rapid and sustained economic growth and development in all regions of the country. This is well stated in the key policy documents namely the Economic strategy for Employment and Wealth Creation, Poverty Reduction Strategy Paper, the National Development Plan and Kenya vision 2030 blue print. The policy documents have also been done with appropriate regard to the Millennium Development Goals (MDG). To put into effect this desired goal a spatial framework within which this will operate has to been put in place.

There are also a number of development agencies undertaking diverse activities at the county level. These include government line ministries, quasi development agencies, NGOs, CBOs and private investors. But without an appropriate spatial frame for coordinating the activities of these agencies, projects may be planned and implemented by each agency on its own assessment of local needs with little concern for the development planning framework.

In this way, material resources will be wasted and facilities will operate at less than their maximum effectiveness and unnecessary costs will be incurred in the provision of infrastructural facilities and services because economic planning may be mainly sectoral and not incorporate sufficiently the spatial aspects of development at the national, regional and local levels.

County spatial planning therefore helps to step down global and national development policies to become relevant at the local level. It also helps in linking economic planning (budgets) to spatial planning which has been identified as the major cause of underdevelopment in the country despite massive investments over the years. Spatial planning is also a useful tool in setting development priorities of a region and coordinating implementation of these priorities amongst a multiplicity of actors.

3.2 Objectives of County Spatial Planning

The county spatial planning seeks to fulfil the following objectives:

- Identifying the spatial distribution of the resources within the county, their potential and level of utilization
- Assessing the existing infrastructure, their current conditions, capacity and projected distribution

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

- Identifying fragile ecosystems and suggest intervention measures for their protection and conservation
- Investigating human settlement trends and propose an appropriate hierarchy or urban centers that will spur rural development;
- Assessing capacity of the existing institutions and organizations and suggest strategies to enhance their performance
- Suggesting an integrated spatial framework that will guide the sustainable utilization of the land, and other resources for social, ecological and other functions.
- Suggesting priority areas for intervention.

3.3 Laws/ Policies Applicable to Spatial Planning

- The constitution of Kenya 2012
- The National Land Policy
- The Physical Planning Act Cap 286
- The National Land Commission Act No.5 of 2012
- Urban Cities and Cities Act No.13 of 2011
- County Government Act No. 17 of 2012
- Transition to Devolved Government Act No. 1 of 2012
- Land Registration Act No. 3 of 2012
- Land Act No. 6 of 2012
- Public Health Act Cap 242
- Survey Act
- Any other Acts passed by County Government.

3.4 Human Settlements

3.4.1 The origin of Human Settlements

The size and the location of towns in Kenya have a historical origin. Before Colonialization there were agglomerations inform of trading centres, along the Coast of Kenya because of trading activities between people and the Arabs.

In the interior of Kenya, life was based on self-sufficiency and not specialized trade patterns because of subsistence agriculture and stock herding. Markets become points of trade forming a spatial system consisting of a hierarchy of markets to deal with internal trade. The construction of railway (Mombasa to Kisumu and Nakuru to Malaba to Kampala) changed the spatial organization of towns along the railway line. The expansion of branch lines to open up the 'white highlands' led to establishment of towns like Eldoret, Thika and Nyahururu.

The colonial government introduced an administration based on Provinces and districts each centred on a settlement – the headquarters – generally known as 'boma'. The 'bomas' had a DC and his staff officers, law courts, police headquarters, hospital, schools, residence. The 'bomas' developed into towns and market centres leading to a sprouting of unplanned settlements in Nyamira County. This concentration of activities and people in small villages, towns or cities were then called human settlements.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

Human settlements therefore play an essential role as agents of economic growth by providing favourable locations for productive investments. This means that the development of towns is a critical process in the transformation of the County into a modern state. The growth of towns should be seen as a combination of evolutionary changes in social values and motivation, technologies and economy systems. It is in towns that most of the activities and process which usually associated with modern economic and social progress, but it's here those problems of degradation of the environment and human qualities of life are acute. The scale and intensity of these problems necessitate planning for human settlements as part of overall, County and National Development policies.

The pattern of human settlement in a region is influenced by the population dynamics of that area and the two have an embryonic relationship. Other factors influencing human settlement include soil fertility, availability of productive resources, other natural resources and general production capacity and level of economic development such as location of industry and urbanization among others. However, settlements change in size and form and respond to the changing economic and social development of the surrounding areas.

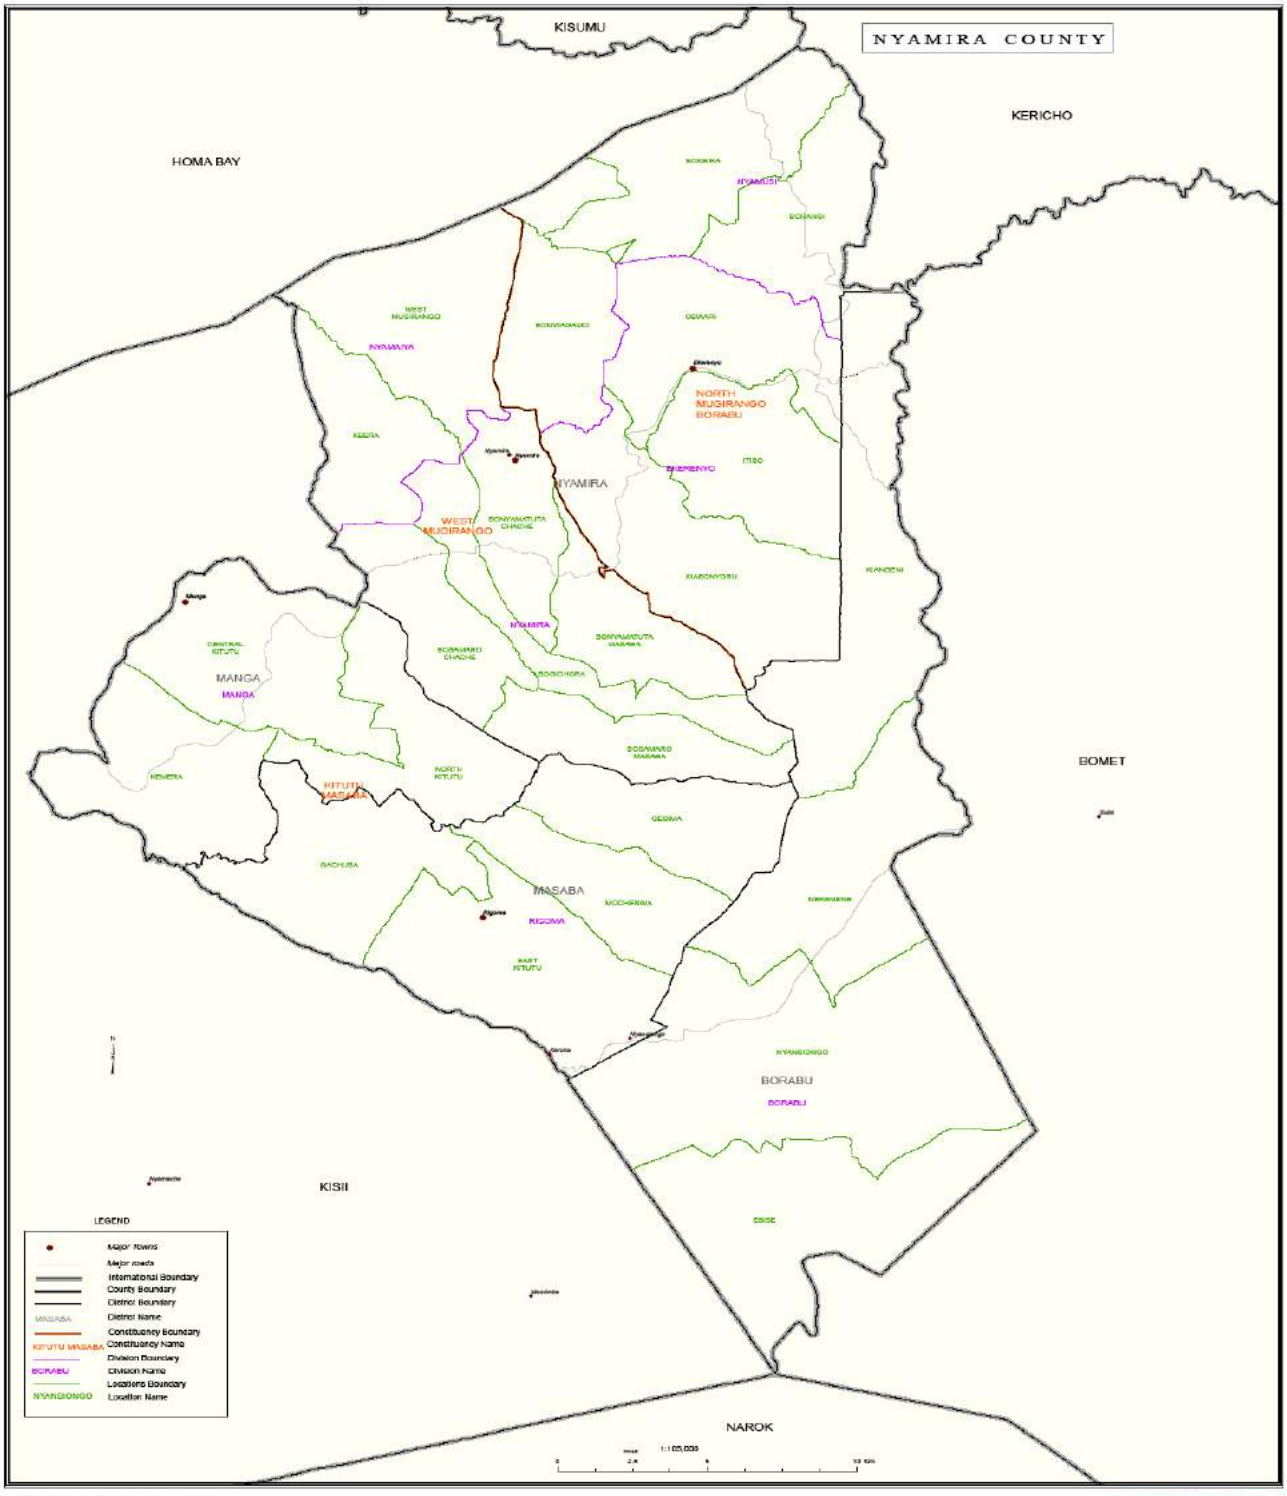

3.4.2 The Human Settlement Policy

In Kenya, the Human Settlement Policy is espoused in the detailed Human Settlement Strategy of 1978. This strategy is an overall framework for the management of urban growth and location of Physical Developments in the urban and rural areas of Kenya. The following five strategies were outlined to achieve the sustainable management of urban growth;

- The development of service centres
- The development of growth centres
- The development of an integrated transportation and communication system
- Rural Development
- The development of appropriate standards for urban infrastructure

Map 3: The Administrative Towns in Nyamira County

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

The main objectives of the above strategies are;

- To continue to promote the maximum development of the rural areas to improve living standards for the majority of the people
- To establish a more even geographical spread of urban physical infrastructure in order to promote more balanced economic growth throughout the nation and a more equitable standard of social services between different areas
- To encourage the expansion of several large towns in addition to Nairobi and Mombasa in order to promote regional growth thereby providing more alternatives for the absorption of the migrant population and the problems arising from excessive concentration in these towns
- To continue to develop a complementary network of communication so as to improve accessibility between centers of economic and social development
- To adopt standards of urban infrastructure which are more closely relate to what can be afforded by the country as a whole
- To continue improving the planning machinery and co-ordination between developmental agencies, which are responsible for planning, decision making, financing, implementing and administering a wide variety of services.

3.4.3 Functions of Human Settlement

Ideally, human settlements perform the following functions;

1. **Service Function:** Settlements facilitate the provision of schools, health services, public utilities, commercial banks, co-operatives, administration among other important services. These services not only serve the people in the towns but also those in the surrounding areas.

2. **Economic Function:** Human Settlements provide employment in industrial, Commercial and in the Service function. The towns provide markets for the produce from the hinterland which stimulates the conversion from subsistence to a cash economy. While the manufactured goods in towns, promotes material advancement in both rural areas and towns.

3. **Residential Function:** Human settlements also provide a residential function for people working in non-agricultural employment. Human settlements are therefore focal points of Commercial Industrial administrative, health, educational and recreational activities required by the population and an analysis of human settlement patterns in a region is critical for proper spatial planning of a region.

Human settlements in Nyamira County are located on both public and privately owned land. The major centres in the county are Nyamira, Keroka and Nyansiongo. These urban centres have sprout along major road axis and sprawl is a noted challenge. Key urban growth centre patterns of these centres are mainly linear developments which have to be looked into.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

Other smaller urban centres include Manga, Ekerenyo, Kebirigo, Nyamaiya, Nyamusi, Tinga, Kemera, Omogonchoro and others. A key feature of the small towns is that they have evolved organically over time and urban sprawl is very real.

Major issues observed in Nyamira County's urban and rural settlements include the following;

- Uncontrolled development on private land bordering urban areas
- Mixed developments on areas designated for commercial purposes
- Encroachment of agricultural land by urban land use activities
- Encroachment of developments on the road networks
- Poor road network
- Uncontrolled sub-division of agricultural land into small uneconomical sizes
- Encroachment on Environmentally Fragile areas including wet lands, riparian reserves, hilly terrain and swampy areas and wet lands

3.5 Urban-Rural Linkages

Strong urban-rural linkages are vital for the development of any region as they determine the flow of goods and services. These linkages are often aided by a good transportation network and a functional industrial base. Ideally, the rural and urban areas complement one another in spurring development in the region. The rural areas are suppliers of basic foodstuffs and raw materials. The rural areas also offer labour for urban-based activities.

There is a general weakness in linking urban and rural areas within the county. The conditions of some of the existing roads that link these areas are poor which increases the cost of transportation. Again, there is no strong industrial base in the existing urban centres to support the agricultural goods from rural areas. Demand by the population for non-food stuffs, farm inputs and services by the agricultural sector as well as demand for foodstuff by the urban dwellers can only be met if there is an existing reliable and well-coordinated urban-rural linkage.

3.6 Urbanization

3.6.1 Introduction

Urban areas are symbols of prosperity and thus are engines of growth. The concentration of activities in urban areas allows for specialisation and exchange process which are essential for economic growth. Vision 2030 aims to provide the people of Kenya with adequate and decent housing in a sustainable environment. The sustainable environment includes the urban areas where approximately 32% of Kenyans live therefore the improvement of quality of life can be achieved when the rural and urban population is adequately housed provided through well planned human settlements.

Urbanization in Kenya is growing rapidly at an average of 3.9% per year for the period 2005--2010. The levels of urbanization have increased from 8% at independence to 19%

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

in 1989 and 19.4% in 1999. Urbanization is expected to reach 32% by the end of 2012. The growth is due to high level of rural urban migration fuelled by rural poverty and diminishing per capita ownership of farming or grazing land.

Kenyan urban centres are characterised by spontaneous growth and haphazard development which has mainly taken place outside urban planning intervention. This has led to plans not being informed by the local needs and therefore does not address local realities resulting to apathy during implementation. Therefore, the physical development plans have not been recognized as essential tools for the development of urban centres which are engines of growth.

3.6.2 Urbanization in Nyamira County

The number and level of towns in Nyamira County are defined by population, the level of social and physical infrastructure, industrial establishment/developments. The service centre policy aimed at guiding developments in the country classified urban centres into four different categories using their order of importance as follows;

- Designated urban centres
- Designated rural centres
- Designated market centres
- Designated local centres

These centres were to serve the rural population. The functional description of each type of planned human settlement is given as below;

3.6.2.1 Designated Urban Centres

This is the highest category of planned service centres. The urban centre within this category would provide services to the residential population with a population of over 5,000. The services would include a treated water supply, piped sewage system and disposal plant. The other infrastructure would be internal and external roads. The catchment population would be 100,000 to 150,000. The urban centres would have a fully equipped hospital, secondary school, technical college and other higher levels of education. These centres are designed to be focal points of commercial, industrial, administrative, and social services. They are to serve the present and future needs of the population and the whole national economy. They were to serve as reception centres for rural populations seeking employment and social benefits. Nyamira, Keroka and Nyansiongo towns fall within this category. These towns have plans that were prepared and need updating.

3.6.2.2 Designated Rural Centres

These centres play an important role in the development of the rural economy. The rural centre was to serve approximately 40,000 people and expected to have a residential population of between 2,000 to 10,000 inhabitants. The rural centre was important in improving the standard of amenity in the rural areas.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

The rural centres were expected to have a secondary school, a health centre with maternity facility, shopping facilities and big markets. These centres were to give priority to development of secondary and minimum roads. They would have a piped water supply, electricity and a sewage disposal system, telephone services, full postal facilities and banking facilities. The development of these basic infrastructures was to enable the centres to fulfil their roles as service centres to the rural economic and was to encourage the development of rural industries.

These centres include Kebirigo, Manga, Ekerenyo, Mosobet, Magombo, Tombe, Nyamaiya, Rigoma, Miruka, Ikonge, Chepilat, Gesima and others which also have a rich agricultural hinterland. These centres have been planned though the plans are outdated and need updating/replanning. The Local Physical Development Plan for Manga town has been prepared and it awaits approval. These centres also currently lack essential facilities including lack industries and sewage systems.

3.6.2.3 Designated Market Centres

It is designated to serve approximately 15,000 people in the hinter land with a residential population of 2,000. The services it should provide are a primary school, a secondary school and a health centre.

These centres were designated for the development of a public water supply, sub post office, telephone facilities, a police post, and a local bus station (with an airship in the remote areas) and other social, commercial and local administrative services. Examples of designated market centres in examples include Nyamusi, Tinga, Kemera, Omogonchoro, Nyaramba, and Magwagwa just to mention a few. Due to rapid urbanization and levels of development, these centres have grown faster than anticipated.

3.6.2.4 Designated Local Centres

This was the lowest level of service and was to serve the needs of the people within the walking distance of the centre. This centre was to contain a full primary school, several shops, a dispensary, a public water supply and an open air market. It was designated to serve a catchment area of approximately 5,000 people. It should be served by a minor road. Examples of these centres are Lietego, Manga Settlement, Matutu, Nyaikuro, Nyabioto, Obwari, Nyabaraibere, Mochenwa, Metamaywa, Nyakoba, Getare, Esani, and Mokomoni just to mention a few. Most of the centres in this category have not been planned.

3.7 Land Tenure and Land Use Patterns

Land as a resource and factor of production is an important means of livelihood for many people in Nyamira County. As such, rights of land ownership and land use provide important ways through which empowerment of the local people can be enhanced through production of agricultural goods and provision of town housing services.

About 92 percent of land in the county is registered and owners have title deeds. For the rest of the land, the owners are at different stages of acquiring the title deeds.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

All the privately owned land is under absolute ownership. Developers within the township and urban areas own land on leases of 33, 66 and 99 years. Most developers in trading canters do not have ownership documents hence cannot develop their plots fully or use them as collateral.

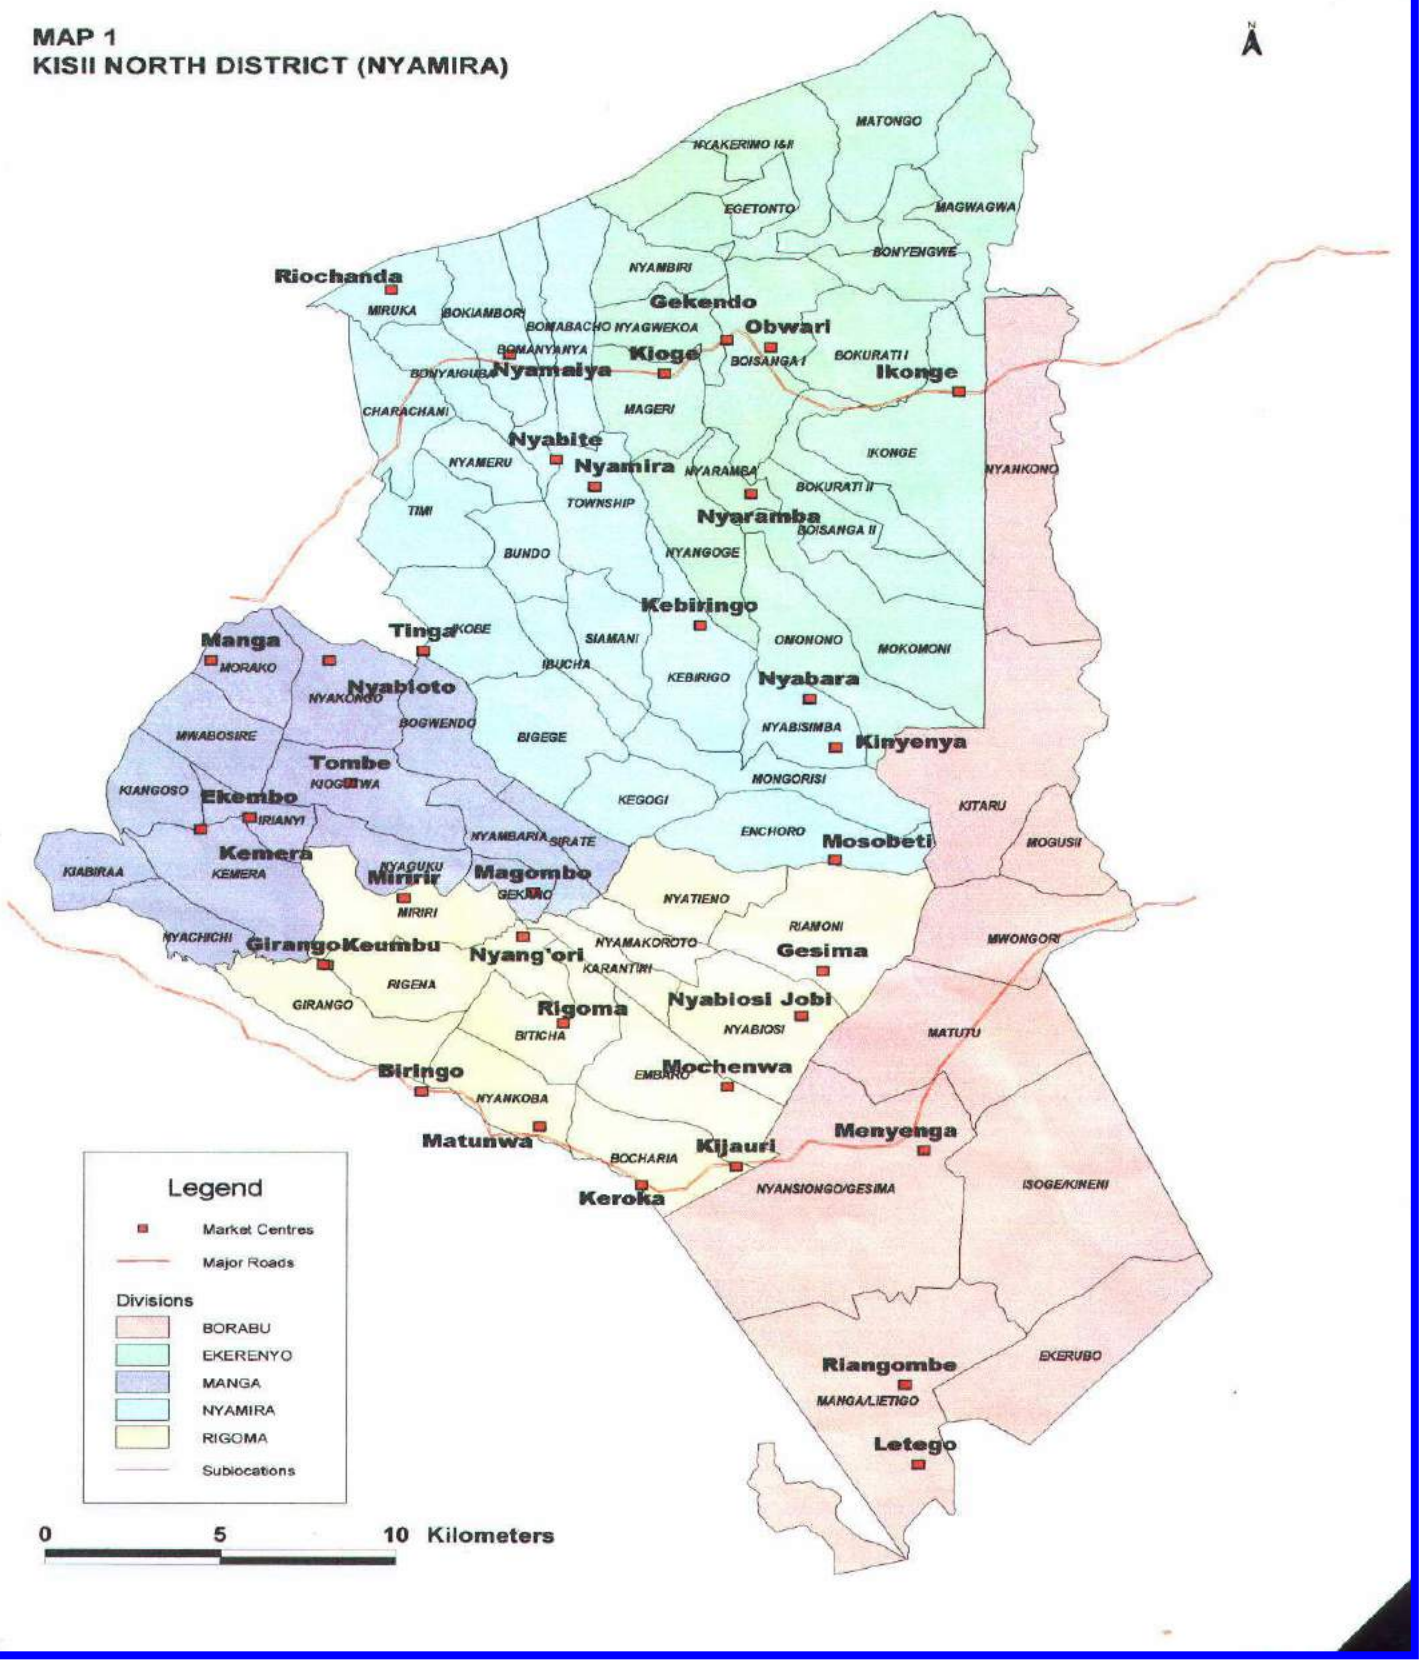

The County comprises of both large scale and small scale farmers. Large scale farmers hold approximately 4ha whereas small scale farmers hold 0.7ha on average. The number of holdings is increasing fast due to the continued sub-division of both small- and large-scale farm holdings within the county

The county has great agricultural potential. A large percentage of land is devoted to crops production. Tea is the most grown cash crop in the county which is grown on small holder followed by coffee. A large percentage of land is also devoted to subsistence farming. A lar variety of crops are grown including; maize, beans, sweet potatoes, variety of vegetables, millet, sorghum, cassava, groundnuts and passion fruits. Dairy farming is well practiced in the county.

Map 4: The Existing Urban Centres in Nyamira County

MAP 1
KISII NORTH DISTRICT (NYAMIRA)

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

The County's land use thus is in the following categories; - arable land, forest land, roads, urban areas/trading centres and rivers. The development of the County shall continue to respect existing land use patterns and development interventions will be put in place to protect arable land, water bodies, forest and urban areas existing within the county.

3.8 Land Use in Major Towns

3.8.1 Nyamira town

Table 12: The land use in Nyamira Town

Existing Land Use	Proposed Land Use
Small scale food & cash crops agriculture	Zoning of High, Medium, and Low density residential areas
Small scale dairy farming	Schools
High density residential	Youth polytechnic
Medium Density	Stadium/Sports & Cultural Facilities
Low density residential	Social hall
Mixed developments	Public park
County Administrative/Government Offices	Open spaces
Government Housing	Special purpose
County assembly offices	Public lavatory
Police headquarters & Housing	Administration
Industrial - Slaughter slab, Garages, Jua Kali Shades	Governors offices and County offices
Primary Schools – both Public & Private	Water works
Secondary Schools	Sewerage treatment works
Colleges	Sewer lines
University	Waste disposal Sites
Stadium	Show ground
County Hospital	Theatre Halls
Health Centres	Public Libraries
Nursing homes	Youth Empowerment Centre
K.I.E. Estate	Child Rescue Centre
G.K. Prison	Designated Parking Areas
Lake basin Authority	Future commercial
NGOs/CBOs Offices	Street Lighting
A.P Line (camp)	Slaughter Houses
Telecom exchange	Famers Training Centre
Public Park and Toilet	Industrial Development Sites
Churches	Cemetery
Mosque	
Post office	
Law courts	
Commercial Premises	
Market	
Hotels/Guest Houses	
Roads & Service lanes	
Bus park	
CDF Offices	
Political Parties offices	
Petrol Stations	

3.8.2 Keroka Town.

Keroka town is a special planning area as it lies within two counties with a small section of it lying in Kisii County and the larger section in Nyamira County. It has a plan that needs updating. Roads in Keroka town are closed up and thus they require opening. Users are mixed up and this will need replanning of the area. The current land uses & proposal in Keroka town are as follows;

3.8.3 Nyansiongo Town.

Nyansiongo town has been identified as one of the major towns in Nyamira County. Nyansiongo town has an existing approved spatial plan that was prepared in the 1960s. The following table shows the existing and proposed land uses in the town.

Table 14: The land use in Nyansiongo Town

Existing Land use	Proposed Land Use
High density residential	Zoning of High Density Medium density and Low density residential areas
Medium Density	Schools
Low density residential	Youth polytechnic
Mixed developments	Stadium
Small scale food & cash crops agriculture	Social hall
Dairy Farming	Public park
Government Housing	Open spaces
Industrial mainly Tea Factories, Slaughter slab, Garages, Jua Kali Shades	Public lavatory
Schools– both Public & Private	Hospitals/Health centre
Colleges	Churches
Hospital	Administration
Health Centres	Cemetery
Nursing homes	Water works
Administrative/Government Offices	Sewerage treatment works
NGOs/CBOs Offices	Sewer lines
A.P Line (camp)	Waste disposal Sites
Public Toilet	Show ground
Churches	Theatre Halls
Post office	Public Libraries

Political Parties offices	Agricultural Training Hall
NCPB offices	Industrial Development Sites

3.9 Zoning

Guiding factors which inform zoning of these land uses in the urban areas include the following;

- Terrain of the area
- Availability of the land
- Existing structures and use
- Accessibility
- Existing infrastructure such as power and existing registered/classified roads
- Natural features (rivers, forest, hills etc.
- Economic activities
- Stakeholders/public participation
- Existing human settlement areas
- Nature of land tenure

3.10 Physical Development Plans

3.10.1 Physical Development Plans for Major Towns and Other Urban Centres

The following table indicates the planned and unplanned urban and rural centres in Nyamira County;

3.10.2 Preparation of Spatial Plans

Spatial plans/Land use plans for main towns - Nyamira, Keroka, Nyansiongo and other towns - Manga, Ekerenyo, Kebirigo, Kemera, Nyamusi, Gesima and other centres will be prepared. Likewise, building and zoning plans for major towns and all other major centres will be prepared to enable control of development of infrastructure within these towns.

Various infrastructural facilities will be located in various levels of centres. Towns with at least 10,000 population including Nyamira, Keroka and Nyansiongo will have to provide the following facilities as required by the Act; Street lighting, Cemeteries and crematorium, Library, Health facilities, Sports and cultural facilities, Abbot tours, Refuse collection, Solid waste management, Air noise, Child care facilities, Pre-primary education, Community centres, Guest Houses, Homestays, Polytechnic, Training Institution, County School, Airstrip, Unclassified roads, Museum, Historical Monument, Postal Services, Regional Radio Station, Community Radio, Funeral Parlor, Recreational Parks, Management of Markets, Religious Institution, Housing, Roads, Water supply, Sewerage, Power/electricity, Drainage, Garbage collection & disposal.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

3.11 Basic Guidelines for Land Use in Nyamira County

To guide developments in the County the following are the recommended basic guidelines;-

- Existing spatial plans for urban areas and trading centres prepared under any physical planning legislation shall continue to be in force during the planning period
- All urban towns within the county shall be alienated to enable proper development of these towns and centres for efficient infrastructural service provision to the communities and combat urban sprawl
- Delineation of township areas shall be undertaken in accordance with either prevailing approved spatial plans or determined afresh during planning
- All new developments including government projects will be required to be approved by the relevant departments and the development control technical committee before construction
- Road reserves of all classified and unclassified roads shall be maintained with developments observing a setback of at least 3m
- Minimum standard land sizes for various sub division plans shall be set
- Provision for road of access in all subdivisions shall be pegged at a minimum of 6m
- All subdivisions and change of users to be processed in accordance with the spatial planning legislation
- All developments deemed to have encroached on the roads and road reserves shall be required to be removed
- To safeguard on encroachment onto road of access planting of trees (perennial/ornamental) shall be a requirement for upcoming developments
- Adequate publicity and engagement of members of public should be obtained during preparation of all spatial plans
- County government should put in place dispute resolution committees to arbitrate on objections and complaints against planning decisions
- The county shall ensure all investments are regulated to enable adherence to development planning and control.

3.12 Public and Private Land Development

Public land comprises all land in the county that is not private or community land and any other land declared public land by an Act of Parliament. To secure public land the county shall;

1. Prepare and maintain a register of all public land and related statistics in collaboration with the NLC
2. Establish mechanisms for the repossession of any public land acquired illegally or irregularly
3. Establish participatory and accountable mechanisms for allocation, development and disposal of public land by the NLC
4. Establish an appropriate system for registering all public institutional land.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

Private land refers to land lawfully held, managed and used by an individual. The county shall ensure that all private land is developed and used to promote public interest. The development of private land shall be regulated and used under the established development control standards, processes and procedures that are efficient, transparent and accountable for sustainable use and preservation of environmental values. The county shall ensure effective enforcement of development control. The county shall ensure public participation in development control. Development control shall take into account local practices and community values on land use.

3.13 Spatial Planning Priorities

The following table indicates the spatial planning priorities for Nyamira County;

Table 16: The spatial planning priorities in the county.

S/No	Plan Type	Location	Time Frame	Recommendation
1	GIS Data	County	October 2013 – January 2014	GIS expert to generate County's geo – referenced data to form a basis for planning. Data to be generated in form of maps includes the following; Population distribution Maps, Infrastructure – Social & Physical, Road Network, Sources of energy, Health Facilities, Human Disease distribution, Social Amenities - Libraries, Schools, Social Halls, Theatre Halls, , Existing Urban Centers, Housing, Agricultural Map – Livestock, Crops, Fisheries, Diseases, Relief map, Environment – Forests, Wetlands, Springs, Agro ecological Zones, Labour distribution, Tourist Attractions sites, Minerals, Security, Tourism sites, Any other
2	County Spatial Plan (2013 – 2023)	County	2013 – 2014	▪ Planning services to be outsourced
3	Confirmation of Planned Roads in the Major Urban Centres	Nyamira & Keroka	2013/2014	▪ Easy retrieval of records ▪ Confirmation of Beacons.
4	Local Physical Development Plan (2013 – 2023)	Nyamira	2013 – 2014	▪ Planning services to be outsourced ▪ Update and revise the local physical development plan for the town ▪ Provide a framework for infrastructure development such as sewer system, water reticulation, road development, commercial and industrial development ▪ provider a framework for development control and arbitration ▪ Ensure all required public facilities are provided for
	Local Physical Development Plan (2014 – 2024)	Keroka	2014 – 2015	▪ This is a special planning area ▪ Provide a framework for infrastructure development such as sewer system, water reticulation, road development, commercial and industrial development

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

				▪ Revise the local physical development plan to reflect the new status of t he town
	Local Physical Development Plan (2015 – 2025)	Nyansiongo	2015 -2016	▪ Plan to be prepared to guide developments and control urban sprawl
	Local Physical Development Plans (20 years Pans)	Others include; ▪ Completion of Manga & Miruka ▪ Ekerenyo ▪ Kebirigo ▪ Kemera ▪ Nyamusi ▪ Gesima ▪ Kebirigo ▪ Ekerenyo ▪ Others	2013 – 2017	▪ Planning of some of these centres should be outsourced so as to speed up development due to low capacity of spatial planning department ▪ Development of Industries to be encouraged in these areas
	Management of land records (Archives)	Nyamira Land Registry Office	2013/2014	▪ Management of all land records ▪ Installation of computers in the lands office.

3.14 Capacity Building

It is recommended as shown in the table below that there shall be established two additional county spatial planning units in the Keroka and Nyansiongo charged with the responsibility of discharging planning function at the lower level units. These units shall oversee spatial plan implementation and ensure compliance.

S/No	Physical Planning Offices	Recommendations
1	Nyamira County Office	Provide Office accommodation for two more officers
2	Keroka Town Office	Establish office and provide adequate staff and equipment
3	Nyansiongo Town Office	Establish office and provide adequate staff and equipment

Members of staff should be accorded adequate opportunities on training especially on Geographical Information System (GIS), information technology, environmental and urban/rural planning and management related courses including project management.

3.15 Assessment of Environmental Impact of Projects

Sustainable development is the main thrust that is embraced worldwide in order to achieve the social, economic and environmental goals. It is reckoned that any meaningful development requires that all the three elements are achieved without compromising each other. The natural resource base must be exploited sustainably for the present generation and the future.

Nyamira County Government will enact the necessary laws to conduct its operations in a manner that is environment friendly. In accordance with the Environment policy, the County Government will comply with all Environmental laws and will manage all phases of its business in a manner that minimizes the impact of its operations on the environment. Environmental Impact Assessment and audits shall be undertaken for all major projects with the exception of single storey buildings and all categories of projects spelt out in the Environmental Coordination and Management Act (Environmental Impact Assessment) regulations 2003. Other projects and programmes to be subjected to Environmental Impact Assessment shall include all major road works, petrol stations,

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

abattoirs, institutions, water projects, quarrying activities, putting up of industrial plants and setting aside of the development of waste disposal sites among others. This shall be in addition to fulfilling planning requirements of Change or Extension of user. All urban and rural spatial plans that will be prepared in the county shall be accompanied by Environmental Impact Assessment Reports.

Environmental impact assessment and audits shall be carried out on all proposed projects, programmes and activities on land that are likely to degrade the environment. An enforcement mechanism to ensure these Environmental Impact Assessments and Audits are carried out shall be Instituted. This will be done in panel based approach by doing joint inspections by the relevant departments.

To enhance the Environmental policy, the Nyamira County Government shall:-

- Comply with applicable environment laws and regulation
- Enact the necessary pieces of local legislation for environmental manage the environment.
- Encourage developing enterprises to embrace cleaner production systems that save on energy, water and raw materials.
- Eliminate or reduce to the maximum practical extent, the release of contaminants into the environment through pollution prevention (material substitution and source reduction), Recycling, treatment and control technologies
- Effectively communicate with employees, service providers, customers and the community regarding E.M.S performance through training workshops, seminars and or 'barazas'.
- Periodically review and demonstrate continuously improvement in environmental performance including areas not subject to regulations.
- Sensitize its citizens to participate in local environment and report environmental offences.
- Respond to all incidents immediately to minimize any environmental impacts.

The environmental issues generally addressed by this policy include(but are not limited to)air and water pollution, waste management, biodiversity protection, the protection of Natural resources, wildlife and endangered species and the preservation of these Natural resources for posterity. It is also intended for communication of environmental issues.

3.16 Policy Implementation Instruments

To implement the environmental policy the Government may use the following:-

- Economic incentives and market-based instruments such as taxes and tax exemptions
- Tradable permits and fees
- Bilateral agreements negotiated by the Government and private firms under the negotiated compliance framework.
- Implementation of greener public purchasing programmes
- Environment Impact Assessment Reports (E.I.As)
- Promote the reduction, recovery and recycling of waste.
- Introduce Landfill taxes to reduce biodegradable Municipal waste sent to landfill

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

- implement the polluter pays principle at the local level

3.16.1 Waste Disposal Tax

Waste disposal tax will be introduced for the purposes of increasing the proportion on waste management techniques applied to both household and industrial waste

3.16.2 Waste Water Tax

To make discharges, private and county institutions shall comply with the prescribed standards on management of liquid waste. It is a penalty tax for non-compliance with standards. All facilities that will be discharging wastewater into the aquatic environment must apply for effluent discharge licence as required by the Water quality regulations 2006. This is to ensure that effluent discharged into the environment is within the standards

3.16.3 Carbon dioxide Based Motor vehicle tax

Carbon dioxide Based Motor vehicle tax may be introduced to reduce emission of Carbon dioxide into the environment. This will reduce damping of second hand vehicles in the country/county. The county government will lobby for this and issues to be considered will include;

- Green energy
- Encourage minimum tilling on land usage
- Policies to tap solar energy – solar heating
- Roof water tapping
- Policy on no of trees a family must plant per acre
- Use of biogas
- Legislation against tilling on steep slopes
- Legislation on waste disposal
- Need for major urban towns to invest in mechanized solid waste disposal

CHAPTER FOUR

COUNTY INTEGRATED DEVELOPMENT PLAN LINKAGES WITH OTHER PLANS

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

4.0 Introduction

This chapter discusses at length the County Integrated Development Plan linkages with the Kenya Vision 2030 and the Constitution of Kenya. A brief status of Millennium Development Goals at the County level is also provided.

4.1 Integrated Development Planning

Integrated development planning is defined as "a process through which efforts at national and devolved levels of government and other relevant public institutions are coordinated at local level, and through which economic, social, environmental, legal and spatial aspects of development are brought together to produce a plan that meets the need and targets set for the benefit of local communities"

4.2 Legislations governing the county Integrated Planning.

4.2.1 The County Government Act 2012

The County Government Act 2012, in fulfilment of constitutional requirement to legislate preparation of county plans, details the goals and procedures of "**County Planning**" (Part XI of the Act). County planners are required to prepare 5-year integrated county development plans and the annual county budgets to implement them. Under Article 100(h) of the Act, county planning is expected "to provide a platform for unifying planning, budgeting, financing programmes, implementation, and performance review". A county planning unit shall be responsible for "coordinated integrated development planning". County plans will have the goal of promoting harmony with national and other county plans, land-use plans, urban planning and environmental conservation.

The County Government Act, 2012, section 104 (1), states that, "a county government shall plan for the county and no public funds shall be appropriated without a planning framework developed by the county executive committee and approved by the county assembly". It also states that the county planning framework (as in the definition above) shall integrate economic, physical, social, environmental and spatial planning. In addition to an integrated county development plan, each county is expected to have the following:

- A County Sectoral Plan
- A County Spatial Plan; and
- A City and Urban Areas Plan

These county plans (section 107(2)) "shall be the basis for all the budgeting and planning in a county".

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

4.2.2 Transition to Devolved Government Act, 2012

Under the Transition to Devolved Government Act (2012), the Transition Authority is expected "to provide mechanisms for capacity building requirements" of the new county authorities to prepare the appropriate plans and budgets.

4.2.3 Public Finance Management Act (PFMA), 2012

The Public Finance Management Act (PFMA), 2012, emphasizes what the County Government Act states but puts a slightly different emphasis on planning. Whereas the County Government Act requires a "five-year County Integrated Development Plan", the PFMA (Part IV (126) (1)) requires both a long-term and medium term plan. According to the PFMA, a budget process for the county government in any financial year shall consist of the following stages: Start with an integrated development planning process, which shall contain both short term and medium term plans. Every county shall prepare a development plan as per Article 220 (2) of the constitution. Budgets are to be based on projects and other expenditure contained in the plan.

4.2.4 Urban Areas and Cities Act, 2011

Urban Areas and Cities Act (2011) is also emphatic on the need for 5 year integrated development planning and the need to align annual budgeting to the plan. These plans are separate from those of the county. In section 36(2) it states that "an integrated urban or city development plan shall bind, guide, and inform all planning for development and decision-making and ensure comprehensive inclusion of functions."

4.2.5 Constituencies Development Fund Act 2013

The CDF ACT 2013 provides for the county projects committee under part VII with the following membership; The senator, Governor, women representative, all members of the parliament in the county, the national government official, the chairpersons of the constituencies, incharge of the county treasury, incharge of the county planning, all county departmental heads in county whose dockets various projects fall and an officer seconded by the who shall be the secretary and ex-officio member. The chair to this committee shall be elected amongst the members. Section 38 of the act is emphatic that the chairperson of the constituencies development fund committee for each constituency shall table a list of the projects for that constituency at a meeting of the county projects committee convened for that purpose and the said list shall also be submitted to the county assembly in order to align the said projects with the County development plans and policies. The committee may also make an impromptu visit to the approved projects.

4.3 CIDP Linkages with Kenya Vision 2030 and Medium Term Plan

Sessional Paper Number 10 of 2012 on Kenya Vision 2030 is the National Policy Economic Blueprint that entrenches Kenya Vision 2030 as the long term development strategy for Kenya. The Kenya Vision 2030 aims to transform Kenya into a modern, globally competitive, middle income country providing a high quality of life to all its

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

citizens. Kenya Vision 2030 is a product of highly participatory, consultative and inclusive stakeholder's process conducted throughout the country and in all sectors of the economy. The Vision is anchored on three key pillars: economic; social; and political.
The Economic Pillar aims to achieve an average Gross Domestic Product (GDP) growth rate of 10 per cent per annum and sustain the same till 2030 in order to generate more resources to reinvigorate the economy to meet its envisaged goals and aspirations. The key sectors in this pillar include: tourism, agriculture and livestock, manufacturing, wholesale and retail trade, Business Process Outsourcing (BPO) and financial services. A seventh sector, oil and mineral resources, has now been added taking cognisance of the recent developments. The Social Pillar seeks to build a just and cohesive society with social equity in a clean and secure environment. The main sectors under this pillar include education and training, health, water and irrigation, environment, housing and urbanization, gender, sports, youth and culture. The Political Pillar aims at realizing a democratic political system founded on issue based politics that respect the rule of law, and protects the fundamental rights and freedoms of every individual in the Kenyan society.

The three pillars are anchored on a number of foundations, which serve as enablers that create an environment that is geared towards the realization of Vision 2030. These include: macroeconomic stability; continuity in governance reforms; enhanced equity and wealth creation opportunities for the poor; infrastructure; energy; Science, Technology and Innovation; Land Reforms; Human Resource Development; Security and Public Sector Reforms. An additional enabler, national values and ethics, has been included following the passing of the Constitution of Kenya 2010.

The Kenya Vision 2030 is phased to be implemented in successive five year Medium Term Plans. The first plan covered the period 2008-2012. The Medium Term Plan (MTP 2013-17) is the second in a series of successive 5-year plans under which the Kenya Vision 2030 is to be implemented. The second MTP 2013-2017 draws on lessons learnt in implementing the first MTP. It seeks to implement the flagship projects identified under Vision 2030 over the five year period together with incomplete flagship and other projects and programmes in the previous Medium Term plan. It will also take due cognizance of the devolved structure of government following promulgation of the Constitution of Kenya 2010 and recent discovery of oil and mineral resources.

The broad key priority areas which will be the focus of the Second MTP include: employment creation; development of human resource through expansion and improvement in quality education, health and other social services; reducing the dependence of the economy on rain fed agriculture through expansion of irrigation; higher investment in alternative and green sources of energy; improving the economy's competitiveness through increased investment and modernization of infrastructure; increasing the ratio of saving, investment and exports to GDP; implementation of key Kenya Vision 2030 Flagship projects including development of LAPSSET Corridor; improving national security; promoting national values and ethics; and continue implementing the Constitution including devolution.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

County Government Act, 2012, stipulates that county government shall plan for the county and no public funds shall be appropriated outside a planning framework developed by the County Executive Committee and approved by the County Assembly. This Act along with the Public Financial Management Act, 2012, therefore calls for preparation of a County Integrated Development Plans (CIDPs) which must be aligned to the National Development Plan. In view of this, County Integrated Development Plans and other plans provided in the County Government Act will be aligned to Kenya Vision 2030 and the Medium Term Plan 2013-2017. As such CIDPs will provide the essential linkages of the National and County Governments by facilitating the implementation of Vision 2030 flagship projects as well as other projects and programmes that will ensure implementation of Kenya Vision 2030 at both levels of Government.

County governments therefore must embrace the Kenya Vision 2030 and Medium Term Plans during preparation of county development plans. In particular, they are envisaged to support implementation of Vision 2030 flagship projects that may be domiciled in or cut across the counties. In addition, counties will need to identify specific projects and programmes for implementation over the medium term period towards achievement of the Kenya Vision 2030 and MDG goals.

4.4 CIDP Linkages with the Kenya Constitution, 2010

The Constitution of Kenya (2010) prescribes national values and principles of governance which include sharing and devolution of power. It creates a two-tier government: a national government and 47 county governments. The Fourth Schedule delineates the functions of the national and county governments. A total of 14 functions have been devolved to the counties. The main ones include: county planning and development; agriculture; county health services; control of air pollution, noise pollution, other public nuisances and outdoor advertising; cultural activities, public entertainment and public amenities; county roads and transport; animal control and welfare; trade development and regulation; pre-primary education and village polytechnics; specific national government policies on natural resources and environmental conservation; county public works and services; firefighting services and disaster management; and, control of drugs and pornography. Emphasis is also made for the counties to ensure participatory development and capacities are developed at the county and community level. Five laws which provide the framework for devolution have been enacted, namely: Urban Areas and Cities Act, 2011; The County Governments Act, 2012; The Transition to Devolved Government Act, 2012; The Intergovernmental Relations Act, 2012 and The Public Finance Management Act, 2012.

The PFM Act 2012 provides for effective and efficient management of public resources. Article 125 of the Act requires the budget process for county governments in any financial year to consist of integrated development planning process which include long term and medium term planning as well as financial and economic priorities for the county over the medium term. Articles 126 of the Act further obligates each county government to prepare an integrated development plan that includes strategic priorities for the medium term that reflect the county government's priorities and plans, a

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

description of how the county government is responding to changes in the financial and economic environment; and, programmes to be delivered.

The County Governments are composed of the County Executive Committee and County Assemblies. The County Executive Committee is expected to supervise the administration and delivery of services to citizens as well as conceptualize and implement policies and county legislation. The County Assembly is a legislative organ and will play an oversight role on all County public institutions including the urban areas and cities. The county governments are required to prepare the County Integrated Development Plans to enable prioritization of socio-economic development issues at the local level. This is mandatory before the funding of county projects and programmes.

The County Integrated Development Plan therefore seeks to meet this requirement and ensure that there is a comprehensive planning tool upon which planning at the county can be done as per the requirement of the constitution of Kenya 2010 and other legislations thereafter.

4.5 Sectoral and Ministerial Strategic Plans.

Sectoral and Ministerial Strategic Plans provide sector specific strategies for the implementation of Medium Term Plan. At the county level, sector specific strategies are therefore aligned to these strategic plans.

4.6 Medium Term Expenditure Framework (MTEF).

The MTEF creates a link between development policies, strategies and priority activities pertaining to specific sectors with the budgeting process for a three-year rolling period. It is a tool that ensures that projects / programmes are funded and instils discipline in the allocation and use of resources. The CIDP will be linked to the MTEF process via a series of annual work plans that shall form the basis of annual budget preparation. In order to ensure a strong CIDP-MTEF linkage, the CPMU will coordinate the sectoral annual work plans and budget preparation process and consolidate them into County Annual Work Plan.

4.7 Millennium Development Goals (MDGs).

Kenya is a signatory to the Millennium Declaration. The MDGs aims at eradicating extreme poverty and hunger, achieve universal primary education, promote gender equality and empower women, reduce child mortality, improve maternal health, combat HIV/AIDS and other communicable diseases, ensure environmental sustainability and develop a global partnership for development. The flagship projects in the Vision 2030 are key aspects to be incorporated in the Medium Term Plans, among other projects that will be identified by stakeholders. It is important to note that the MDGs are incorporated in the Vision 2030 which the CIDP is anchored in.

The County's strategies to be implemented during the plan period will therefore be in conformity with Vision 2030 goals and Millennium Development Goals (MDG) of halting the current increase in the incidence of poverty in the year 2015. This focus therefore means that all government policies on economic development and poverty

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

reduction as outlined in Vision 2030, MDGs and National Medium-Term Plan will guide the implementation of this plan.

4.8 Implementation of Millennium Development Goals at the County

4.8.1 Implementation of the MDGs at the County Level

Overview

The Millennium Development Goals (MDGs) are internationally accepted standards for measuring progress towards poverty alleviation. They were agreed upon at the UN Millennium Summit in 2000 where world leaders made and adopted a declaration to "free *all men, women and children from the abject and dehumanizing conditions of extreme poverty'*." The eight MDGs to be met by 2015 are drawn from this declaration. The eight MDGs have time-bound targets and indicators for measuring progress in the areas of: poverty alleviation, education, gender equality and empowerment of women, child and maternal health, reducing HIV/AIDS and communicable diseases, environmental sustainability, and building a Global Partnership for Development. Kenya is one of the signatories to the Declaration and is committed to achieving the MDGs. This commitment has resulted in commendable progress in achieving a number of these goals though some are still facing challenges. As we pursue development agenda at the county level, we need to fast track the achievement of these goals. With only two years to the end of the MDGs period, a group of world leaders appointed by the UN Secretary General are working together to find the best way to tackle global agenda on development after 2015. The post 2015 agenda will have shared responsibilities for all countries and with the fight against poverty and sustainable development at its core. This agenda will be cascaded in the Medium Term Plans and County Integrated Development Plans in order to build upon commitments already made and contribute to the acceleration of achievement of the targets both at the national and county levels.

4.8.2 Status of Implementation of the MDGs at the County Level

The status of implementation of the MDGs at the county level is as follows:

Goal One: Eradicating Extreme Poverty and Hunger

This goal aims at halving those people living below one dollar a day by 2015. The number of people living in extreme poverty in Nyamira County is 46.3 percent against regional poverty level of 48 percent and National poverty level of 45.9 percent according to 2005/06 poverty survey by the KIBHS. The food poor are rated at 21.8 percent. Availability of NGOs and government devolved funding sounds a relief made to lessen the poverty levels. For high impact in poverty reduction, anti-poverty programs, Projects and campaigns should target agriculture and enhance value addition, crop diversification, adoption of modern technologies, development of effective and better market linkages and form cooperatives in order to increase accessibility to affordable financial services.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

Goal Two: Achieving Universal Primary Education

This goal aims at ensuring that, by 2015, children in Kenya, boys and girls alike, will be able to complete a full course of primary schooling. The education-related goals under the MDG framework are those aimed at ensuring all children access quality primary education irrespective of economic status, ethnic background or gender. Pre-primary, primary and tertiary levels have experienced high enrolments after free primary and subsidized secondary education programs were started. For example, the number of primary schools in the county is 545, accommodating a total enrolment of 156,746 and a teacher pupil ratio of 1:35. Gross enrolment is 97.9 percent, with a transition rate of 87.5 percent. Generally, education sector requires initiatives to match the increased demand. Such initiatives include increasing the number of classrooms, employing more teachers, adopting ICT in schools, improve lighting, construct modern laboratories and increase availability IEC materials.

Goal Three: Promoting Gender Equality and Empower Women

This goal aims at promoting participation in education and economic, political and social life by ensuring that there is gender parity at all levels of education and in the improvement of the position and condition of women. In Nyamira County, the total enrolment of girls in primary schools is 89,060 against 91,235 of boys representing girls to boys ratio of 0.98. In secondary schools, the total enrolment of girls is 31,495 against boys at 31,810 representing an almost similar ratio of 0.99 indicating that gender parity in both primary and secondary schools is likely to be achieved. In gender empowerment, it is of paramount priority to incorporate gender mainstreaming strategies at all levels of planning and also strengthen the existing women empowerment programs with increased funding levels.

Goals 4 and 5: Reduce Child Mortality and Improve Maternal Health

Goal number 4 aims at reducing child mortality rates by two thirds, between 1990 and 2015, to less than five percent. Goal number 5 aims at reducing maternal health by three quarters between 1990 and 2015, as well as achieve by 2015, the universal access to reproductive health. The county‘s under five mortality rate stands at 81/1000, which is higher than the national rate of 54/1000. Maternal mortality being at 111 per 1000 lives, lower than the national rate of 484/100,000. The Infant mortality rate stands at 25/1000 while the proportion of one year old children immunized against measles is estimated to be 86 percent in the county. The county‘s proportion of women using contraceptive remains as low as 61 percentage, births attendance by training being 90 percent while the percentage of deliveries taking place in the health centres remains at 62.4 percent. Strategies to improve in this goal include promoting pre-natal, ante-natal and maternal health care. In addition, we have the intensification of reproductive health care programs.

Goal Six: Combat HIV and AIDS, Malaria, and Other Diseases

This goal aims at having halted by 2015 and begun to reverse the spread of HIV and AIDS, achieving by 2010, universal access to treatment for HIV and AIDS for all those who need it and to halt by 2015 and began to reverse the incidence of malaria and other major diseases. The county‘s HIV prevalence among population aged 15-24 years is

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

estimated at boys being 5.8 percent while girls being 8 percent, the average being 6.9 percent. Malaria is also one of the most prevalent diseases in the county and that only 50.8 percent of the children under five use bed nets. The county therefore needs to put in place measures to address prevention as well medication of HIV and AIDS, malaria and other diseases. Sensitization on voluntary counselling and testing as well as use of contraceptives should be augmented.

Goal Seven: Ensure environmental sustainability

This goal aims at integrating the principles of sustainable development into county's policies and programmes and thus reverse the loss of environmental and biodiversity resources. It also aims at halving by 2015 the proportion of people without sustainable access to safe drinking water and basic sanitation, as well as improves the lives of at least 100 million slum dwellers by 2020. The forest cover in the county is low and therefore needs to be increased to 10 percent as per national standards away from 3 percent, through intensification of agro-forestry conservation measures.

CHAPTER FIVE

IMPLEMENTATION FRAME WORK

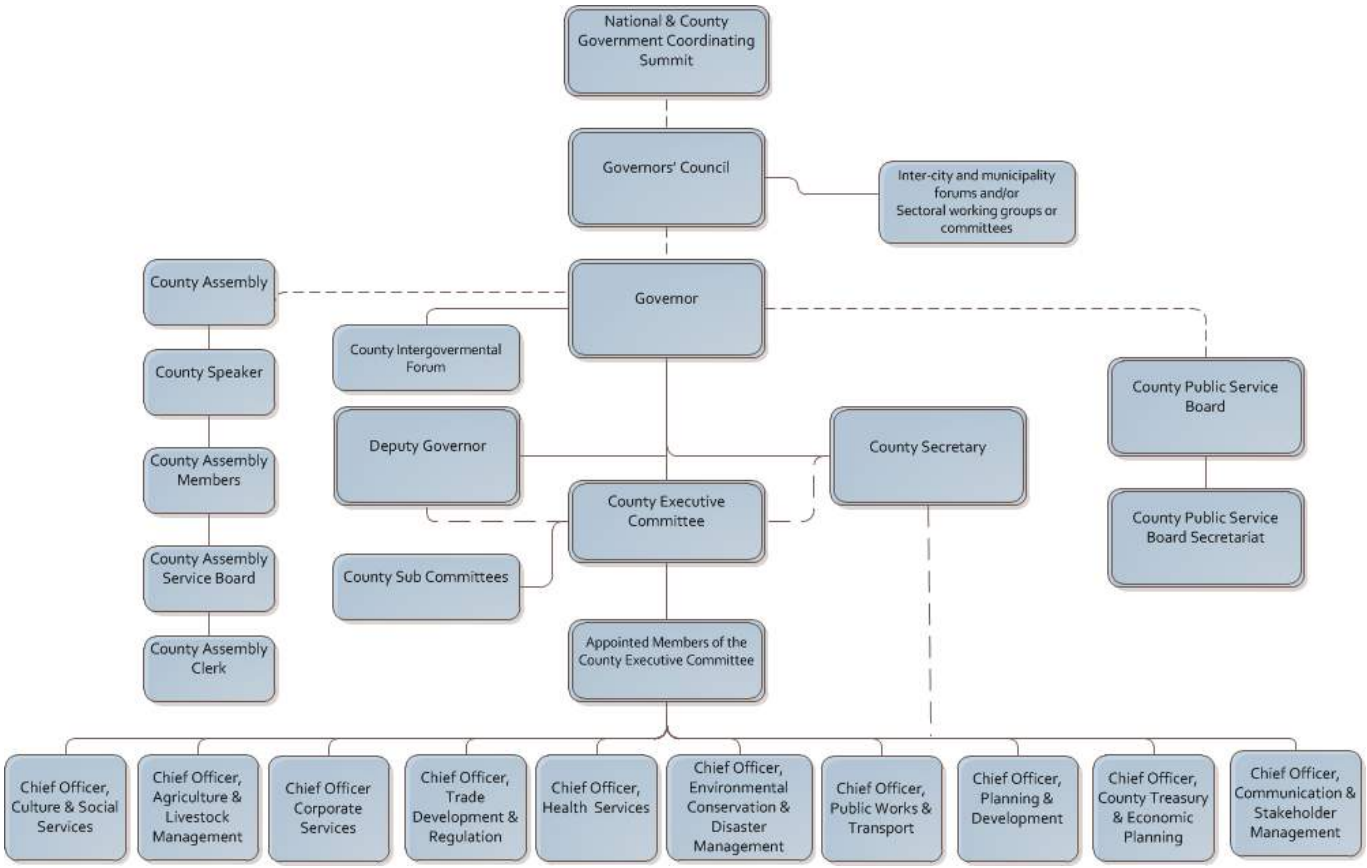

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

5.0 Introduction

The chapter outlines the institutional framework and organizational flow that will be followed in implementing the plan. It also outlines the stakeholders in the County, and the roles that they play and how their functions are accommodated to avoid duplication of efforts.

5.1 Organizational Flow

Figure1: County Organogram.

Governor: The county governor and the deputy county governor are the chief executive and deputy chief executive of the county respectively. The Governor will provide:

I. Leadership in the county's governance and development.

II. Leadership to the county executive committee and administration based on the county policies and plans.

III. Promote democracy, good governance, unity and cohesion within the county.

IV. Promote peace and order within the count.

V. Promote the competitiveness of the county.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

VI. Accountable for the management and use of the county resources while promoting and facilitating citizen participation in the development of policies and plans, and delivery of services in the county.

According to the County Government Act Functions and responsibilities of a county governor include

1) The governor shall take and subscribe to the oath or affirmation as set out in the Schedule to this Act before assuming office.

2) Subject to the Constitution, the governor shall:

   a. Diligently execute the functions and exercise the authority provided for in the Constitution and legislation;

   b. Perform such State functions within the county as the President may from time to time assign on the basis of mutual consultations;

   c. Represent the county in national and international fora and events;

   d. Appoint, with the approval of the county assembly, the county executive committee in accordance with Article 179(2)(b) of the Constitution;

   e. Constitute the county executive committee portfolio structure to respond to the functions and competencies assigned to and transferred to each county;

   f. Submit the county plans and policies to the county assembly for approval;

   g. Consider, approve and assent to bills passed by the county assembly;

   h. Chair meetings of the county executive committee;

   i. By a decision notified in the county gazette, assign to every member of the county executive committee, responsibility to ensure the discharge of any function within the county and the provision of related services to the people;

   j. Submit to the county assembly an annual report on the implementation status of the county policies and plans;

   k. Deliver annual state of the county address containing such matters as may be specified in county legislation; and

   l. Sign and cause to be published in the county Gazette, notice of all important formal decisions made by the governor or by the county executive committee.

3) In performing the functions under subsection (2), the governor shall:

   a. Provide leadership in the county's governance and development;

   b. Provide leadership to the county executive committee and administration based on the county policies and plans;

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

c. Promote democracy, good governance, unity and cohesion within the county;

d. Promote peace and order within the county;

e. Promote the competitiveness of the county;

f. Be accountable for the management and use of the county resources;

g. Promote and facilitate citizen participation in the development of policies and plans, and delivery of services in the county.

Powers of the Governor

a. May, despite section 40, dismiss a county executive committee member at any time, if the governor considers that it is appropriate or necessary to do so;

b. Shall dismiss a county executive committee member, if required to do so by a resolution of the county assembly as provided under section 40;

c. May appoint an accounting officer for each department, entity or decentralized unit of the county government;

d. Shall have such powers as may be necessary for the execution of the duties of the office of governor.

Functions of the Deputy Governor

1. The deputy governor shall take and subscribe to the oath or affirmation as set out in the Schedule to this Act before assuming office.

2. The deputy governor shall deputize for the governor in the execution of the governor's functions.

3. The governor may assign the deputy governor any other responsibility or portfolio as a member of the county executive committee.

4. When acting in office as contemplated in Article 179(5) of the Constitution, the deputy governor shall not exercise any powers of the governor, to nominate, appoint or dismiss, that are assigned to the governor under the Constitution or other written law.

5. The governor shall not delegate to the deputy governor any of the functions referred to in subsection 4.

County Executive Committee

The County Government Act and the Constitution provide for a County Executive Committee which shall be the Cabinet of the County. The county executive committee shall exercise the executive authority:

a. In accordance with the Constitution and relevant national and county legislation;

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

b. For the well-being and benefit of the people;

c. Taking into account the objects and principles of devolution of government set out under Articles 174 and 175 of the Constitution;

d. While enhancing self-governance for communities in the management of development programs;

e. While ensuring the protection and promotion of the interests and rights of minorities and marginalized communities;

f. While promoting gender equity;

g. While promoting social and economic development within the county.

1. In addition to the functions provided under Article 183 of the Constitution, a county executive committee shall

(a) Supervise the administration and delivery of services in the county and all decentralized units and agencies in the county;

(b) Perform any other functions conferred on it by the Constitution or national legislation; and

(c) Carry out any function incidental to any of the assigned functions.

2. In the performance of its functions, a county executive committee shall have power to determine its own programme of activities and every member of the committee shall observe integrity and disclosure of interest in any matter before the committee.

County Treasury

Is responsible for developing and implementing financial and economic policies in the county; preparing the annual budget for the county and coordinating the preparation of estimates of revenue and expenditure of the county government; coordinating the implementation of the budget of the county government; mobilizing resources for funding the budgetary requirements of the county government and putting in place mechanisms to raise revenue and resources; managing the county government's public debt and other obligations and developing a framework of debt control for the county; consolidating the annual appropriation accounts and other financial statements of the county government in a format determined by the Accounting Standards Board; acting as custodian of the inventory of the county government's assets except where provided otherwise by other legislation or the Constitution; ensuring compliance with accounting standards prescribed and published by the Accounting Standards Board from time to time; ensuring proper management and control of, and accounting for the finances of the county government and its entities in order to promote efficient and effective use of the county's budgetary resources; maintaining proper accounts and other records in respect of the County Revenue Fund, the County Emergencies Fund and other public funds administered by the county government; monitoring the county government's entities to ensure compliance with PFM Act 2012 and effective management of their funds, efficiency and transparency and, in particular, proper accountability for the expenditure

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

of those funds; assisting county government entities in developing their capacity for efficient, effective and transparent financial management, upon request; providing the National Treasury with information which it may require to carry out its responsibilities under the Constitution and .the PFM Act 2012; issuing circulars with respect to financial matters relating to county government entities; advising the county government entities, the County Executive Committee and the county assembly on financial matters; strengthening financial and fiscal relations between the national government and county governments in performing their functions; reporting regularly to the county assembly on the implementation of the annual county budget; and taking any other action to further the implementation of the PFM Act 2012 in relation to the county.

County Secretary

Specifically the County Government Act provides that there shall be A County secretary : The county secretary shall (a) be the head of the county public service; (b) be responsible for arranging the business, and keeping the minutes, of the county executive committee subject to the directions of the executive committee; (c) convey the decisions of the county executive committee to the appropriate persons or authorities; and (d) perform any other functions as directed by the county executive committee. (4) The county secretary may resign from office by giving thirty days written notice to the governor.

County Chief Officer

Sect. 45(2) of the County Government Act provides that the office of a county chief officer shall be an office in the county public service. A county chief officer shall be responsible to the respective county executive committee member for the administration of a county department as provided under section 46. The county chief officer shall be the authorized officer in respect of exercise of delegated power. The governor may re-assign a county chief officer. A county chief officer may resign from office by giving notice, in writing, to the governor. County Chief Officer reports suspected offences that may have been committed under the PFM Act 2012. He or she shall notifies the County Executive Committee member for finance and take all practicable steps to report the matter to the relevant law enforcement authority to enable that authority to investigate the suspected offence and, if evidence of the offence is discovered, to institute proceedings to prosecute any person who is alleged to have committed it.

5.2 Stakeholders

Are responsible for prioritizing county programmes and projects while ensuring sustainability and ownership. They also fund programmes and projects.

Table 17: Stakeholders in Nyamira County and their roles.

Stakeholder	Role

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

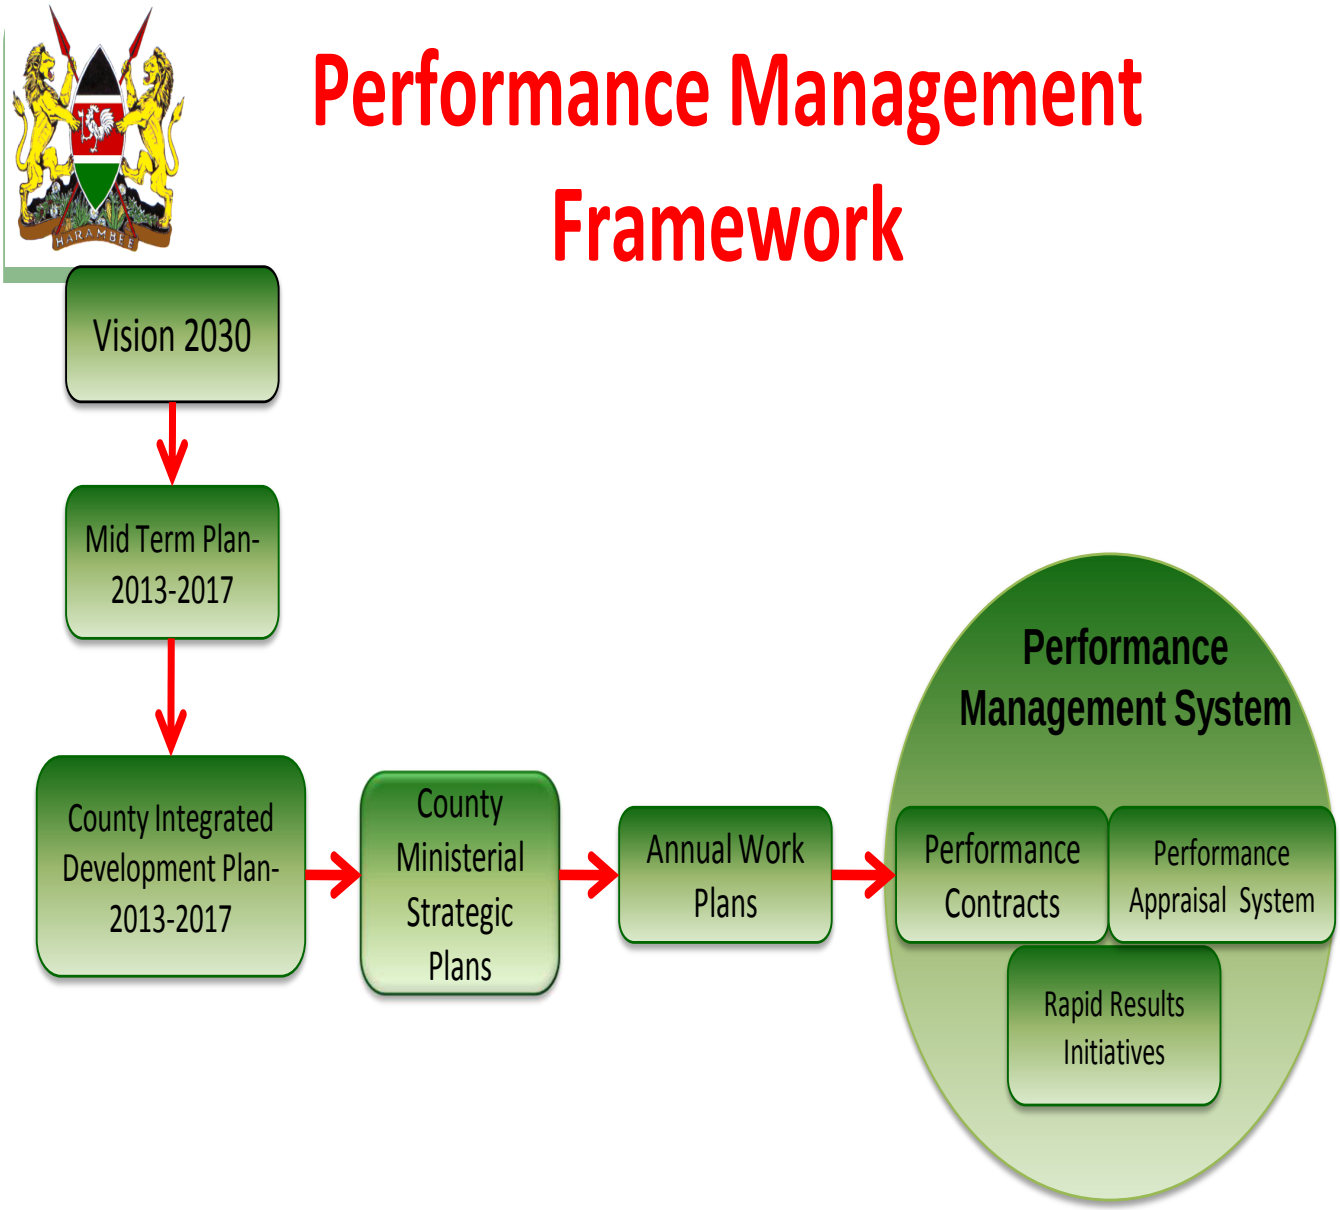

Stakeholder	Role
County Government and departments	Provision of multi-sectorial technical personnel, policy guidelines & financial resources,
National Government	Policy guidelines and harmony of implementation of devolved functions.
Donor agencies(e.g SIDA, IFAD, JICA, USAID, WB, CARE,)	Finance and technical support
Private sector	Provision of credit through financial and non-financial institutions, Supply of inputs.
Devolved funds – CDF, YEF.WEF, Uwezo funds	Funding construction of agricultural and livestock infrastructure.
Research institutions(e.g. KARI, KIRD, TRF, CRF, Universities, KEMRI, KMFRI, KEFRI, ICIPE, CDC)	Development of new technologies, information and dissemination
NGOs, (1 Acre fund, Africa Harvest)	Capacity building, resource provision and promotion of opportunities.
KTDA	Promotion of small scale tea growers.
Coffee Board of Kenya	Development and Regulation of the coffee sector
Pyrethrum Board of Kenya	Promotion, processing and marketing of pyrethrum
Tea Board of Kenya	Regulation and marketing in the of the tea sector
Agrochemical companies	Development and sale of chemicals for pest and disease control
KEPHIS	Regulation of the seed and Chemical used in the sector
HCDA	Promotion of Horticultural Production and Marketing
Kenya Seed Company	Marketing and promotion of fodder/maize seeds.
Other seed companies (Seedco, Pioneer, Syngenta, WSC, EASC)	Development and marketing of seed
Kenya National Federation of Agricultural Producers	Provision of credit facilities, capacity building and advocacy
Community	Actual participation in project activities-planning, implementation and monitoring and resource provision.
Town Boards	Protection of fragile ecosystems e.g. wetlands from encroachment, ensuring proper solid waste management, proper planning in the various towns and markets within the districts, ensuring that compliance to the environmental regulations are adhered to by the investors and developers in the County.
Kenya Animal genetics resource centre (KAGRC)	Provision of superior gene for the upgrading of local breeds
Kenya veterinary vaccines production institute (KEVEVAPI)	Production of vaccines for livestock
Kenya Leather Development Council (KLDC)	Regulate the leather sub-sector, promote production of quality hides and skins
Kenya Livestock Finance Trust(K-LIFT)	Provide loans to fund livestock related production, Capacity building of beneficiaries
Forest services	Ensuring increase of appropriate vegetation cover and proper management and use of wood resources
Water services	Protection of all sources of water i.e. rivers, streams, springs and wetlands from pollution, provision of clean water to the public.
Private sector- Feeds, Pharmaceutical, stockist	Provision of credit through financial and non-financial institutions, Supply of inputs; Support
World Vision and Care Kenya	Support extension and input acquisition by farmers and specific interest groups; Support Artificial insemination scheme; Provision of credit facilities, capacity building and advocacy
Aquaculture association of Kenya	Marketing and promotion of farmed fish e.g. Tilapia, Cat fish etc., capacity building and advocacy.
Community	Actual participation in project activities- planning, implementation, monitoring and resource provision; complementing government efforts
Donor agencies: GIZ- Trilateral Partnership	Financial and technical support on Aquaculture development
Financial institution (Banks, Sacco's and MFI)	Provision of credit facilities and banking services

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

Stakeholder	Role
NGO-APHIA PLUS	Capacity building and technical support
Forest services	Ensuring increase of appropriate vegetation cover and proper management and use of wood resources
Interior coordination & administration	Education awareness to the public on environmental management and sustainable development and utilization of the environment and natural resources, Enforcement of the environmental regulations.
Kenya Union of Credit and Cooperative Organization (KUSCCO)	Capacity building, provision of credit facilities and advocacy
Cooperative insurance Company (CIC)	Insuring members loans
Donor agencies: Farmers Organization for Poverty Alleviation (FOPA)	Financial and technical support on Cooperative development
Kenya Institute of Curriculum Development (KICD)	Development of curriculum and research
NGOs e.g ADRA	Capacity building, resource provision and promotion of opportunities.
Schools Board of Management	Enhance effective institutional management
Media	Objective reporting and advocacy, audio visual programmes
FBO/CBOs	Provision of Moral and spiritual guidance, early education and infrastructure.
Political class	Advocacy, resources
TSC	Employment of teachers, education standards
KNUT and KUPPET	Advocacy on teachers welfare
Sponsors	Spiritual growth and guidance
KESSHA and KEPSHA	Support co- curricular activities and INSETS
KNEC	Summative evaluation and assessment, certification
KEMI	Capacity building
Government Agencies (LVEMP, NETFUND, CDTF, , WRMA,)	Project implementation, financial support, capacity building
Private sector	Provision of credit through financial and non-financial institutions, Supply of inputs, partnership and investment through Public private Partnership
Financial Institutions e.g. Banks,& Sacco's	Provision of credit
Donor Agencies eg UNDP,EU IMF, WTO,JICA &UNIDO	Project Financing and Capacity Building
Kenya Tourism Board and Brand Kenya Board	Promotion of Trade, Tourism and Investment
Media	Publicity of issues in the county and public awareness and education
National Government departments; National Police service, National coordination, probation and after care service	Policy formulation and implementation and service provision, rehabilitation of offenders.
Judiciary	Dispensation of justice
Prisons and borstal institution	Rehabilitation of offenders
Religious organizations	Preach peaceful coexistence within the society
KTDA	Financial resources
Kenya Power and lightening co.	Supply of electric energy
KNBS	Provision of personnel and guidelines Automation of county statistics and establishment county data base
Transition authority	Training and capacity building Fast-tracking the functioning of the county government
Ethics and anti-corruption unit	Educate, train, sensitize and instil prudence in management of public finances, promote ethical behaviour Apprehend and prosecute cases of financial mismanagement
County public service board	Recruitment of personnel at the county
Sports associations e.g. FKF, AK	To identify, recruit raw sports talent and nature them into high performance athletes
County sports council	To mobilize funding for sports development programmes
MYWO	Community mobilization and capacity building
KEMSA	Procurement, warehousing, distribution of HPT

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

Stakeholder	Role
National AIDS Control Council,	Fund HIV and AIDS activities in the county
NHIF	Health care financing

21

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI KENYA

FIGURE 2 above shows implementation floe from policy to the tracking of the implementation process. It is envisaged that the vision 2030, the constitution 2010 and the MDGs provide a frame work in which the County integrated development plan is prepared. The ministerial strategic plan is developed for 5 year running period to implement the CIDP. Each department expected is expected to develop annual work plan budgeted to effectively implement the plan. A performance frame work need to be developed to fast track the implementation process.

5.3 MANDATE AND ROLES OF THE IMPLEMENTING NATIONAL AND COUNTY DEPARTMENTS

Sub-Sector	Mandate	Roles
Agriculture	To promote and facilitate production of food and agricultural raw materials for food security and incomes; advance agro-based industries and agricultural exports; and enhance sustainable use of land resources as a basis for agricultural enterprises.	a. Formulation, implementation and monitoring of agricultural legislations, regulations and policies. b. Provision of agricultural extension services. c. Supporting agricultural research and promote technology delivery. d. Facilitating and representing agricultural state corporations in the government. e. Development, implementation and co-ordination programmes in the agricultural sector. f. Regulating and quality control of inputs, produce and products from the agricultural sector. g. Management and control of pests and diseases in crops. h. Promote Management and conservation of the natural resource base for agriculture. i. Collecting, maintaining and managing information the agricultural sector.
Livestock Production	To promote, regulate and facilitate livestock production for socio-economic development and industrialization.	*a.* Formulation of county policies and programmes and implementation of specific national policies, programmes and agreements; *b.* Enforce national standards and promote development of county livestock production standards in line with national guidelines. *c.* Develop disaster preparedness, management and mitigation strategies in livestock production in the county; *d.* Provide extension services in animal husbandry, value addition and community mobilization for livestock development; *e.* Collaborate and liaise with mandated research centres and set county research agenda; *f.* Develop and implement relevant guidelines on animal and forage genetic resource, improvement and conservation *g.* Collect and manage livestock production data and information. *h.* Enforce national and county legislation on land use planning for livestock production. *i.* Develop and promote sustainable use of natural resources for livestock development. *j.* Promote commercially oriented livestock production, value addition and marketing *k.* Inspect feeding and nutritional value and quality of animal feedstuffs. *l.* Implement regional and international agreements. *m.* Monitoring and evaluation of livestock production based programmes and projects. *n.* Promotion of good livestock production practices *o.* Promotion of livestock organic farming and certification *p.* Building capacity of staff in the sub-counties and wards. *q.* Livestock identification, registration and performance evaluation.
Veterinary development	To promote, regulate and facilitate livestock production for socio-economic	*a.* Manage and control animal diseases and pests *b.* Animals disease surveillance *c.* Vaccination

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

Sub-Sector	Mandate	Roles
	development and industrialization.	*d.* Animal movement control *e.* Vector and pest control *f.* Capacity building *g.* Provide and facilitate extension services and animal welfare *h.* Regulate quality livestock inputs, products and services *i.* Promote food safety
Fisheries Development	To facilitate the exploration, exploitation, utilization, management and conservation of fisheries resources as well as aquaculture development and to undertake fisheries research	a. Fisheries policy formulation and review b. Fisheries licensing and permission c. Management and development of fresh water fisheries d. Commercialisation including formation of fisheries groups/clusters for local fish mongers and farmers e. Promotion of fish safety, quality assurance, value addition and marketing f. Development of aquaculture g. Fisheries Research
Cooperative development	To facilitate cooperative extension services, capacity building, cooperative governance and registration services to ensure vibrant cooperative movement	a. Registration b. Inspection and investigation c. Audit services d. Capacity building e. Cooperative financing policy f. Cooperative governance g. Registration of audited account h. Liquidation services i. Promotion of cooperative ventures j. Cooperative policy formulation and implementation k. Promotion of value addition and marketing development l. Approval of audit firms to audit cooperative societies
ECDE	Ground learners on basic skills for subsequent levels of learning Holistic development of the child	Prepare for transition to primary education and Better socialization
Village Polytechnic	Equip trainees with basic technical skills for self-reliance	Produce graduates who can be self-employed
Home-craft Centres	Equip learners with creative skills for innovation	Enable graduates come up with innovation for self-employment
Child Care Facilities	Enable disadvantaged children to have home. Expose children to basic education and life skills	Prepare learners for integration into normal social life
Tertiary Institutions	Prepare learners who will positively contribute to social economic development. Provide learners with advanced skills	Graduates who exploit opportunities in the environment for self-employment and societal development.
Primary Schools	Provide basic literacy, numeracy, and holistic development	Prepare them for more knowledge, skills and attitudes.
Secondary Schools	Prepare learners for future careers options	Make clear career choices for further education and training
Adult Education	Provide basic literacy and numeracy to adults	Enable recipients carry daily affairs and make informed decision
Environment	To exercise general supervision and co-ordination over all matters relating to the environment and to be the principal instrument of government in the implementation of all policies relating to the environment''	a. Co-ordinates the various environmental management practices being undertaken by lead agencies b. Promote the integration of environmental considerations into development policies, plans, programs and projects with a view to ensuring the proper management and rational utilization of environmental resources, on sustainable yield basis, for the improvement of quality of life in Kenya. c. Advise the Government on legislative and other measures for the management of the environment. d. Monitor and assess activities being undertaken by lead

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

Sub-Sector	Mandate	Roles
		agencies and undertake their co-operation in order to achieve sound environmental management. e. Enforce the relevant legislations, regulations and standards for compliance to environmental management.
Forest	To conserve, develop and sustainable management of forestry resources	a. Sustainable management of forests for social economic and environmental benefit b. Increase productivity of commercial forest plantations and enabling efficiency in wood utilization c. Promote farm forestry and commercial farming d. Afforestation and Conservation of forestry resources e. Advisory and enforcement on forestry matters
Water	Water for all; the underserved , the poor, farming needs	a. Formulation of policy , legislations and strategies for water and sewerage services b. Monitoring and supervision of all water services boards, WASREB and NWCPC to ensure rational ad equitable allocation of water resources c. Mitigation against natural disasters., floods and drought d. Resource mobilization for the management , reservation , conservation protection and allocation e. Water resources database, organization and dissemination f. Ground water recharge g. Water quality monitoring testing surveillance to ensure compliance with drinking water standards and other standards for various water uses and effluent discharges in to public sewers and the environment h. Provision of support to water institutions
Irrigation	To sustainably contribute to food security, wealth and employment creation and poverty reduction through accelerated development and improvement of the performance of irrigation	a. Providing policy, facilitation and an enabling environment for the irrigation and drainage sector b. Increase utilization of land through irrigation and drainage c. Institutional strengthening an capacity building d. Improve performance and management of irrigation and drainage e. Mobilize and promote efficient utilization of resources and provide monitoring an evaluation f. Establishment and maintenance of irrigation drainage management information system(IDMS)and management of related databases g. Formulate irrigation water harvesting an d storage , strategic plans and to mobilize resources to enhance adaptation, mitigation to climate change and improvement of irrigation water use efficiency h. Advice the government and national and county level on all matters pertaining to irrigation development, research and training
Housing	Facilitating access to decent, affordable and adequate housing in sustainable human settlement	I. Integrating and enforcing Housing Policy II. Facilitation of access to housing finance III. Facilitating Shelter provision and informal settlement improvement IV. Promotion of appropriate low cost housing building and construction technologies V. Management of government housing VI. Leasing of public office accommodation VII. Housing for constitutional office holders VIII. Housing for civil servants and disciplined forces IX. Rent restriction tribunal X. Documentation and propagation of best practices in the housing sector
Physical planning	Spatial planning and regulation of physical developments within the county	a. Formulation of Local Physical Development Plans, policies, guidelines and strategies to ensure provision of relevant infrastructure/necessary amenities within the towns b. Preparation of Part Development Plans (PDPs) which indicate precise sites for immediate implementation of specific projects or for alienation purposes for Public Purpose

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

Sub-Sector	Mandate	Roles
		c. Development control / Approval of physical development applications in the County (Building Plans, Subdivision Plans, Change of Users, Extension of user, Extension of Lease, Land Amalgamation and EIAs)
Survey	Undertake land survey an Mapping within the county	a. Processing of mutation survey b. Mapping and updating of title maps c. Resolving of land and boundary disputes
Lands	Land managements	a. Land transaction b. Land registration c. Land valuation d. Boundary disputes
National police service	To Provide protection to both life and property	a. Safeguard public security b. Prevent, detect, investigate crime and arrest offenders. c. Aid the general public d. Maintain general peace, public order and the rule of law
National Government Co-ordination	Provide a coordinated access to government services and enhance peace and conflict mitigation	a. Dissemination, Interpretation, implementation of government policies and programmes b. Co-ordination of government departments c. Overseeing policies of government d. Conflict resolution e. Identification of persons for registration f. Coordination of disaster management
Judiciary	Ensure efficient ,fair and quick dispensation of justice	a) Hearing of criminal cases b) Hearing of appeal cases/civil c) Upholding the rule of law d) Dispute resolution e) Conviction of offenders
Probation and Aftercare services	Ensure rehabilitation of offenders on non-custodial sentence	a) Presentation of pre-sentence reports to the courts b) Conduct of social enquiries c) Guidance and counselling of offenders d) Empowering offenders e) Re integration of offenders
Public Works	To facilitate provision and maintenance of buildings and other public works in Nyamira County. (Footbridges, Dias For Governor's Functions, Canopies, Internal Roadworks, Underground/Aerial tunnels and Building Civil Works)	a. Avail Building's designs within three months from the date of briefing/request by clients. b. Submit Buildings Bills of Quantities within three months from the date of approval of building's scheme drawings (client's approval and satisfaction) c. Facilitate tender action (Issuance of tender documents, Technical Tender evaluation, Advice on the drafting of the tender contract)in liaison with the respective client' procurement departments within seven days from approval (client's budget approval and satisfaction) of the bills of quantities. d. Undertake Post Contract Project Management from Site Handing over to Site Taking Over / Completion / Commissioning of BS's. e. Prepare Project Final Accounts within three months from the Projects Practical Completion's date f. Coordinates with other Building /Construction Stakeholders (share vital information on latest trends in the industry, develop policies) g. Offer technical advice to Government /Departments /Agencies in preparation of development master plans, advise on feasibility/sustainability of such proposals etc h. Respond to emergencies(Building related disasters, Infrastructural related disasters eg Buildings Collapse, Conflagrations, IDP Accommodation, makeshift / temporary outposts etc)
Planning	Planning and coordination	a. Monitor and evaluate all development projects in the county. b. Preparation of the county integrated development and monitoring its implementation. c. Coordinate all the planning processes in the county. d. Secretariat to the economic and budget forum

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

Sub-Sector	Mandate	Roles
		committee.
KNBS	Collect, analyse and disseminate official statistics in the county	a. Custodian of official statistics in the county b. Conduct household and ad-hoc survey c. Maintaining an updated National sample survey and evaluation programme (NASSEP) in the county
Finance	Prudent financial management	a. Disbursement of government funds b. Tracking public expenditure (auditing)
County assembly	Enactment of laws	a. Representation of the people of the county of Nyamira b. Formulation of county laws c. Provide oversight role-public accounts committee
County public service board	Management of human resource	a. Identification of personnel and recruitment b. Provision of training to personnel c. Displinary measures d. Promotion of county staff
County public service	Service delivery	a. Formulation of policies b. Project implementation c. Educating the public d. Generate bills for discussion in the county assembly
Children	To strengthen child protection through coordination of children services & programmes through implementation of various laws & policies	a. Coordination & implementation of Social Protection Fund for cash transfers to Orphaned and Vulnerable Children (OVCs), b. Lobby for a legal aid scheme for children c. Empowering children through improved children rehabilitation programmes; d. Strengthening Child protection programmes; e. Enhancing alternative family care services (adoption, foster care, and guardianship); f. Protect children from child labour, discrimination and malpractices as well as other retrogressive practices causing vulnerabilities among the target groups;
Gender	Co-ordinate the development, review and implementation of social development policies through promotion of gender mainstreaming and enhancing the capacities.	a. Coordination & implementation of Social Protection Fund for the older persons facing vulnerabilities. b. Implementation of the Disability Fund c. Advocating representation of PWDs in decision making processes at all levels to ensure that issues that directly affect the PWDs are adequately addressed in policies and legal frameworks, programmes and projects. d. Developing an integrated data management system for vulnerable groups e. Increasing the level of public awareness on the needs, aspirations and capacities of vulnerable persons f. Enhancing community effort in poverty reduction g. Actively support the participation of women at all levels h. Engendering peace building and reconciliation effort committees i. Gender mainstreaming in all sectors and at all levels j. Generation and dissemination of sex disaggregated data k. Facilitating the implementation of the Affirmative Action Bill & other gender related policies l. Facilitate the enhancement and accelerate the disbursement and loan repayment of the Women Enterprise Fund for economic development
Youth	Promote youth development by designing policies and programmes that build young people's capacity to resist risk factors and enhance protective factors	a. Formulating, implementing, coordinating, reviewing and monitoring youth development policies; b. Facilitating youth participation in the development processes c. Coordinating and monitoring youth led initiatives; d. Advocating and promoting youth led initiatives; e. Developing youth resource centers; f. Facilitating leadership, entrepreneurship and life skills training.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,

CHAPTER SIX

RESOURCE MOBILIZATION FRAMEWORK

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

6.0 INTRODUCTION

This chapter outlines a budget projection required for managing the County Government affairs. It also indicates the resources that are available for capital projects development. It outlines strategies for raising revenue and their projections for the plan period. In addition, strategies for asset management, financial management, and capital financing are included. This includes, but not limited to, strategies to expand the revenue generation, resource sharing with the central government, means of attracting external funding among others.

6.1 Capital Projects Funding

Capital budgeting entails considering what resources are available to fund capital investments as identifying the most possible financing alternatives. The guiding principle with capital budgeting and financing is that when projects are built sooner, people benefit earlier. When projects are deferred, the benefits are postponed as well. During the plan period, when considering debt financing as an alternative to financing, the county will strive to ensure that all risks associated with borrowing are well understood in terms of potential impact on local budget in future including the risk associated with dynamics of interest rates and foreign exchange rates for loans denominated in foreign currency. This calls for a level of financial management maturity and sophistication including establishing the credit worthiness of the county.

6.1.1 Possible capital budgeting and financing options

During the plan period, the County will target the following transfers(grants) from the national government: Local Revenue, Borrowing, Local Balance Sheet which will entail the identification of land and built up properties under the control of the county, Grants from international donors including EU,DANIDA,JAICA, Norway, World Bank, ADB among others. Private Sector Participation will include: Various forms of Public- Private Partnerships (PPP), Developer Exactions, Voluntary and Negotiated Contributions, Leasing, Inter County Partnerships and National Government Partnerships. It is envisaged that Capital projects as contained in this plan will be funded through budgetary allocations from the central government, through resources to be raised from local sources, grants and loans from development partners.

6.2 Strategies for Raising Revenue

The Kenya Government is increasingly constrained in mobilizing the required financial and technical resources to cope with the rising demand for development projects and provision of services. Rapid economic growth, growing urban population, increasing rural–urban migration, and all-round social and economic development have compounded the pressure on the existing infrastructure, and increased the demand–supply gap. Further, donor commitments, though appealing, have been unable to bridge the financial requirements gap.

National governments in developing as well as developed countries have been using PPPs arrangements for improved delivery of services. Governments have built or are building transport (roads, railways, toll bridges), education (schools and universities), healthcare (hospitals, clinics and cafeteria), waste management (collection, waste-to-energy plants),

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI KENYA

and water (collection, treatment, and distribution) infrastructure through PPPs. Therefore, therefore becoming the preferred method for public procurement of infrastructural services throughout the world.

In Kenya, there has been considerable progress in the last 5 years in attracting private investment into the country. There is however, potential for Public Private Partnerships (PPPs) to contribute more and help bridge the gap. To this end, the Kenyan Government has developed a PPPs framework.

Nyamira County will strive to use the developed framework to host fora and conferences to woo investors. The county will further be compelled to explore new and innovative financing methods in which private sector investment can be attracted through a mutually agreed arrangement. Since neither the public sector nor the private sector can meet the financial requirements in isolation, the PPPs model presents a logical, viable, and necessary option for them to work together. It is hoped that PPPs will deliver sufficient gains and positive impact of the investments in the general population. The efficient use of resources, availability of modern technology, better project design, implementation and improved operations combine to deliver efficiency and effectiveness, which are not readily produced in a public sector project. Further, the long gestation period of infrastructure projects requires sustainable financial and operational capacity. Therefore, there is increasing reluctance in both the public and private sectors to absorb all the costs and assume all the risks of building and operating these assets alone.

The county further expects to increasingly gain from resources mobilized by the National Treasury. According to Article 226 of the Constitution, it is the duty of the National Treasury to mobilize domestic and external resources for financing national and county governments. The County will, further, within the legal frameworks source for loans from within and without the Country to bridge its budget deficit. The County Treasury is in charge of mobilizing resources for funding the budgetary requirements of the county government and putting in place mechanisms to raise revenue and resources as well as ensuring its prudent utilization.

The county also expects to receive grants from development partners for various projects and programmes. It should be noted that under the PFM Act 2012, regulations approved by parliament shall provide for the administration, control and management of grants, including procedures to ensure that grants are spent on the basis of the Integrated County Development Plan.

6.3 Establishment of Nyamira County Investment Board (Nyamira Invest)

This will be established to make Nyamira a County of Choice for Investors. It will be organized along the lines of the Kenya Investment Authority created by the Investment Promotion Act No. 6 of 2004. It will also formatted along the lines of Industrial and Commercial Development Company (ICDC) Its Principal Mission will be to Attract, Facilitate, Retain and Expand County, Intra county, National and International Investments to Nyamira.

6.3.1 Mandate

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

Its main mandate will be promoting investments in Nyamira. It will be responsible for facilitating the implementation of new investment projects, providing After Care services for new and existing investments, as well as organizing investment promotion activities within the county, nationally and internationally. The core functions of Nyamira Investment Board will include: Policy Advocacy; Investment Promotion; Investment Facilitation which includes Investor Tracking and After Care Services. The activities are carried out through the following strategies: Establishment of Holding Companies to Invest on behalf of the County.

Research, Policy Advocacy and Planning -Undertake research, review and analyse policies, and engage in policy advocacy geared towards improving the business environment.

Investment Promotion and Marketing -Targeting and attracting investments to achieve increased economic development.

Investor Services –Ensuring expeditious and quality facilitation of projects for prompt implementation and effective After Care Services.

Corporate Governance and Ethics-Uphold good corporate profile for Nyamira County ensure observance of good corporate governance and attend to legal affairs related to the Investors.

Internal Audit- Monitor and evaluate management policies, procedures, regulations and systems to ensure compliance with the best practices for effective utilization of organizational resources. Generate Income for Nyamira County.

6.4 Assets and Financial Management

The National Treasury is expected to design and prescribe an efficient financial management system for the national and county governments to ensure transparent financial management and standard financial reporting as contemplated by Article 226 of the Constitution. The County Treasury, subject to the Constitution, will monitor, evaluate and oversee the management of public finances and economic affairs of the county government including developing and implementing financial and economic policies in the county; preparing annual work plans and budgets for the county and coordinating the preparation of estimates of revenue and expenditure of the county government; coordinating the implementation of the budget of the county government; mobilizing resources for funding the budgetary requirements of the county government and putting in place mechanisms to raise revenue and resources.

The County Treasury will also ensure compliance with accounting standards prescribed and published by the Accounting Standards Board from time to time. It will also ensure proper management and control of, and accounting for the finances of the county government and its entities in order to promote efficient and effective use of the county's budgetary resources.

6.5 Resources from the National Government

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI KENYA

To support the devolution framework, several acts of parliament have been enacted. The Urban and Cities Act 2011; The County Government Act, 2012; The transition to Devolved Government Act 2012; The Inter-government Relations Act, 2012; The Public finance management Act, 2012; The County Government Public Finance Transition Act, 2013. The Constitution and many of these laws require "Integrated Development Planning" as the process of enhancing efficiency and effectiveness of budget fund and mechanism for addressing the county mandate under the Construction of Kenya 2010.
Release of funds from the national government will depend on whether a county has developed an Integrated Development Plan. Part XI of the County Government Act 2012 obligates the county government to ensure harmony of the integrated development plan with the national plans, and other sub-county plans such as sectoral plans, spatial plans and urban and city plans which are located in the county. In accordance with article 106, the plan will thereby provide mechanisms for linking the county and national planning processes with the MTEF budgetary system.

The budget process for county governments consists of an integrated development planning process, which includes both long term and medium term planning. The integrated plan establishes financial and economic priorities for the county over the medium term and makes an overall estimation of the county government's revenues and expenditures. Based on the Commission on Revenue Allocation, Nyamira County is expected to receive Ksh. 3.03 B for the FY 2013/14. This allocation has been determined based on the county population (45%), poverty index (20%), land area (8%) basic equal share (25%) and fiscal responsibility (2%). Although prorated, prudent public resource management as stipulated in the PFM Act 2012 will determine the amount the county receives in future on fiscal responsibility.

6.6 Strategies for Mobilizing Nyamira County Human Capital

The Nyamira County Government will mobilize and establish a databank of Professionals from Nyamira who reside within the County itself, nationally and internationally to engage them in the development of the County. It will specifically engage the people of Nyamira in the diaspora in investments and development in Nyamira. Other National and International friends and well-wishers of Nyamira County will also be engaged. The Governor's office therefore needs to delegate the County Executive Committee Member in Charge of Human Resource to coordinate this function.

6.7 Existing revenue raising.

6.7.1 Single Business Permits

The county will come up with a register of all permanent buildings constructed in its area of jurisdiction. Measures will be put in place to ensure that a revenue collection unit is established to verify whether the houses appearing in the register have been charged the appropriate fee and if not a report to the Debt Collection Unit be filed for follow up. Field officers will be deployed for compiling details of constructions put up in their areas of operation. Efforts will be made to ensure that approval forms indicate the PIN No's of the applicants.

6.7.2 Plot transfers and sub-divisions

A register of all plot owners through CIFMIS will be prepared during the plan period. All other sub-divisions /transfers will have to go through the planning committee of the

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI KENYA

County. The entire relevant fee will be paid before being taken to the corporative for approval.

6.7.3 Parking fees

Electronic revenue collection for parking fee will be introduced. Measures will be put in place to ensure that officers are working together with revenue collectors to avoid resistance from the operators. In order to reduce collusion with revenue collectors, stickers will be introduced per month or per year for taxis, matatus and motorbikes.

6.7.4 Market fees

During the plan period, the county government through the office of the governor will ensure that all markets are fenced and at least two gates left for easy revenue collection. Enforcement team to be involved especially at the gates and to ensure that those who hide from entering into the market are forced to join others in the market. The County government through the office of the governor will put in place more vehicles for revenue collection and for easy transportation of revenue collectors to their place of work. The County government will also make efforts of ensuring that revenue collectors are rotated to ease commonness at one point of work. A special team for inspection of revenue collection will be put in place to ensure effectiveness in revenue collection is in place and to ensure that corruption is eradicated.

6.7.5 General Cess

Land owners in the county will be required to report to county office on those persons they have permitted to operate on their lands on issues of soapstone mining. The land owners in addition will be required to bring the records to the office indicating those they have authorized to do the work of mining. The land owners to bring the record to the office indicating those they have authorized to do the work of mining. The County government will put in place cess collection points for all vehicles passing to be checked and issued with a receipt thus the collection points to be placed at strategic points. In all points, security and revenue officers to work 24 hours in order to arrest those who may want to evade paying cess fees.

6.7.6 Cess from coffee and tea factories

This type of cess is levied at 20% of 1% of sales from these cash crops, 80% was transferred to factories through the agricultural cess act grounds that Councils were receiving the full cess and yet they were not rendering services especially road maintenance. Currently, KERA and KURA are carrying this function of road maintenance and therefore it is expected that during the plan period, the governor through the County Assembly will seek authority from the National Government to get the full tax reverted back to the County Government.

6.7.7 Property rates

Nyamira County Government will be required to determine the revenue potential from its own sources and institute innovative management practices to ensure maximization of revenue collection. In enhancing revenue collection, the County will need to re-examine

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI KENYA

the current system of assessing property rates and taxes which is based on an improved site values. Therefore during the plan period, efforts will be made to amend all relevant legislations to ensure that the rating of properties is based on both the improved and unimproved site values. Operational problems occasioned by exemptions on payment of rates to county government, departments, agents or any other person as is currently the case will have to be done away with. Businessmen will be required to get clearance on property rates from County Government offices before opening business and at the start of every subsequent year. Property rate registers will be updated through CIFMIS and heavy penalties imposed on late payments during the plan period

6.7.8 Quarrying and Mining fees

Any quarrying taking place in the County be registered with the county and an approved fee charged annually. Those found carrying out the same business without approval be liable to heavy penalties. The county will find ways of compensating the land owners to avoid conflict between the county and land owners.

6.7.9 Entertainment fees

During the plan period, the county government will come up with a standard fee for any entertainment within its jurisdiction. Efforts will also be made to estimate the amount collected from entertainment and exact rates determined. Mechanisms will be put in place to ensure the anticipated revenue is effectively and efficiently collected. The County will also ensure that both the revenue and enforcement personnel implements revenue collection.

6.8 Other Strategies for Mobilizing County Resources

This will include:

- Agricultural Training Centre (ATC)
- Carbon Credits
- Agro Tourism
- Livestock and Fisheries Multiplication center within the ATC
- Cooperatives Inspection and training fees
- Aqua-park Fees
- Environmental Audit Fees
- Accelerated Sale of seedlings and
- Sale of wood products
- Ecotourism
- Cottage industries(saw milling)
- Sewerage connection fee
- Market Rent collection from Government tenants
- Hiring fee for equipment/block production machines
- Private Public Partnerships (housing mortgage providers)
- Charge a subsidized cost at the Sub County Information and Documentation Center services- have a service charter to indicate services charged.
- Subsidized fees to be charged by the county public service board during registration of exams for lower cadre staff eg sub county wards and village administrators.
- Inspection fee from CCIs (Children Correction Institutions)
- Social Halls and Stadium user fees

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

- Health insurance, health levy, Students attachment fees, research levy, Private public partnership, cafeteria at referral hospital
- Selling commercial paper with the concurrence of the National government
- Developing housing bonds
- setting up county lotteries to fund such programs as; sports, education, loans and roads
- Engaging the national government to offer tax incentives to potential investors
- Using the Built, Operate, Transfer Model (BOT) to put up social and commercial infrastructure
- Conscessioning of roads and other infrastructure

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

CHAPTER SEVEN

COUNTY DEVELOPMENT PROGRAMMES AND PROJECTS

7.0 INTRODUCTION

This chapter presents a highlight of programmes and projects identified in various consultative forums including; MTEF, 2nd MTP, Ward and Sub-county conducted county wide. The chapter presents the projects and programmes as follows; Ongoing projects,

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI KENYA

(flagship and others), stalled projects, proposed projects and new proposals. The information is presented based on the Medium Term Expenditure Framework budgeting system. Nine sectors have been used, namely, Agriculture and Rural Development; General Economic, Commercial and Labour Affairs; Energy, Infrastructure and ICT; Environmental Protection, Water and Housing; Health; Education; Governance, Justice, Law and Order; Public Administration and International Relations; and Social Protection Culture and Recreation.

For each of the MTEF sectors, the vision and mission are stated. In addition, the county's response to the sector vision and mission, importance of the sectors in the county and the role of the Stakeholders are explained. The chapter also explains the sector/ sub-sector priorities, constraints and strategies in a tabular form. Cross sector linkages as well as the strategies for mainstreaming cross-cutting Issues in each sector are also included.

7.1 AGRICULTURE AND RURAL DEVELOPMENT SECTOR.

This is one of the key sectors in the county. It comprises of the following sub-sectors: agriculture, livestock development, Fisheries development, cooperative development and marketing, lands, forestry and wildlife development, the land commission and related research and development.

7.1.1 Sector Vision and Mission

Vision: An innovative, commercially-oriented and modern Agriculture and Rural Development Sector.

Mission: To improve livelihoods of Kenyans through promotion of competitive agriculture and innovative research, sustainable livestock and fisheries development, growth of a viable cooperatives sub sector, equitable distribution and sustainable management of land resources and sustainable management of forestry and wildlife resources.

7.1.2 County response to the sector vision and mission

Given the important role this sector plays in the county's development, the county will encourage/ promote value addition through construction of agro-processing industries. Towards this end, the county through its development committees will support the private sector and other prospective investors to exploit the potential in agriculture and livestock sub-sectors and invest in the agro-processing ventures. Forest conservation measures will be undertaken so as to preserve gazetted and non- gazetted forests from being over exploited. The land demarcation and issuance of title deeds will be improved in order to settle the landless and also allow farmers have access to loans. In line with the sector vision and mission, livestock productivity and output, organized market systems and value addition, strengthening of monitoring and evaluation as well as stakeholders institutions will be enhanced.

7.1.3 Importance of the sector to the County

This sector is key to the overall development of the county in terms of poverty alleviation, food security, creation of employment and income generating opportunities.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

For instance the livestock sub-sector plays an important role in income generation and improvement of livelihood. In 2012 beef production was 515 kg and earned farmers more than Kshs.0.13m while goat meat/chevron earned them Kshs.24.9m. On the other hand the farmers earned Kshs.0.687m from sheep meat (mutton) production while poultry earned them Kshs.335.6m from the eggs produced. The manure which is a by-product is important in crop production. The horticulture sub-sector, this is also increasingly becoming an important means of earning a living to the rural communities. The main produce from this sub-sector include avocadoes, pawpaws, bananas, pineapples, tomatoes and vegetables. The sector is important in terms of employment creation and provision of important nutrients to the rural households. Tea sub-sector earned farmers more than Ksh. 144.2m in 2012 while coffee sub-sector earned them Kshs.4.2million. In cooperative development, it plays an important role in produce marketing, farm-input supply, resource mobilization and financial services. The sub-sector has made tremendous contribution towards wealth and employment creation as evidenced by the membership of 103,445 in 74 registered cooperative societies and savings mobilized totalling Kshs.240.3m in the last five years. On the other hand the SACCOS have mobilized Kshs.103m which has been invested in loans to members who have in turn invested the funds in small and micro-enterprises that contribute significantly to socio-economic growth of the county. The marketing cooperative societies on their part market various farm produce on behalf of their members. The produce includes coffee, pyrethrum and dairy. These societies also provide credit facilities used for production. The marketing cooperative societies annually market members' produce amounting to Kshs.99.3m of which 80% is paid to members.

7.1.4 Roles of the stakeholders.

Name of stakeholder	Role
County Government and departments	Provision of technical personnel, policy guidelines & financial resources
National Government	Policy guidelines and harmony of implementation of devolved functions
Donor agencies(e.g SIDA, IFAD, ASDSP,SHEP-UP,KHCP-USAID, EAAPP-WB)	Finance and technical support
Private sector	Provision of credit through financial and non-financial institutions, Supply of inputs.
Devolved funds – CDF, others	Funding construction of agricultural and livestock infrastructure.
Research institutions(e.g. KARI, KIRD, TRF, CRF, Universities, National Bee Keeping Station)	Development of new technologies
NGOs, (1 Acre fund, KWFT,Africa Harvest)	Capacity building, resource provision and promotion of opportunities.
CBOs eg NAHESP	Capacity building, resource provision and promotion of opportunities.
KTDA	Promotion of small scale tea growers.
Coffee Board of Kenya	Development and Regulation of the coffee sector
Pyrethrum Board of Kenya	Promotion, processing and marketing of pyrethrum
Tea Board of Kenya	Regulation and marketing in the of the tea sector
Agrochemical companies	Development and sale of chemicals for pest and disease control
KEPHIS	Regulation of the seed and Chemical used in the sector
HCDA	Promotion of Horticultural Production and Marketing
Kenya Seed Company	Marketing and promotion of fodder/maize seeds.
Other seed companies (Seedco, Pioneer, Syngenta, WSC, EASC)	Development and marketing of seed
Kenya National Federation of Agricultural Producers	Provision of credit facilities, capacity building and advocacy
Community	Actual participation in project activities-planning, implementation and monitoring and resource provision.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI KENYA

Town Boards	Protection of fragile ecosystems e.g. wetlands from encroachment, ensuring proper solid waste management, proper planning in the various towns and markets within the districts, ensuring that compliance to the environmental regulations are adhered to by the investors and developers in the County.
Other government ministries	(Summarize the role of the ministries/agencies below then delete those rows)
Kenya Animal genetics resource centre (KAGRC)	Provision of superior gene for the upgrading of local breeds
Kenya veterinary vaccines production institute(KEVEVAPI)	Production of vaccines
Kenya Leather Development Council (KLDC)	Regulate the leather subsector, promote production of quality hides and skins
Kenya Dairy Board (KDB)	Regulation of dairy products
Kenya Livestock Finance Trust(K-LIFT)	Provide loans to fund livestock related production, Capacity building of beneficiaries
Forest services	Ensuring increase of appropriate vegetation cover and proper management and use of wood resources
Interior and coordination government	Education awareness to the public on environmental management and sustainable development and utilization of the environment and natural resources, Enforcement of the environmental regulations.
Water services	Protection of all sources of water i.e. rivers, streams, springs and wetlands from pollution, provision of clean water to the public.
County department of education and Ministry of education	Formation of environmental clubs in learning institutions where environmental education awareness can be passed on to the learning populace-education for sustainable development/education policy.
Financial Institutions (Wakenya Pamoja, Nyamira Tea SACCO, Equity Bank, Cooperative Bank, KWFT	Provide financial services and credit to farmers
County Government	Provision of technical personnel, policy guidelines & financial resources; ensure proper services delivery
Private sector- Feeds, Pharmaceutical, stockist	Provision of credit through financial and non-financial institutions, Supply of inputs; Support
Financial institutions and devolved funds – CDF, Youth Enterprise Scheme, WEF, Agricultural Finance Corporation and Micro Finance Institutions-Juhudi Kilimo, Wakenya Pamoja, Banks among others	Offer loans, grants to fund livestock enterprises, Offer technical support to funded groups and individuals.
World Vision and Care Kenya	Support extension and input acquisition by farmers and specific interest groups; Support Artificial insemination scheme; Provision of credit facilities, capacity building and advocacy
Aquaculture association of Kenya	Marketing and promotion of farmed fish e.g. Tilapia, Cat fish etc., capacity building and advocacy.
Community	Actual participation in project activities- planning, implementation, monitoring and resource provision; complementing extension services
Donor agencies: GIZ- Trilateral Partnership	Financial and technical support on Aquaculture development
Financial institution	Provision of credit facilities
NGO-APHIA PLUS	Capacity building and technical support
Forest services	Ensuring increase of appropriate vegetation cover and proper management and use of wood resources
Interior coordination & administration	Education awareness to the public on environmental management and sustainable development and utilization of the environment and natural resources, Enforcement of the environmental regulations.
Water services	Protection of all sources of water i.e. rivers, streams, springs and wetlands from pollution, provision of clean water to the public.
Ministry of education	Formation of environmental clubs in learning institutions where environmental education awareness can be passed on to the learning populace-education for sustainable development.
Kenya Union of Credit and Cooperative Organization (KUSCCO)	Capacity building, provision of credit facilities and advocacy
Cooperative insurance Company (CIC)	Insuring members loans
Donor agencies: Farmers Organization for Poverty Alleviation (FOPA)	Financial and technical support on Cooperative development

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

Cooperative Bank	Provision of credit facilities

7.1.5 Sub-Sector Priorities, Constraints and Strategies.

Sub-sector	Priorities	Constraints	Strategies.
Crop Development	Increase food Production	Public extension service cannot cope with the farmer population and latest technology requirements due to low motivation of extension agents and inadequate training on IT.	Facilitate privatization of extensions and veterinary services; Facilitate formation of farmer pressure groups and associations; Promote farmer-to-farmer extensions and sharing of information through exhibitions; Intensify formal training on latest agricultural technologies; Intensify research on processing and consumer preference and provide information to farmers.
Livestock Development	Upgrading of indigenous livestock breeds. Control of livestock diseases.	The breeds are local and of low production and quality hence farmers' returns are very low; Mortality and infertility rates attributed to the high incidence of tick borne and trypanosomias diseases.	Identification of interested groups of farmers ; Establishment of group based bull schemes ; Establishment of group based buck exchanges programme; Establishment of cockerel multiplication units; Establishment of group-based A .I services. Rehabilitation of non-operational dips; Setting of tsetse traps in the farms and harvesting of trapped tsetse fly; Routine vaccination against foot and mouth disease.
Land Administration Survey and Human Settlement	Settling of the landless and the needy people.	Small land parcels are sometimes uneconomical.	Establishment squatter schemes in all the remaining occupied government/private land s in the county and discourage uneconomical land sub-division; Planning all upcoming urban centres in the county while involving all stakeholders; Computer training for all staff of the Ministry of Lands and Settlement; Purchase of computer software for all the departments of the Ministry.
Co-operative Development	Improve management of co-operatives; Revive dormant societies; Broaden financial base of societies	Poor management of co-operative societies; Inadequate capital and entrepreneurship skills; Weak capital base of cooperative societies; Stiff completion due to economic linearization; Harsh climate conditions;	Intensify cooperative education and training to management committees, co-operative movement employee and ordinary members; Improve the management of cooperative; Mobilize co-operatives members to form rural Saccos and front offices; Encourage societies to diversify their activities to generate more income; Revive dormant agricultural cooperatives; Strengthen the audit system of co-operatives and timely release of audit reports; Formation of new cooperative societies.

7.1.6 Programmes and projects priorities.

a) Agriculture sub-sector.

i) On-going projects/programmes.

Project/Programme name and location.	Objectives	Targets	Description of activities
ASDSP-SIDA (Agricultural Sector Development Support Programme) County wide.	-To promote a holistic approach to agriculture extension with emphasis on broader and more farmer oriented extension equipped to meet the needs and demands of the small	-Agricultural sector coordination of all programmes	-Value chain development on prioritized agricultural enterprises.

COUNTY ASSEMBLIES FORUM (CAF)

Project/Programme name and location.	Objectives	Targets	Description of activities
	scale farmer.		
Southern Nyanza Community Development Project (SNCDP)- Nyamira North Sub-County-	Addressing poverty through facilitating improved crops and livestock production, input sourcing and enhancing products marketing channels and linkages.	Technology transfer and extension delivery to rural farmers, supporting initiatives that address food security, while ensuring environmental conservation practices and use of low costs appropriate technologies shall be supported.	8 planning areas Farmers training and capacity building -Consultations/ PGMs -Community mobilization --Capacity building of farmers and stakeholders, --Resources mobilization, -Acquisition of inputs, -Monitoring and evaluation/follow ups
Extension services county wide. County wide	Offer agricultural extension services in the county	Crop farmers in the county.	Capacity building and trainings.
Employ 100 extension officers. County wide.	Improved service delivery.	Trained diploma holders.	Advertise and recruit the officers.
SHEP UP- JICA (Smallholder Horticulture Empowerment Promotion Upscaling Project) County wide.	Improvement of Horticultural production and marketing	Horticultural crops	Capacity Building of Staff and farmers on Modern Horticultural Production
Njaa Marufuku Kenya-county wide County wide.	Improve food security among small holder farmers	Farmers groups	Grants to groups and capacity building
NALEP-GOK. County wide	Improvement and support of extension services	All farmers and staff	Provision of resources for extension services
Traditional high value crops. County-wide	Improvement and promotion of the traditional crops production and utilization	Resource poor farmers	Provision of clean planting materials and training
NAAIAP (National Accelerated Agricultural Inputs Access Programme). County wide.	Improvement of access and use of farm inputs certified seeds and fertilizers	Resource poor and Vulnerable farmers	Provision of farm inputs
Water Harvesting. County wide.	Construction of water harvesting structures for agricultural production	Water scarce communities	Construction of dam and farmers training
Kenya Horticultural Competitive Programme. County wide.	Promotion of Horticultural produce marketing and utilization	Farmers groups	Capacity building on horticultural utilization
Energy Conservation (GiZ). County wide.	Promotion of energy saving technologies	Farmers groups	Marketing and capacity building on energy conservation
Kimra Oluch Watershed Programme. County wide.	Conservation of water catchment areas of River Awach Tende	Farmers in Nyamaiya Division	Provide grants to farmers for environmental conservation
Grain storage and post-harvest Project. County wide.	Provision of postharvest services to small scale farmers	Maize farmers in Borabu Sub- County	Provision of drier for maize farmers
Subsidized Fertilizer County wide.	Provision of subsidized fertilizers to small scale farmers.	All farmers in Nyamira county.	Ongoing with NCPB Kisii and Nyansiongo
RRI on Maize Lethal Necrotic Disease (MLND). Borabu sub-county.	Mitigate against the effect of the disease on maize farmers	Maize farmers in Borabu	Capacity Building of farmers and provision of alternative crops
Construction of tea buying centres at Nyaora. (Gachuba ward)	Ease collection of tea leaves.	700 farmers served from the tea buying	Procurement and construction of tea buying center

Tree nurseries programme (County wide)	3	To raise sufficient seedlings for afforestation	100000 seedlings per year 40 nurseries per year	Purchase and collection of seeds; Raising seedlings in nurseries(individual, groups, departments)
School tree planting	4	To ensure	All schools in the	Tree planting and protection.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

(County wide)		aesthetic, education and environmental conservation	county.	
Bee keeping (County wide)	5	To increase income through non-consumptive use of forests	250 beehives Training of 40 farmers	Purchasing of beehives; Training of beehive farmers.
Hills and Hill tops afforestation (County wide)	6	To rehabilitate, conserve and protect the existing hills in the county. To increase forest cover To stop encroachment	2 hills Formation of 2 more CFAs to man the forests	Identification and data collection Survey and mapping; Gazettement Planting and protection of trees Formation of CFAs.

7.1.7 Cross-Sector Linkages

This sector will play a crucial role in the County's economic growth and development in line with the Strategy for Revitalization of Agriculture (SRA) as it feeds the other Sectors with products and also creates market. Physical Infrastructure will help to reduce the cost of production in these sectors through provision of good infrastructural facilities e.g. roads, electricity and telecommunication facilities. The water sub-sector will provide water for domestic consumption, irrigation and livestock. Whereas human resources sector will provide the skilled workforce and healthy citizenry respectively, the Tourism, Trade and Industry sector will provide markets for agricultural produce. Agro-based raw materials are absorbed in this sector as it also provides market for excess food produced. Governance, Justice, Law and Order provides security, which is key to investment in the sector, will articulate planning and policy guidelines necessary for accelerated growth of the sector.

7.1.8 Strategies for Mainstreaming Cross Cutting Issues.

This sector proposes programmes that shall assist in the achievement of MDG goal number one of eradication of extreme poverty and hunger. The proposed projects shall ensure the production of highly nutritious food products that will improve the health standards for the county including those PLWHA in the county. The community will be sensitized on prevention and control of HIV/AIDS. The poor shall also be identified for the provision of farm inputs to improve productivity in their farms.

7.2 GENERAL ECONOMIC, COMMERCIAL AND LABOUR AFFAIRS.

In the county, the sector is represented by the Trade, east African community, industrial developments, labour affairs, regional development authority and related research and development. Other sub-sectors are based in towns outside the county.

7.2.1 Sector Vision and Mission

Vision: A globally competitive economy with sustainable and equitable socio-economic Development.

Mission: To promote, co-ordinate and implement integrated socio-economic policies and programs for a rapidly industrializing economy.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

7.2.2 County response to the sector vision and mission.

This is a sector whose potential is yet to be fully exploited. In connection with this emphasis will be improving the infrastructure necessary for this sector to thrive. Plans should be underway to complete Nyamira water supply and develop sewerage system for Nyamira town as a way of promoting doing business in this town. The government will also take lead in provision of enabling environment security being priority among others. The development committees will also encourage holding residential workshops/seminars in the county as a way of promoting the use of local hotels who in turn are expected to improve the existing facilities.

7.2.3 The importance of the sector in the county

The sector enhances the socio-economic development of the County through employment creation either directly or through backward and forward linkages. It is the main source of wage employment contributing over 15.5 per cent of the household incomes in the County. In the main urban and market centres, many people are engaged in retail shops and grocery businesses. The financial sub-sector provides banking services and credit facilities that spur economic activities and consequently economic activities and the economic growth in the County.

On the other hand, Trade sub sector recorded marginal growth, with the number of licensed traders increasing from 485 in 200 to 695 in 2012. The sector potential especially in small- scale enterprises has not been fully exploited. Most of the entrepreneurs have low capital base and lack managerial skills thus hampering their performance. Sector promotion activities carried out include a trade exploitation, financial support through the Joint Loans Board and improvement of business skills though training of traders.

The Industry sub-sector through the 7 manufacturing industries continued to be a key source of employment for the people of Nyamira. The sector turnover over has increased despite the competition posed by cheap imported goods.

7.2.4 Role of stakeholders in the sector

Sub-sector	Name of stakeholder	Role
Trade and industry	Joint loan board	Provision of loans.
	Private sector	Supplement government efforts.
	Financial institutions	Provision of credit.
	Hire purchase organizations	Provision of equipments on hire purchase.
	NGOs-ADRA(K), YWCA, KWFT	Provision of credit facilities.
Tourism	Kenya Tourist Board	Promotion and marketing of tourism
	Telkom Kenya	Provision of telecommunication-fixed and mobile telephone services, internet, VOIP, and fax services.
	Mobile phone service providers-Safaricom/Zain/Orange.	Provision of mobile phone and money transfer services.
	Media	Publicity and marketing.
	Private sector	Supplement government efforts
	Financial institutions	Provision of credit
Culture	Government	Provision of policy guidelines.
	Beneficiaries	Participate in various activities.
	Media	Promotion of positive culture.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

Sub-sector	Name of stakeholder	Role
	Bomas of Kenya	Preserving and promoting culture.

7.2.5 Sector /Sub - Sector Priorities, constraints and Strategies

Sub-sector	Priorities	Constraints	Strategies
Micro/small scale industries	Exploit local resources through establishment of agro-processing and cottage industries; To encourage growth and development of micro/small scale industries; Creating, advocating for conducive environment for investment.	Inadequate funds; Heavy capital and financial requirements for most projects especially large scale; Inadequate infrastructural facilities.	Encourage the private sector to invest in this sub-sector; Encourage partners to support in infrastructure development; Industrial data development; Information dissemination on industrial development matters to all stakeholders.
Tourism	Develop at least two tourist attraction sites to create employment and income.	Lack of funds to develop these sites.	Mobilize resources from the private sector to develop these sites.
Trade	Promotion, development and sustaining of enterprises; Initiation, promotion and development of new enterprises.	Inadequate entrepreneurial skills; Inadequate capital; Poor infrastructure.	Mobilize more financial resources; Improve infrastructure; Training entrepreneurs in the County.
Enterprises development.	Strengthen the operation of Jua Kali	Inadequate training to small scale entrepreneurs to ensure sustainability Inadequate marketing for the final products produce especially tropical fruits from the county.	Strengthen Jua Kali through credit provision and marketing.

programme. County Wide		finance for the sector	entrepreneurs on financial management	potential financial institutions

7.2.7 Cross-sector linkages

Development of this sector highly depends on provision of quality and adequate facilities such as roads, electricity and communication services. Entrepreneurial skills are vital in ensuring setting up and growth of businesses. Agriculture and Rural Development sector need to operate efficiently to supply the required raw materials for this sector. Additionally, sound environmental management is required to avoid further environmental degradation which could pose danger to wildlife and by extension tourism industry.

In creating an enabling environment for businesses to thrive in the county, the sector works closely with the Public Administration and international relations. The sector is regulated through several legislations and licensing regimes which are administered by Nyamira County Government. Access to credit is imperative for growth and development of the sector. Lack or inadequate access to finance and credit hinders growth and development of the sector. In addressing this issue, the sector gives credit to Micro, Small and Medium Enterprises (MSME's). The MSME's in this sector also receives credit from other sectors through Youth Enterprises Development Fund (YEDF) and Women Enterprises Development Fund. Finally, insecurity is a major threat to tourists, traders and local and international investors. In provision of a secure investment environment, the sector works closely with GJLOS.

7.2.8 Strategies to mainstream cross-cutting issues

This sector is expected to play an important role in contributing employment creation hence improving livelihood of persons with disabilities, youth and women in Nyamira. The sector is also expected contribute positively in environmental conservation through conservation and planting of traditional/ indigenous trees especially in water catchments areas. The sector will continue incorporating HIV/AIDs activities in its projects.

7.3 EDUCATION SECTOR

In the county the sector is represented by the Ministry of education, department of adult education, ministry of higher education science and technology, teacher's service commission and the related research and development.

7.3.1 Sector vision and Mission

Vision: A globally competitive education training, research and innovation for sustainable development.

Mission: To provide, promote and coordinate quality education and training, integration of science, technology and innovation in sustainable socio-economic development process.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

7.3.2 County response to the sector vision and mission

To achieve the sector vision and mission, the county will focus on community involvement and participation on education programme. Promotion of Girl Child Education (GCE) and Early Child Development (ECD) programmes will be a priority in the county. Adult education will be promoted in the county and improvement of education through increase in bursary and community contribution, promotion of a sustainable school feeding programme will also be a priority in the county. The county will also prioritize equipping of secondary schools with IT and Laboratory facilities.

7.3.3 Importance of the sector in the county.

The County's and nation's prosperity depends on the investments made in developing human resource capacity and our people stand a good chance to play their roles within the county, region and even the world. In other words education prepares individuals for economic independence hence becoming self-sufficient and productive members of society. It is also important to note that if we are to reduce poverty in the county which now stands at 46.3%, investment in education is one of the surest ways of tackling this problem while increasing economic development of the county. Informed citizenry is key to decision making and participation in national development.

7.3.4 Roles of the stakeholders.

Name of stakeholder	Role
MOEST	Provide personnel, funds for FPE, FDSE, SYPT, TOOLS AND EQUIPMENT, ECDE grant, VP Grants.
Bi lateral Multilateral Development partners e.g. ADB,OPEC,NMK	Build and strengthen linkages and collaboration, mobilize resources.
Private sector e.g. Equity Bank,	Provision of financial support, sponsorships to needy cases
Devolved funds – CDF, others	Funding construction of classrooms, labs, sanitation facilities, admin blocks..
KICD	Development of curriculum and research
NGOs e.g. ADRA, world vision	Capacity building, resource provision and promotion of opportunities, school health programme, infrastructural development.
BOM	Enhance effective institutional management
Media society.	Objective reporting and advocacy, audio visual programmes
FBO/CBOs	Provision of Moral and spiritual guidance, early education and infrastructure.
Community/ Parents	Provide learners, physical facilities and funds, land, protective environment and safeguard children's rights.
Political class	Advocacy, resources
MOH	Primary health care, growth monitoring promotion, sanitation and nutrition and safety, community mobilization on health issues.
Public works	Approval of sites and building plans and supervision of projects
Ministry of interior and National coordination	Education awareness to the public on improving access, retention and transition and completion
Water services	Provision of safe and clean drinking water.
TSC	Employment of teachers, education standards
KNUT and KUPPET	Advocacy on teachers welfare
Sponsors	Spiritual growth and guidance
KESSHA and KEPSHA	Support co- curricular activities and INSETS

KEMI	Capacity building

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI KENYA

Other government ministries e.g. ministry of Environment, Energy, Agriculture etc.	Multi-disciplinary linkages, tree planting, environmental conservation
CDTF.	Provide grants for the construction of the classrooms.
Adult education department.	Provide literacy and continuing education.

7.3.5 Sector/sub sector priorities, constraints and strategies

Sub-sector	Priorities	Constraints	Strategies
Education	Increase access to education; Intensive supervision and inspection; Capacities building of stakeholders like sponsors, BoGs, PTAs etc.; Improve retention rates in schools.	Inadequate financial resources; Inadequate personnel; Lack of electricity in most institutions especially in schools (primary/secondary).	Mobilize more resources from stakeholders; Step up supervision and capacity building.
Adult education	Increase adult enrolment and retention.	Inadequate personnel; Negative attitude towards adult education.	Promote the adult education program, start IGAs for adult learners.

7.3.6 Programmes and Projects Priorities.

b) Education sub-sector.

i) On-going projects/programmes.

Project/programme Name Location	Objectives	Targets	Description of activities
Complete Library/ laboratory at Nyaisa Secondary. Manga ward.	Promote teaching and learning of sciences, widespread learning and research	Complete laboratory/library for effective teaching of sciences	Tendering, procurement construction supervision, handover
Construction of Library/ laboratory at Morako secondary	Promote teaching and learning of sciences, widespread learning and research	Complete laboratory/library for effective teaching of sciences	Tendering, procurement construction supervision, handover
Construction of classrooms at Tombe Mixed Secondary school.	Provide conducive learning environment	Complete the building works for all classrooms in progress	Supervision, finishing payment and hand over
Construction of classrooms at Nyankongo Primary School.	Provide conducive learning environment	Complete the building works for all classrooms in progress	Supervision, finishing payment and hand over
Construction of classrooms and tuition block at Gesure secondary school.	Provide conducive learning environment	Complete the building works for all classrooms in progress	Supervision, finishing payment and hand over
Construction of classrooms at Morambo SNE	Provide conducive learning environment	Complete the building works for all classrooms in progress	Supervision, finishing payment and hand over
Construction of classrooms at Tombe mixed secondary School	Increase the number of classrooms to accommodate more.	Complete the building works for all classrooms in progress	Supervision, finishing payment and hand over
Installing Lightening arrestors in all sec. and Primary School.	Reduces cases of lightening attack.	Installed arrestors in all schools	Procurement and construction
Construction of 4 classrooms and tuition block at Ogango secondary	Provide conducive learning environment	Complete 4 class rooms to accommodate increasing enrolment	Procurement and construction
Construction of 8 pit latrines at Moromba primary school.	Improve sanitation facilities	Complete 8 pit latrines	Procurement and construction and payment
Construction of 4 classrooms and tuition block at Nyakongo primary school.	To accommodate more learners	Complete 4 class rooms to accommodate increasing enrolment	Procurement and construction and payment
Construction of 1 classroom and 1 dormitory at Ogango special school.	To accommodate learners who board in the school	Complete 1 special class room and 1 dormitory	Tendering, procurement construction supervision, handover

c) Adult Education

i) Stalled project

Project Name Location/District/Constituency	Priority ranking	Objectives	Targets	Description of activities
Completion of classrooms at Nyagacho Adult Education.	**1**	Accommodate more adult leaners	Completed classroom	Tendering, construction, supervision and handover

ii) Ongoing programme/projects.

Project Name Location(Constituency)	Priority ranking	Objectives	Targets	Description of activities
Establish ABET centres (one per constituency)	1	to promote access, retention and completion	To construct, equip and staff 4No. Centres	Tendering, construction, supervision and handover
Construction of Ekige Adult classroom.	2	Accommodate more adult leaners	Completed classroom	Tendering, construction, supervision and handover

d) Tertiary education

i)New Project proposals-

Project Name Location(Constituency)	Priority ranking	Objectives	Targets	Description of activities
New Nyamira Technical Training Institute	1	Train school leavers on technical skills	Construct and equip with relevant facilities	Tendering, construction, supervision and handing over
Early Childhood Development Education College	2	To train qualified teachers for ECDE programmes	Construct and equip with relevant facilities	Tendering, construction, supervision and handing over
Omokirondo Teacher Training College-infrastructure	3	To train qualified teachers for Primary School and secondary	Construct and equip with relevant facilities	Tendering, construction, supervision and handing over
Proposed Universities at: Basic at Nyangokiani Technical at Ekerubo bietai	4	To train and equip learners high level skills and knowledge that will empower contribute in social economic development	To set up a county University by 2017 Set up in key urban and rural populated.	Acquire land Construction and equipping with facilities Empowering Kisii University Nyamira Campus

f) Special Needs Education

Project Name Location(Constituency)	Priority ranking	Objectives	Targets	Description of activities
EARCs facility at Borabu and Manga Sub- counties	1	To enhance assessment and placement of challenged children	To construct and equip the EARC centres	Tendering, construction, supervision and handover
New SNE school inn Nyamaiya ward	2	To provide a conducive learning environment	To construct and equip classroom	Tendering, construction, supervision and handover.

g) ECDE

Project Name Location(Constituency)	Priority ranking	Objectives	Targets	Description of activities
Employ 406 teachers	1	To provide qualified workforce	Employ 406 ECDE teachers	Advertise, recruit, deploy and remunerate.
Construction of ECDE centers in all public primary schools-county wide	2	To improve access, retention and completion rates.	All the public primary schools.	Tendering, construction, supervision and handover

7.3.7 Cross-sector linkages

The education sector is the back bone of all sectors hence performance of other sectors depends on the effective service delivery and good management of human resources who have gone through the system of education successfully. In the agricultural sector, basic

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

education is required if farmers are to apply modern farming methods. At the same time inadequate food supply will lead to cases of malnutrition and increase of schools drop-outs. Agriculture and rural development sector require educated people. The performance of this sector depends on good roads to access the educational facilities while water and electricity are needed for efficient operations at the educational facilities.

7.3.8 Strategies to mainstream cross-cutting issues.

It is envisaged that the sector will continue strengthening programmes promoting gender equality, that is, empowering boys and girls through education as well as empowerment of women. The sector will sensitize its personnel to be gender responsive. More resources will be mobilized to address the impact of HIV and AIDS in the sector. The needs of the Physically Challenged will be incorporated in the development of physical facilities. On environmental conservation, the sector will take a leading role on environmental education in schools and various institutions of learning mainly through formation of environmental clubs.

7.4 HEALTH

This sector includes the following sub-sectors; Medical services, Public health and sanitations and related research and development.

7.4.1 Sector Vision and Mission

Vision. An efficient and high quality health care system that is accessible, equitable and affordable for every Kenyan.

Mission. To promote and participate in the provision of integrated and high quality promotive, Preventive, curative and rehabilitative health care services to all Kenyans.

7.4.2 County Response to Sector Vision and Mission.

In line with the national vision of ensuring a high quality of life for all citizens by the year 2030 and the various Millennium Development Goals – Reducing child mortality (No. 4), Improving maternal health (No.5) and Combating HIV and AIDS and Malaria (No. 6) –, the county will endeavour to provide adequate and affordable health services to the public. More emphasis will be placed on preventive rather than curative health care. Reproductive health as well as comprehensive immunization will also be core to the activities of the Health sector henceforth. The county development committees will give emphasis on the following: establishing a sustainable health management information system; provide adequate, affordable, quality basic health, including supplies and equipment; improving the cost revenue sharing; improving performance of Community Health Workers (CHWs); and providing physical infrastructure in the hospitals, health centres and dispensaries. Rehabilitation of existing health facilities will also be done. Strategies to Combat HIV/AIDS pandemic will also be adopted with the existing strategic plan of the NACC. Health service management through competent and skilled staff at all levels of service delivery will be provided. Health facilities will also be done. Health service management through competent and skilled staff at all levels of service delivery will be provided.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

7.4.3 Importance of the sector in the county.

To ensure that the County achieves its mission, the Health sector will be of vital importance to guarantee the healthy status of all the residents. The health sector will therefore ensure that the county has a healthy population with physical and mental capacities.

7.4.4 Roles of the stakeholders.

Stakeholders	Role
Community	Financing health services
Government/county	Provision of infrastructure, human resource, provision of health products and technology, Health management & information system, Policy guidelines , and health care financing, and leadership & governance
NGOs-CHAK, APHIA PLUS, World vision, ,Merlin, PSI	Financial resources, capacity building, technical and logistical supports.
KEMSA	Procurement, warehousing, distribution of HPT
Others- CDF	Provision of financing health infrastructure.
Other government depts.: SDH: Agriculture, Water, Education, Coordination of National government, KERRA,KURRA and Gender	-food security, nutrition -water and sanitation -reproductive health, school health, health outcomes -security -roads network
National AIDS Control Council,	Fund HIV and AIDS activities in the county
FBOs	Health service provision, financing
County Assembly	Legislation
IFAD	Infrastructure development and primary health care support Water and sanitation
KEMRI/CDC	Health research trainings & specialized diagnostic services
NHIF	Health care financing

7.4.5 Sector/sub sector priorities, constraints and strategies.

Sub-sector	Priorities	Constraints	Strategies
Maternal health	-Reproductive health services, -Maternal health problems, Capacity building of the staff.	-Shortage of skilled staff, -Inadequate supply of equipments and commodities, -high morbidity and mortality due to malaria and other diseases,	-Training of staff, -Supply equipments and commodities, -Provision of adequate drugs/equipments, -health education.
Child health	-Immunization, -Nutrition, -Child health illness.	-Inadequate cold chain equipments, -Malnutrition, -High child morbidity and mortality, -Inadequate supply of drugs, equipments and commodities.	-Procure cold chain equipments, -Health education, -Training of staff, -Supply of drugs ,equipments and commodities,
Adolescence	-Drug and substance abuse, -Abortion, -FGM	-Lack of youth friendly services	-Establish youth friendly centre, -Training of staff.
Adult and elderly	-HIV/AIDs, -High morbidity and mortality, -Degenerive diseases	-Stigma -Inadequate supply of drugs, equipments and commodities, -Inadequate VCT Sites and counsellors.	-Community sensitization and counselling, -Increase VCT sites and counsellors, -Procure drugs, equipments and commodities,
Health and Nutrition	Reduce disease burden. Provide quality health services.	Low immunization coverage; Inadequate health facilities; Inadequate resource allocation from the government; Inadequate transport; Increasing and high rate of infection; High mortality especially expectant mothers and children; Poor access to	Rehabilitate and equip existing health facilities; Government and development partners to allocate more resources to immunization services and provide adequate transport; Training of communities on malaria control;

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

Sub-sector	Priorities	Constraints	Strategies
		health delivery point; Use of un-prescribed drugs; Inadequate knowledge on management of illness among the health workers in current reproductive health issues; Lack of equipment and commodities for reproductive health; Lack of skills by TBA's, CHW's on reproductive health. Inadequate growth monitoring at facility level; inadequate feeding for under 5 years	Effective case management of childhood illness under 5 years; Updating health workers on reproductive health issues; Routine antenatal and family planning issues; Training Community Health workers. Growth monitoring at facility level; Supplementary feed for under 5; Promotion of health seeking behaviour
HIV/AIDs	Prevention of new infections; Support to those infected and affected.	Inadequate funds; Inadequate personnel to man VCT sites; Inadequate VCT sites.	Resource mobilization; Encourage partnerships.

7.4.6 Programs and Projects

a) Medical/public health and sanitation.

i) Ongoing projects/programmes.

Project/Programme name and location.	Objectives	Targets	Description of activities.
Construction of staff house at Machururiat disp. Gesima ward.	To Ensure Availability Of Essential Health Services 24hrs	Provide residential accommodation for staffs	10% complete
Construction of maternity and children ward at Gesima H/C. Gesima Ward.	Provide infrastructure for basic essential obstetric care	Complete equip & operationalize	99% complete.
Construction of maternity and children ward at Bosiango H/C. Bogichora Ward.	Provide infrastructure for basic essential obstetric care	Complete equip & operationalize	99% complete
Renovation of OPD & construction of pit latrine at Rigoma dispensary.	Improve physical infrastructure and sanitation	Complete and operationalise	10% complete
Construction of theatre at Keroka sub-county hosp. Rigoma ward	Provide infrastructure for managing surgical emergencies	Complete equip & operationalize	Construction on going (30%)

NAIROBI, KENYA

7.4.7 Cross-sector linkages

The education sub-sector is the back bone of all sectors hence performance of other sectors depends on the effective service delivery and good management of human resources who have gone through the system of education successfully. In the agricultural sector, basic education is required if farmers are to apply modern farming methods. At the same time, inadequate food supply will lead to cases of malnutrition and increase of schools drop-outs. Research, Innovation and Technology and agriculture and rural development sectors require educated and health people. The performance of this sector depends on good roads to access the health and educational facilities while water and electricity are needed for efficient operations at the health and educational facilities. Also occupational health in places of work demands highly trained manpower and specialized equipments. Sports can also play an important role in health education. Through sports awareness messages on HIV/AIDS and malaria have been passed to the general public.

7.4.8 Strategies to mainstream cross-cutting issues.

The sector through Medical Services and Public Health sub-sectors will develop ways on how to cushion the vulnerable members of the community from cost sharing and other charges – fee waivers for those who cannot afford to pay. The VCT sites are expected to be youth friendly. On environmental conservation it is expected that this be strengthened through enforcement of the Public Health Act. The sector is expected to explore ways of improving access of health services to the Physically Challenged and the elderly through special desks at all facilities.

7.5 SOCIAL PROTECTION, CULTURE AND RECREATION.

The sub-sectors in the county include: Gender, Children and Social Development, National Heritage and Culture, special programmes, development of northern Kenya and other arid areas as well as Youth and Sports.

7.5.1 Sector Vision and Mission

Vision: Sustainable and equitable socio-cultural and economic empowerment of all Kenyans.

Mission: To formulate, mainstream and implement responsive policies through coordinated strategies for sustained and balanced socio-cultural and economic development of the Country and empowerment of vulnerable and marginalized groups and areas.

7.5.2 Importance of the sector in the county.

This sector is important in terms of promotion of gender mainstreaming and economic empowerment of women and the youths who form a large portion of the county population, eradication of adult illiteracy as a prerequisite to meaningful and active participation in development, encouragement and promotion of sports for recreation and competition for all. It is also involved in enhancement of communities' capacities for self-reliance and greater participation in the County's development process and maintenance of industrial peace. Sports enhance the physical and psychological fitness of the individual and provide recreational relief. It is through sports that diverse ethnic and

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

other interest groups come together in competition and is therefore a unifying factor. Sports also provide employment for players, coaches/trainers, agents, officials and administrators.

7.5.3 Roles of stakeholders

Sub-sectors	Name of stakeholder	Role
Youth Development	Financial institutions-Equity bank & KWFT	Provision of credits, entrepreneurial skills to the youths before funding and monitor and evaluate individual or funded group projects.
	National & County Government departments-MoH, Ministry of Interior & National Coordination, Information, MoA, NEMA, Gender & social Development, Cooperative Department, Children Department	Provision of personnel, technical support and financial resources. MoH provision of VCT services, registration of groups & conflict resolution, registration of youth Sacco's
	NGOs-ADRA(K), World vision & Aphia Plus	Provision of material and financial support, Creation of awareness, Capacity building on various youth related issues
	Sponsors/Business community/Private sector e.g. Kenya Chamber of Commerce & Industry	Provide necessary financial, Offer internship & apprenticeship, employment & business opportunities & enterprises

Project Name/ Location	Priority ranking.	Objectives	Targets	Description of activities
Construction of a sports centre - Erange playground. Magwagwa ward	9	To harness untapped resources in sporting fraternity	All eligible persons and more so the youth	Identify sites and construct the sport centres
Improve the Magwagwa playground. Magwagwa ward	10	To harness untapped resources in sporting fraternity	All eligible persons and more so the youth	Renovate and complete the play ground
Construction of Ensoko stadium	11	Create enabling environment for sporting activities	stadia for sporting activities	Erect and construct the two stadia at the suggested site

e) Culture

i) On-going Projects

Project Name/ Location	Objectives	Targets	Description of activities
Organization of cultural festivals – county wide	To promote and develop functional aspect of culture.	Hold at least four cultural festivals in a year.	Display of traditional foods; preparation of traditional dishes; performance of cultural dances and songs; Display of traditional artefacts.
Registration of cultural groups-countywide.	To promote and preserve visual arts and traditional medicine and knowledge.	Register 120 cultural practitioners in a year.	Conduct of check up to monitor operations; Mobilize cultural groups; Process registration.

ii) New Project Proposals

Project Name/ Location	Priority ranking.	Objectives	Targets	Description of activities
Establishment of cultural centre – Keroka	1	To promote and develop functional culture	The Community and Tourists	Identify sites, Development of plans & BQs, Sourcing for funds, Tendering, Construction Furnishing.
Establishment of cultural centres – Nyamaiya	2	To promote and develop functional culture	The Community and Tourists	Identify sites, Development of plans & BQs, Sourcing for funds, Tendering, Construction Furnishing.
Establishment of cultural centres – Nyamira	3	To promote and develop functional culture	The Community and Tourists	Identify sites, Development of plans & BQs, Sourcing for funds, Tendering, Construction Furnishing.
Establishment of botanical garden at County Headquarters	4	To preserve indigenous plants with medicinal value	The community Herbalists	Identification of the site Sourcing for indigenous plants seedlings Planting of seedlings & maintenance of the garden.
Refurbishment of traditional caves at Manga Sub county	5	To preserve tourist attraction sites	Tourists Community	Identify the sites Refurbishment Maintenance of the sites
Celebration of annual cultural festivals at every sub-county	6	To preserve and showcase intangible cultural expressions for harmonious community co – existence	Community, Tourists	Identify of participants & venue Sourcing for funds Celebration

7.5.6 Cross Sector Linkages

The sector will require strong linkages with other sectors. The agriculture and livestock sub-sectors will provide food to the sector. This sector will also link to others sectors

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI KENYA

because it is involved in gender issues, youth, disaster management, conflict resolution, people with disabilities, cultural issues, HIV/AIDS support to livestock, water, agriculture, trade, roads, education, health sub-sectors.

7.5.7 Strategies to mainstream cross-cutting issues

It is expected that all the cross-cutting issues like HIV and AIDS, gender, youth, children and environmental conservation among others will be mainstreamed in all activities undertaken in this sector. For instance in all development committees/decision making organs, the sector is expected to strive for representation of People living with HIV and AIDs, women and youths. In the youth and women enterprise funds efforts will be made to ensure that the disadvantaged especially those infected with HIV and AIDs are supported. The women and youths are expected to be at the forefront in environmental conservation efforts. The Home Affairs subsector will explore possibilities of increasing support to OVCs.

7.6 ENERGY, INFRASTRUCTURE AND ICT

In the county this sector is represented by the following sub-sectors: Roads, Energy, Transport, Information and Communication, public works and the related research and development.

7.6.1 Sector Vision and mission

Vision: A World class provider of cost-effective physical and ICT infrastructure facilities and services.

Mission: To provide efficient, affordable and reliable infrastructure for sustainable economic growth and development through construction, modernization, rehabilitation and effective management of all infrastructure facilities.

7.6.2 County Response to the Sector Vision and Mission

The county through its development committees and the Kenya Roads Board will promote intensive use of labour based technologies especially on maintenance and rehabilitation which will lead to creation of employment. It will also advocate for adequate funding for construction and proper maintenance of roads which will not only reduce the operating expenses but also prolong the economic life of these facilities and reduce rehabilitation and reconstruction costs. On the issue of roads encroachment, the county leaders are expected to sensitize the communities against this vice. The use of Information Communication Technology in the county has been very low. However, the expansion of the mobile phone networks to cover almost all the areas has improved communication in the county. The county needs to put efforts to establish a digital village. The county is adequately covered by the radio broadcast network. Television networks can only be accessed through subscription to digital television services which limits access to information because very few people can afford these services thus the county will ensure that a television booster is set up in the county. School Computer Programme will also be extended by the county to secondary schools as well as the polytechnics in the county. There are only few institutions offering the Internet and E-Mail services in the county and therefore the county will initiate more investments in

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

cyber cafes in the county. During the plan period also, the county will increase connectivity to electricity to all trading centres and more than 12, 700 households will be supplied with power.

7.6.3 Importance of the sector in the county.

The sector plays a critical role in the County's socio-economic development. The sector plays an important role in agriculture which is the County's mainstay. In connection with this efficient road network is one of the key factors in terms of access to farms, production centres and markets. Electricity connection is still top priority especially in all market centres and public institutions. This will help in starting of small-scale industries (cottage) which will not only generate employment and income but also curb rural-urban migration hence de-congesting towns. Electricity connection to institutions like schools and youth polytechnics can start technical subjects. Therefore rehabilitation and proper maintenance of this sector in the county will go a long way in getting the county out of poverty and create employment.

7.6.4 Roles of stakeholders

Name of stakeholder	Role
Government	Provision of technical personnel, policy guidelines & financial resources
Donor agencies ,IFAD,ROADS 2000	Finance and technical support
Private sector	Provision of credit through financial and non-financial institutions, Supply of inputs.
Devolved funds – CDF, TEA CESS,FUEL LEVY	Funding construction of Energy, Infrastructure and ICT programmes.
Research institutions e.g. , KIHBIT)	Capacity building
NGOs ,WORLD VISION,RED CROSS,	Capacity building, resource provision and promotion of opportunities.
KTDA	Financial resources
Community	Actual participation in project activities-Identification, monitoring and evaluation.
KeRRA,KeNHA	Assist in Planning and implementation
Other government ministries	Assist in identification, planning and Monitoring
Kenya Power and lightening co.	Supply of electric energy
Provincial administration	Education awareness to the public on environmental management, protection and sustainable development and utilization of the environment and natural resources, Enforcement of traffic laws

7.6.5 Sector/sub sector priorities, constraints and strategies

Sub-sector	Priorities	Constraints	Strategies
Roads	-Rehabilitation of the district's road network to motor able standards	-Heavy rains, -terrain makes maintenance costly, -Inadequate funding, -Encroachment of road reserves.	-Mobilize more resources, -Community sensitization against road encroachment.
Energy	-Extension of electricity to all trading, marketing centres and public institutions.	-Inadequate funding, -Access to electricity still expensive	-Connect all learning institutions, health facilities, trading and market centres -Encourage groups to venture into solar/biogas energy. -Encourage other partners to support in electricity provision.
ICT	Establish the county Management Information Systems(CMIS) which is computer based, Develop the SCIDC,	-ICT development is still limited, -There is no public library, -There is no cyber café in the district to provide e-	-Equip fully the existing SCIDC by establishing CMIS, -Encourage investors to invest in ICT especially provision of internet services.

NAIROBI, KENYA

e) Information Communication Telecommunication sub sector

i) New Project Proposals:

Sub Sector	Priority Ranking	Objectives	Targets	Strategies
Expansion of mobile phone network County Wide	1	Facilitate use of the Internet and ease communication	Install 1 mobile phone transmitters to county wide.	Extend telephone coverage in the rural centres by providing more distribution lines and expanding existing exchanges: Installation of more transmitters for cell phones.
Establishment of Community Library in Nyamira Town.	2	To enhance information sharing and dissemination and establish reference centre for students hence promote education standards in the county.	All Nyamira students, community and the public in general.	Construct, identify and avail staff, seek assistance for donation of books from KNLS, private sector, Government Departments and the community.
Geographical Information System Installation and training Nyamira town.	3	Enhanced monitoring and better progress reporting by NGOs and Government departments.	CIDC.	Training of more officers on GIS; Installation of GIS in key departments
Strengthen the Rural Press County wide	4	To strengthen the rural press	Produce magazines at a monthly basis	Publication of rural press magazine on topical socio cultural and economic issues
Establishment of constituency Digital villages and cyber cafes. County wide.	5	Expand use of ICT services	Have a digital village in Nyamira town and 2017 and a cyber café in each divisional headquarter by 2017	Establish digital villages to provide internet, email, fax and internet services to the community
ICT Uptake	6	Increase efficiency in public delivery.	Government department.	ICT centres are started at county level Mobilize resources for ICT and training.
Establish community resource centres in each constituency.	7	Promote education standards in the county.	The academia and research.	Procure and construct.

7.6.7 Cross-sector linkages

This sector provides the base for other sectors. For instance the Agriculture and Rural Development sector requires either transport-link between the farms, industries and the markets. Value addition/ processing of raw materials definitely require water and electricity. The development of tourism sub sector good road network is essential. For the education and health sub-sectors, this sector facilities the development, access and utilization of health facilities and educational facilities. Given that the world has become a global village many businesses are conducted through the internet. Through this sector promotion of tourism over internet is possible. With the introduction of M-Pesa, payment for goods and services in the different sectors has been made easy. It is however important to note that it also depends on the development of other sectors like In manpower and special programmes sector, ICT can play an important role in promoting the County's cultural values through information and broadcasting services.

7.6.8 Strategies to mainstream cross-cutting issues

It is expected that as way of creating employment to the youths and women, the roads sub-sector promotes the use of labour intensive technologies. In it is expected that all

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

projects under this sector incorporate environmental conservation and management aspect. HIV and AIDS will be mainstreamed in all activities under this sector through through sensitization campaigns and providing support to the infected and affected. The needs of the Physically Challenged will be incorporated into design of roads and buildings. The issues of gender and youth will be taken into consideration in all decision making processes within the sector.

7.7 ENVIRONMENT PROTECTION, WATER AND HOUSING

The sub-sectors in this sector include: Environment and Mineral Resources Water and Irrigation, as well as Housing.

7.7.1 Sector Vision and Mission

Vision: Sustainable access to adequate water and housing in a clean and secure environment.

Mission: To promote, conserve and protect the environment and improve access to water and housing for sustainable national development.

7.7.2 County response to the sector vision and mission

The county through its development committees including the environment Committees will promote intensive environmental conservation and protection of water catchment areas. The youths will be encouraged to start tree nurseries as income generating activities which will also in the conservation efforts. The main committees will also encourage other partners like CDFs, donor agencies and local authorities to invest in this sector. The county is also expected to step-up campaigns in removal of blue gums from water sources and wet lands in addition to advocating for more housing establishments to cater for the ever increasing population in the urban centres.

7.7.3 Importance of the sector in the county

The provision of proper waste disposal and sewerage systems provides a clean environment and reduces the occurrence of water borne diseases. The improvement of water and sanitation infrastructure is the key in ensuring food security, good health and improved sanitation, irrigation for the agriculture activities and livestock production. Environmental controls ensure effects emanating from the industrial and commercial activities do not negatively effect on the human health, and economic assets of the residents and those who work in the area.

7.7.4 Roles of the stakeholders

Name of stakeholder	Role
Government (National / County - Ministry of Environment, Water and natural resources, Ministry of lands, housing and urban development)	Provision of technical support and policy guidelines, financial resources, sector service provision (environmental management, water services, housing, spatial planning, forestry, health, public infrastructure, social services, education among others)

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

Development Partners (UNEP, UN Habitat, Shelter Afrique, UNFCCC,)	Financing schemes , technical support, policy guide and capacity building
Donor agencies(e.g SIDA, IFAD, World Bank, EU, JICA, ADB, GIZ, USAID)	Finance and technical support, capacity building
Government Agencies (LVEMP, NETFUND, CDTF, water boards, WRMA, National Water and Pipeline Corporation)	Project implementation, financial support, capacity building
Private sector	Provision of credit through financial and non-financial institutions, Supply of inputs, partnership and investment.
Devolved funds – CDF, Uwezo Fund, Youth Fund, Women Enterprise Development Fund	Funding construction of water and housing infrastructure, environmental conservation.
Research institutions(e.g. KIRDI, KEFRI, KARI, NCST, UNIVERSITIES, KEWI)	Development and promotion of new technologies and research
CSOs (NGOs, FBOs, CBOs)	Advocacy, Capacity building, resource provision and promotion of appropriate technologies
Community	Actual participation in project activities-planning, implementation and monitoring and resource provision.
Financial institutions (Banks, micro-enterprises)	Credit facilities, direct project financing, capacity building

7.7.4 Sector/sub sector priorities, constraints and strategies.

Sub-sector	Priorities	Constraints	Strategies
Domestic Water Supply	Increase % of households accessible to portable water; Improving sanitation status; Development of sewerage systems.	Inadequate funding; Environmental degradation; Encroachment of water catchments.	Mobilize more resources from partners-NGOs, water service provider, private sector; Community sensitization against encroachment in water catchments; Protect more springs and rehabilitate and expand existing water facilities.
Irrigation and Drainage	Promote the area under irrigation and drainage as per Vision 2030; Improve water resources and wetland management through improved technology and management.	Inadequate funding; Poor wetland water management; Inappropriate drainage technologies; Inefficient production systems; Total dependence on unreliable weather; Low adoption rates; Inadequate drainage infrastructural facilities; Poor farmers technical know-how; Inaccessibility to credit facilities.	Resource mobilization; Community sensitization and awareness creation(mobilization); Organizational development and management; Comprehensive engineering surveys and designs and implementation; Improve technical know-how.
Environmental conservation	Environmental education; Enforcement of the environmental regulations; Rehabilitation and restoration of degraded sites and resources e.g wetlands and hilltops.	Inadequate staff; Inadequate financial resources; High population pressure; Poverty; Lack of support from other stakeholders.	Formation and training of environmental management groups; Prosecution of environmental polluters; Involvement of NGOs, institutions and communities in the management of the environment and natural resources; Rehabilitation of degraded sites and resources then hand them over to the responsible community to manage them; Organize public clean-ups in towns and market centres to keep our environment clean.
Housing.	Trainings and demonstrations on appropriate building materials an technology (ABMT)	Inadequate funds to develop appropriate building technology centres, Low level investment by both the public and private sector players.	Recommend to the county government to prioritize funds allocation for establishment of the constituencies ABMT centres Integrating appropriate building

Sub-sector	Priorities	Constraints	Strategies
	use in housing delivery, Improve public housing provision		technologies curriculum at village level polytechnics Create an enabling environment for investment in the housing sector through PPP(NHC, Housing finance, Financiers)

7.7.5 Programmes and projects priorities

a) Water sub-sector

i) On-going projects/programmes

Project Name Location(Constituency)	Objectives	Targets	Description of activities
Nyansiongo water project	To supply potable water to communities. To Upgrade the distribution systems.	County wide.	Laying of supply, delivery and distribution lines and rehabilitation of fittings Construction of water tanks – distribution tanks , break pressure tanks, Buying and installation of water pumps / Booster pumps Upgrading of distribution lines
Maji mazuri water project	To supply potable water to communities. To Upgrade the distribution systems.	County wide.	
Ikonge water project	To supply potable water to communities. To Upgrade the distribution systems.	County wide.	
Kebirigio water project	To supply potable water to communities. To Upgrade the distribution systems.	County wide.	
Nyamira water project	To supply potable water to communities. To Upgrade the distribution systems.	County wide.	
Nyansabakwa water project	To supply potable water to communities. To Upgrade the distribution systems.	County wide.	
Nyambaria water supply.	To supply potable water to communities. To Upgrade the distribution systems.	County wide.	
Kemera gravity water supply project	To supply potable water to communities. To Upgrade the distribution systems.	County wide.	
Miriri borehole in Kitutu Masaba	To supply potable water to communities. To Upgrade the distribution systems.	County wide.	

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

Water and Sanitation (Sewerage Infrastructure)	To supply potable water to communities. To Upgrade the distribution systems.	County wide.	
Baseline Survey on water supply and sanitation situation in the County.	To ascertain the water situation in the county.	The whole county.	Procure and consultancy services.

ii) Stalled projects/programmes

Project programme Name and Location	Priority ranking	Objectives	Targets	Description of activities
Tombe water project (Manga ward)	1	Supply domestic water for community	The countywide.	construction of water tank, distribution lines and rehabilitation of fitting Construction of the tanks Buying of pumps, construct a distribution tank and distribution lines
Machururiat water project (Kitutu masaba constituency)	2	Supply domestic water for community	The countywide.	
Kianungu borehole(Bosamaro ward)	3	Supply domestic water for community	The countywide.	
Riamarisera dam reservoir for development –esise ward.	4	Supply domestic water for community	The countywide.	
Kahawa dam reservoir for development –esise ward	5	Supply domestic water for community	The countywide.	
Miriri Bore hole in Gachuba ward.	6	Supply domestic water for community	The countywide.	
Nyaisa borehole in Bogichora	7	Supply domestic water for community	The countywide.	
Itetema WP in (Manga ward).	8	Supply domestic water for community	The countywide.	

iii) New projects/programmes.

Project programme Name and Location	Priority ranking	Objectives	Targets	Description of activities
Rirumi-nyageita water project (Borabu constituency)	1	To Supply potable water Conduct upgrading of the distribution	Improve availability and access of the water resources	Laying of supply, delivery and distribution lines and rehabilitation of fittings Construction of water tanks – distribution tanks , break pressure tanks, Buying and installation of water pumps / Booster pumps Upgrading of distribution lines Construction of a Transversal weir , sedimentation tank , installation of distribution lines and construction of tank , install a booster pump, installation of supply lines - Gekano,
Riondoro-chebilat-mogusi water project. (Borabu constituency)	2	To Supply potable water Conduct upgrading of the distribution	Improve availability and access of the water resources	
Kitaru water project (Borabu constituency)	3	To Supply potable water Conduct upgrading of the distribution	Improve availability and access of the water resources	
Nyandoche Ibete water project (Borabu constituency)	4	To Supply potable water Conduct upgrading of the distribution	Improve availability and access of the water resources	
Endemu dam water project protection (Borabu constituency)	5	To Supply potable water Conduct upgrading of the distribution	Improve availability and access of the water resources	
Magombo dam.	6	To Supply potable water Conduct upgrading of the distribution	Improve availability and access of the water resources	
Raitigo dam Borabu constituency	7	To Supply potable water Conduct upgrading of the distribution	Improve availability and access of the water resources

Maintenance/ refurbishment programs of government residential houses.	To enhance habitability of the buildings	General maintenance of the housing	Repainting , repair of leakages, repair of fittings, flooring, roofing, fencing , landscaping , plumbing works, electrical wiring

ii) Stalled projects/programmes.

Project programme Name and Location	Priority ranking.	Objectives	Targets	Description of activities
North Mugirango constituency – Appropriate Building technology centers	1	Provide services including collaborative research, evaluation an d certification of technologies, training and skills development, documentation , dissemination and demonstration of technology, technical assistance and consultancy, quality control and maintenance of standards	Enhance capacity in the use of ABT for improved housing delivery	Construction of a workshop, classroom, office space, store, and a laboratory, fencing, gatehouse, gate ,ablution block, sewerage facilities

iii) Flagship project

Project Name	Location	Description of activities	Status of Implementation
Establishment of Appropriate Building Materials and Technology Centres	North Mugirango West Mugirango Borabu Kitutu Masaba	Construction of a workshop, classroom, office space, store, and a laboratory, fencing, gatehouse, gate, ablution block, sewerage facilities	Stalled due to conflict on land ownership
Increasing housing supply in urban areas (1,000 housing units)	Nyamira, Keroka, Nyansiongo, manga, Ekerenyo	Construction of low, middle and high residential housing units; Creating enabling environment for operationalization of Real Estate Investment Trust (REITs) infrastructure	New proposals for implementation New proposals for implementation

c) Environment

i) On-going projects/programme.

Project programme Name and Location	Objectives	Targets	Description of activities
Environment Solid waste management for Keroka Town	Provide solid waste management service for Keroka and Nyansiongo Towns.	Construction of the sanitary landfill and procurement of equipment	Acquire the land, securing the land, excavation of earthworks, installation of a weigh bridge and a site office, procurement of equipment
Environmental impact assessment and audit in Nyamira County	To ensure development control for sustainability	Conduct EIA for new projects and audit for existing projects	Conduct EIA processes, inspection an d monitoring to ensure compliance an d licensing
Awareness creation on environmental management	Raise level of public awareness on environmental management	Public awareness	Conducting barazas, workshops, forums, field days on environmental management

ii)New projects/programmes

Project programme Name and Location	Priority ranking.	Objectives	Targets	Description of activities
Establishment of sewerage system and treatment. Nyamira, Keroka and Nyansiongo towns in the County.	1	Improve the waste disposal.	Complete the sewerage by 2017	Construction of the sewerage system.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

Waste Management Site. County wide.	2	To reduce environment related and water borne diseases	To establish waste management sites for Nyamira, Nyansiongo and Keroka, towns.	Identify sites through consultation with all stakeholders; Prepare part development plan; construct site.
Community based waste recycling. County wide.	3	To maintain town cleanliness.	Start 1 no pilot project by 2015.	Establish a group for waste recycling; training of the group in waste recycling; create awareness to people on waste recycling.
New cemetery site; Nyamira, Keroka and Nyansiongo towns.	4	To ensure proper disposal of bodies.	Establish 2 cemetery sites by the year 2015.	Identification and purchase of land; administration of these cemeteries.
Refuse collection in trading centres County wide	5	Maintain general cleanliness in the trading centres.	Tractor purchased by 2017.	Purchase of tractor and trailer.
Provide for the Public Toilets Services in all the trading centres.	6	Provide necessary toilet service to wananchi; Toilets to be leased out to private enterprise hence job creation.	Complete toilets at Bus/Matatu park;	Construction of public toilets.
Beautification/ landscaping and tree planting of a total of 8 km of streets each in Nyamira, Keroka and Nyansiongo;	7	To beautify the existing towns and trading centres	countywide	Public awareness
Promote improved kiosk standards and reorganize placement of kiosks in the towns and markets.	8	To beautify the existing towns and trading centres	countywide	Public awareness
Enforcement of regulations; Business audit services	9	To beautify the existing towns and trading centres	countywide	Public awareness
Inventory of carbon footprints and emissions of GHGs to guide long term interventions.	10	To beautify the existing towns and trading centres	countywide	Public awareness

iii) Flagship projects

7.7.7 Cross Sector Linkages.

The Environment, Water and Sanitation sector is closely linked to the other sectors. Public Administration, governance, justice, Law and Order Sectors ensure maintenance of security for the implementation of the sector activities as well as policy and coordination guideline. The education and Health sector provid both skilled and healthy manpower while the agriculture sub-sector provides the food required by the manpower**.** The sector also provides water for irrigation and livestock in the Agriculture and Rural Development sector.

7.7.8 Strategies to mainstream cross-cutting issues

The sector will ensure that issues of women and youth are incorporated in all aspects of the activities being implemented from planning, implementation, monitoring and evaluation. The necessary standards will be maintained to ensure mainstreaming of environment issues in the sector. Those infected and affected by HIV and AIDS in the sector will be provided with the necessary support while sensitization campaigns would be conducted to prevent new infections and to foster behavourial change. In addition, issues concerning the Physically Challenged will be given special emphasis so as to ensure that they are not left out of the development process within the sector.

7.8 GOVERNANCE, JUSTICE, LAW AND ORDER SECTOR

In the county the sector is represented by the following subsectors; Interior and national co-ordination, Judiciary, Home Affairs (/prisons, Probations), Immigration and registration of persons and Independent Electoral and Boundaries Commission. Justice, national cohesion and constitutional affairs, Kenya anti-corruption complain, director of public prosecution, commission for the implementation of the constitution, national police commission, human rights and equality commission and the related research and development.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

7.8.1 Sector Vision and Mission

Vision: A secure, just, cohesive, democratic, accountable, transparent and conducive environment for a globally competitive and prosperous Kenya.

Mission: To ensure effective and accountable leadership, promote a just, democratic and secure environment and establish strong governance institutions to empower citizens, for the achievement of socio-economic and political development.

7.8.2 County response to the sector vision and mission

The county through community mobilization/sensitization will ensure that the sector is supported which will in turn enable the attainment of goals and objectives of the sector. The sector will ensure that all the planned programmes are implemented so as to achieve a just and secure environment in the county. The sector wll play its role in ensuring that the social, political and economic environment in which the people live is secure, hence enabling them make rational decisions on their investments and resource mobilization. The sector will also ensure that public resources are used prudently.

7.8.3 Importance of the Sector in the County

A just and secure environment is important in nation building. The sector therefore plays an important role in ensuring that the social, political and economic environment in which the people live is secure hence enabling them make rational decisions on their investments and resource mobilization. There sector also ensures that public resources are used prudently.

7.8.4 Role of Stakeholders

Name of stakeholder	Role
National Police service, National coordination.	Core mandate is provision of security, policy guidelines.
County Government.	Funding and supervision.
Immigration and Registrars of Persons.	Registration of deaths, births and issuance of identification cards and passports/passes.
Communities	Supplement security through Community policing.
NGOs (eg Legal Resources Foundation, USAID	Provision of resources and capacity building.
Members of the public	Service consumers, supplementary information in community policing
Judiciary	Dispensation of justice
Prisons and borstal institution	Rehabilitation of offenders
Religious organizations	Preach peaceful coexistence within the society

7.8.5 Sector/Sub sector Priorities, Constraints and Strategies

Sub sector	Priorities	Constraints	Strategies
Interior and national co-ordination.	To improve security and redeem the image of the government; Promote good governance an reduce corruption incidences; Establish a strong legal based mechanism for development coordination; To	Sophistication of crime, proliferation of illegal fire arms and light weapons; Governance and corruption-(poor governance and corruption impede economic growth and social development in the country); Inadequate human and financial resources;	Enhance community policing; Provide adequate and proper housing facilities to the officers; Capacities build the chiefs and their assistants on conflict resolution.

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

	strengthen capacity by providing the necessary equipments, infrastructure and human resource;	Slow adoption of modern technology and ICT.	
National Police	Protection of citizen's property; Maintenance of law and order.	Inadequate personnel; Poverty and unemployment; Inadequate operating facilities; Sophistication of crime, proliferation of illegal fire arms and light weapons; High citizen-police ratio.	Enhance community policing; Provision of operating facilities; Increase police enrolment; Open more police units.
Judiciary	-Dispensation of justice	-Inadequate personnel -Inadequate court rooms -Un cooperative witnesses -Poor investigation -Poor record keeping	-Employment of additional personnel -Construction of more courts -Enforcement of witness protection Act -Staff training, re orientation and supervision. Automation
Probation and after care services	-Rehabilitation of offenders. -Empowerment of probationers, ex borstals and ex-convicts -Re integration of ex borstals and ex-convicts.	-Un cooperative society -In adequate funding for empowerment -Inadequate office space -Lack of transport	-Sensitization of community members -PPP -Construction of probation offices ongoing -Acquisition of motor vehicle
Penal institutions-GK prisons	Keeping of prisoners; Rehabilitation of prisoners.	Lack of housing facilities both for the officers and prisoners; Inadequate personnel and funding; HIV/AIDs prevalence among prisoners.	Mobilize resources for completion and equipping of GK prisons and administrative offices at Esianyi in Nyamusi. Mainstream HIV/AIDs programmes into the core functions of prisons.
Immigration and Registration of Persons.	Enlightenment of local community on importance of Registration	Lack of office building; Lack of IT facilities; Lack of transport facilities.	Sensitization campaigns; installation of IT system; Construction and equipping of office building; purchase of office vehicles.

7.8.6 Programs and projects

a) National coordination sub sector.

4) On-going projects/programs.

Project name Sub county	**Objectives**	**Targets**	**Description activities**
Construction of DCC's office Block at Nyamira North sub-county.	To improve service delivery	To complete DCCs office.	To mobilize resources, draw the BOQs and construction
Construction of DCC's office Block at Masaba North sub-county.	To improve service delivery.	To complete DCCs office.	To mobilize resources, draw the BOQs and construction
Construction of DCC's office Block at Manga sub-county.	To improve service delivery	To complete DCCs office.	To mobilize resources, draw the BOQs and construction
Construction of DCC's residential housing in Nyamira North sub-county.	To improve service delivery	To complete DCCs residential house.	To mobilize resources, draw the BOQs and construction
Construction of DCC's residential Masaba North sub-county.	To improve service delivery	To complete DCCs Residential house.	To mobilize resources, draw the BOQs and construction
Construction of DCC's Residential housing in Manga sub-county.	To improve service delivery	To complete DCCs House.	To mobilize resources, draw the BOQs and construction
Provision of motorcycles for chiefs and assistant chiefs	Improve service delivery and	Acquisition and issuance of	Funding ,tendering and procuring

supervisors	supervision	of CSO sentence	
Correction and rehabilitation of offenders	-To restore public order and harmony. -Reduce recidivism -Empower the people	Prison service, probation service, general public, judiciary and the police	Establish additional probation resource centre, correctional institutions, rehabilitation centers and borstal institutions. -strengthening of community service orders and supervision of offenders. -Re integrate ex-convicts into the society

7.8.7 Cross sector linkages.

For any sector to thrive, it requires the contribution of this sector in terms of security, justice and good governance. On the other hand when security is guaranteed, tourism will be boosted since more tourists will visit our tourist attraction sites hence encouraging other investors to invest in hotels. The sector performance is also dependent on physical infrastructure for transport, Agriculture and Rural Development for food.

7.8.8 Strategies to mainstream cross-cutting issues

There is need to involve the youths and women in security matters especially in community policing committees. Given the role the sector plays in development, HIV and AIDS needs to be mainstreamed into its core activities since the pandemic is a threat to the security personnel. This can be done through advocacy and prevention and support programmes for those who are infected.

7.9 PUBLIC ADMINISTRATION AND INTERNATIONAL RELATIONS SECTOR.

In the County the sector is represented by the following sub sectors:-Finance and Planning, Town boards, Governor's office, County assembly, County public service board, Human resources department, Kenya national bureau of statistics.

7.9.1 Sector Vision and Mission

Vision

A leading sector in public policy formulation, implementation, coordination, supervision and prudent resource management.

Mission

To provide leadership and policy direction in resource mobilization and management for quality public service delivery.

7.9.2 County Response to Sector Vision and Mission

The main goal of the sector is to enhance management of public resources, policy formulation and implementation for economic development and safeguarding of national and county interests. In line with the Vision 2030, this sector will give priority to county planning aimed at achieving the objectives of the Vision as well as other guiding National principles and international agreements such as the Millennium Development Goals (MDGs). The County Development Planning Office will endeavour to strengthen the capacity of all stakeholders in promoting participatory monitoring and evaluation. The County Treasury will also strive to ensure that there is prudent management of public funds for the attainment of the desired objectives through efficient management that focuses on value for money. The county government of Nyamira will improve planning

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

and establishment of all upcoming urban centres as well championing the spirit of devolution as articulated in the constitution 2010.

The CIDC, which is the county resource nerve centre, plays a crucial role in provision of development information in the county. In this regard the county therefore need to construct a modern CIDC fully equipped and networked with modern ICT facilities. A staff will also be posted to manage it in order to offer better services to the public.

In the plan period, efforts to ensure active participation of communities in development process will be employed. The government in collaboration with NGOs will undertake training to enhance their capacity in development planning, monitoring and evaluation. At the same time, a monitoring, evaluation and reporting mechanism will be put in place to ensure timely feedback is received from the implementers in order to make informed decisions.

7.9.3 Importance of the sector in the county

The development Committees in the county will ensure that there is proper coordination of development activities in the county. To ensure the community derives maximum benefits from available resources, bottom up approach will be employed in the implementation of all projects and programmes. Project ownership and sustainability will be enhanced through participatory monitoring and evaluation which this sector is a leading partner.

This sector is key in terms of facilitating other sectors. It is through this sector that integration, prudent use of resources especially finances and coordination of implementation of project activities is enhanced. The sector also helps in fast tracking the delivery of services by way of provision of financial resources in timely manner. The sector also through IFMIS helps in curbing wasteful and unnecessary expenditures.

7.9.4 Role of stakeholders in the sector

Name of stakeholder	Role
Stake holder	Role of the stakeholders
County government	Provision of resources i.e. financing and personnel, Formulation of Policy guidelines, Creation of structures e.g. sub-county and county development committees and setting up and operationalising results office and Logistical support
Community	The community will play the role of providing information to this sector and initiating planning and implementation of development beside monitoring and evaluation. It will also be involved in community policing.
National government	Policy, direction and standardization functions, Financial resources (county resource allocation and disbursement, CDF and other devolved funding), Provision of secure and enabling environment, Provision of personnel performing national functions at the county level e.g. Interior and national coordination, education, registration of persons, NSIS, police department, KWF, Kenya forest service's etc.
Financial institutions	Provision of accounts through which government and donors channel their funds to devolved levels
Community	Participation in monitoring and evaluation of projects and programs, Participating in project, identification and prioritization, Assist in decision making process, Giving views/feedback on project implementation cycle hence promoting accountability
KNBS	Provision of personnel and guidelines, Automation of county statistics and establishment county data base
Media and press	Cover, highlight, sensitize, report and publish events, Facilitating airing of programs and events
Transition authority	Training and capacity building, Fast-tracking the functioning of the county government
Ethics and anti-corruption	Educate, train, sensitize and instil prudence in management of public finances, promote

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

unit	ethical behaviour, Apprehend and prosecute cases of financial mismanagement.
NGOs and donors e.g. ADB	Promotion of public participation and capacity building, Facilitation through donor funding
County public service board	Recruitment of personnel at the county
County assembly.	Legislation and checks on the executive expenditures and performance.

7.9.5 Sub-Sector Priorities, Constraints and Strategies.

Sub Sector	Priorities	Constraints	Strategies
Financial Management.	The sub-sector will strive to instil high sense of discipline in all spending units in the county; Put in place a mechanism to maximize revenue collection for all revenue centres.	Lack of adequate funds; Lack of transport ; Limited training opportunities ; Poor staffing levels	Computerization of accounting procedures at county treasury; Regular checks of all revenue collection centres to ensure that revenue is collected and accounted for; Strictly enforce of all accounting procedures, instructions to enhance financial discipline; Improve the staffing levels in the County Treasury to enhance the performance of the Treasury.
Planning and Development.	Foster socio-economic development at the grass root level	Low-staffing levels; lack of transport facilities; Inadequate I.T facilities; Inadequate funding	Provision of transport facilities; Establishments of Office and SCIDC; Development of County database and Statistical abstract; Participatory rural appraisal and feasibility studies; Provision of Internet facilities; Installation of electricity in office premises.
Regional planning	Harmonize development planning and implementation of projects	Limited resources and capacity; Lack of grass root consultation in project prioritization.	Promote community participatory approaches in identification of problems/or project, design and management.
Data collection	Ensure effective data collection, analysis and dissemination	Inadequate skilled and unskilled staff; Inadequate transport equipment and funds; Inadequate complete data base;	Increase staff and train existing ones; Adequately funding data collection and dissemination; Construction of a Sub-county Information and Documentation Centre (SCIDC) (install information management system).
Policy formulation	Involvement of all the people in coming up with policies.	Weak structure at the community level.	Strengthening of the County focus for rural development policy.
County Legislation.	Legislate on laws in which the county executive bases its operations.	Lack of staffing, offices assembly complex and residential housing.	Construct assembly housing, complex and staffing.

Purchase of vehicles for the executive use.	7	To ease operations of the executives.	The executives and its staff.	Procure and avail.

7.9.7 Cross-sector linkages.

The Public Administration and international relations Sector requires Human Resource Development sector for trained and skilled manpower. Effective implementation and proper management of devolved resources requires a linkage and close partnership bewteen the Governance, Justice, Law and Order sector and the Public Administration sector. ICT compliant public service and communities will deliver services and catalyse develoment thus quicker attainment of the district development objectives. Health sector plays an important role of ensuring service delivery is not hampered by deteriorating and poor health. The entire above are not possible if infrastructure facilities are not well maintained and developed.

7.9.8 Strategies to mainstream cross-cutting issues.

There is need to involve the youths and women in development activities, security matters and promotion of peace. Given the role the sector plays in development, there will be need to provide for more resources to support HIV/Aids programmes. This sector will also strive to increase more resources to implantation of special programmes intended to benefit the vulnerable members of the society. The sector will also make efforts to attract the young/youths who are qualified hence improving service delivery. In the plan period, involvement of special interest groups such as women, youth, disabled, PLWAs and children will be enhanced in all decision

making levels as well as during projects identification, implementation, monitoring and evaluation to in put their requirements.

CHAPTER EIGHT

IMPLEMENTATION, MONITORING AND EVALUATION

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
NAIROBI, KENYA

8.0 INTRODUCTION

This chapter presents the monitoring and evaluation mechanism that will be used during the plan implementation. The areas to be reflected include institutional framework for monitoring and evaluation, an implementation monitoring and evaluation matrix, which gives the project name, cost, time frame, monitoring indicators, instruments for monitoring, source of funding, stakeholders and their responsibilities and summary of monitoring and evaluation impact and performance indicators will form the main body of the chapter.

8.1 Institutional Frame Work for Monitoring and Evaluation in the County

To ensure that the 2013-2017 CIDP is implemented with stakeholders' involvements, its is therefore proposed that monitoring and evaluation be done at the community levels, ward levels, sub-county levels and at county level as follows; at the community level, monitoring and evaluation will be based on Community Action Plans (CAPs) conducted by the Project Management Committees to ensure community ownership.

At the Ward level the responsibility of monitoring and evaluation shall be vested in the ward Monitoring and Evaluation Committee (WD. MEC) composed of the Ward administrator, Assistant County Commissioner, ward planning officer, Ward Representative, Ward Heads of Department, representatives of NGOs, donors, religious groups, women groups, Youth groups and other stakeholders in the Ward.

At the sub-county level, monitoring and evaluation will be vested in the Sub-County Monitoring and Evaluation Committee (SCMEC), which is comprised of the Sub-County Administrator Deputy County Commissioner, Sub-County Development planning Officer, the Departmental Heads, NGO's and representatives of other development partners in the County. A system needs to be established for analysing, storing, retrieving and channelling of monitoring and evaluation information. Annual work plans from the various stakeholders shall form the basis for monitoring and evaluation. Capacity building for monitoring and evaluation will be crucial through field visits, annual reports, baseline surveys, expenditure returns and committee reports and minutes.

The County level, Monitoring and Evaluation Committee through its defined mechanisms will assists the Sub-Counties in early intervention for the anomalies, which may arise during project implementation. This will improve project implementation and facilitate timely decision – making. The committee will monitor and evaluate both short and long-term projects and programmes.

At the National level, Monitoring and Evaluation is conducted through National Integrated Monitoring and Evaluation System (NIMES), whose main aim is to improve the effectiveness and quality of tracking of implementation of various development policies, strategies and

COUNTY ASSEMBLIES FORUM (CAF)
P. O. Box 73552 - 00200,
